Item 5 Full Description of Material Change

The Company has acquired 78.3% of the outstanding common shares (the "DACCEL Shares") of Digital Accelerator Corporation ("DACCEL") and, concurrent with the acquisition, has closed a brokered private placement financing for gross proceeds of \$1,110,000 (together, the "Transactions"). The Transactions were previously disclosed by news releases dated October 16, 2003, March 15, 2004 and May 25, 2004 respectively.

Pursuant to Even's share purchase agreements (as amended since previously announced on October 16, 2003) with each of the five vendors of the DACCEL Shares (the "DACCEL Vendors"), Even issued one Even unit as consideration for each DACCEL Share it acquired, each unit consisting of one-quarter (1/4) of one common share of Even, one Series 2, Class B Preferred share of Even and one share purchase warrant. Each Series 2, Class B Preferred share entitles the holder to receive dividends representing in the aggregate 25% of the net after tax profits of Even, on a consolidated basis, which dividends will continue to be paid until the date (the "Dividend Termination Date") that is the earlier of the date on which the aggregate dividends paid on the Series 2, Class B Preferred shares is at least \$12,339,237 and January 5, 2009. Each share purchase warrant entitles the holder to purchase an additional common share of Even at a price of \$0.50 until July 22, 2006.

The private placement financing was over-subscribed from that previously announced by \$110,000. 5,550,000 (instead of 5,000,000) Units of Even were sold at a price of \$0.20 per Unit for gross proceeds of \$1,110,000. Pursuant to the agreement between Bolder Investment Partners, Ltd. and Even, Bolder received a cash commission of 8% of the gross proceeds of the financing raised by Bolder and 100,000 Units as a Corporate Finance Fee. Bolder also received an agent's warrant entitling Bolder to purchase up to 750,000 common shares of Even at a per share price of \$0.25 until July 22, 2005.

Proceeds from the private placement will be used to fund product development, working capital and for general operating expenses.

Securities issued pursuant to the Transactions are subject to a four-month hold period until November 23, 2004.
