

MacDonald Mines Exploration Ltd.

Management's Discussion and Analysis

For the Three and Six Months Ended June 30, 2019 and 2018

(Expressed in Canadian Dollars)

This Management's Discussion and Analysis ("MD&A") of financial position and results of operations of MacDonald Mines Exploration Ltd. ("MacDonald Mines" or the "Company") has been prepared based on information available to MacDonald Mines as at August 29, 2019 and should be read in conjunction with MacDonald Mines' unaudited condensed interim financial statements and related notes as at and for the six months ended June 30, 2019 and 2018. The unaudited condensed interim financial statements and MD&A are presented in Canadian dollars and have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements in accordance with IAS 34, Interim Financial Reporting.

Readers are cautioned that the MD&A may contain forward-looking statements and that actual events may vary from management's expectations. Readers are encouraged to read the "Cautionary Statement on Forward-Looking Information" at the end of this MD&A and to consult MacDonald Mines' audited consolidated financial statements for the years ended December 31, 2018 and 2017 and the corresponding notes to the financial statements which are available on our website at www.macdonaldmines.com and on SEDAR at www.sedar.com.

Business Overview and Strategy

MacDonald Mines is a publicly listed corporation on the TSX Venture Exchange ("TSXV") under the symbol BMK and is involved primarily in the identification, acquisition and advancement of mineral exploration properties with a particular focus on mineral exploration projects located in northern Ontario. MacDonald Mines' mineral properties are currently in the exploration stage. The Company does not operate any mines.

MacDonald Mines' continued operations are dependent upon the ability of the Company to obtain financing for the continued exploration of its mineral properties. The Company has not yet determined whether any of its mineral properties contain mineralization that is economically recoverable.

As of June 30, 2019, the Company had no employees other than the President & Chief Executive Officer and the Chief Financial Officer. Certain professional, administrative and geological services are provided to the Company by independent contractors, including corporations and/or individuals who may be officers or directors of MacDonald Mines.

The long-term business objectives of the Company are to:

1. acquire mineral properties it considers prospective to strengthen its portfolio of properties,
2. advance the geological knowledge of its mineral properties through successive exploration programs, and
3. if deemed advantageous, dispose of its mineral properties

The value of an exploration property is highly dependent upon the discovery of economically recoverable mineralization, the long-term preservation of the Company's ownership interest in the underlying mineral property, the ability of the Company to obtain the necessary funding to complete sufficient exploration activities on the property, and the prospects of any future profitable production therefrom, or alternatively upon the Company's ability to dispose of its property interests on an advantageous basis.

Risk factors that must be considered in achieving the Company's business objectives include the risk that exploration activities may not result in the discovery of minerals or definition of any mineral resources or reserves, that significant expenses could be required to define mineral reserves, that environmental, land title and competitive issues may prevent the development of any mineral reserves, and that the Company may fail to generate adequate funding to develop mineral reserves.

The Company accepts the risks which are inherent to mineral exploration programs and the exposure to the cyclical nature of mineral prices. The Company relies on the geological and industry expertise of its Toronto-based management team and engages sub-contractors to complete certain aspects of its exploration programs.

Corporate Developments

On August 26, 2019, the Company has completed a private placement financing for gross proceeds of \$1,000,000. The Company issued 17,860,000 common share units at a price of \$0.05 per unit and 2,140,000 flow-through common shares at a price of \$0.05 per share. Each FT share was issued on a “flow-through” basis, as defined in the Income Tax Act (Canada). Each common share unit consisted of one common share and one-half of one common share purchase warrant exercisable for a period of two years at an exercise price of \$0.075 per purchase warrant. As part of the financing the Company paid \$44,220 cash commission and issued 923,200 non-transferable compensation options for a period of two years at an exercise price of \$0.05 per compensation option.

On August 14th, 2019 in accordance with the Jovan and Powerline options agreement the Company issued 800,000 common shares and paid \$45,500 cash.

On July 16, 2019 the Company announced the expansion of its SPJ (Scadding-Powerline-Jovan) Property (the “Property”) located near Sudbury, Ontario. The Company has staked 14 claims and purchased an additional 130 claims. To acquire 100% interest in the claims owned by Blueberry Development, MacDonald Mines agrees to pay the seller \$50,000 in cash and issue 3,000,000 in the Company’s Common Shares. The deal was closed on August 15, 2019 with the fair value of the shares received of \$150,000.

On April 24, 2019 the Company signed definitive agreements with both Northern Sphere Mining Corp. (“Northern Sphere”) and Currie Rose Resources Inc. (“Currie Rose”), to purchase a 100% interest in the leases comprising the Scadding Mine, as well as additional mineral claims that surround the permitted Scadding Mine site (collectively, the “Scadding Mine”), which is located east of Sudbury in Northern Ontario. The Scadding Mine is located in Scadding Township near the Wanapitei – Ashigami Lakes district, 40 kilometres east of Sudbury, Ontario. The site was initially mined by Northgate Exploration in the mid-80’s.

To acquire Northern Sphere’s 51% interest in the Scadding Mine and 100% interest in the surrounding claims, BMK, upon satisfaction of certain conditions, will:

- issue 10,000,000 of the Company’s common shares upon transfer of title;
- make a \$100,000 cash payment;
- incur \$300,000 in eligible exploration expenditures in the 12-month period following acquisition of the Scadding Mine.

The agreement with Northern Sphere is subject to both a standstill clause and voting requirements. To acquire Currie Rose’s 49% interest in the Scadding Mine, BMK, upon satisfaction of certain conditions, will:

- issue 8,000,000 of the Company’s common shares;
- make a \$50,000 cash payment on transfer of title;
- incur \$1.5M of eligible exploration expenditures on the leases partially comprising the Scadding Mine over a three-year period.

As part of the agreement, Currie Rose retains a 3% Net Smelter Return (“NSR”) on the property. Upon reaching commercial production, BMK agrees to pay Currie Rose \$2,000,000 in exchange for a reduction of the NSR to 2.5%. An additional 1% of the NSR can be bought back for \$1,000,000. The agreement with Currie Rose is subject to both a standstill clause and voting requirements. The complete terms of the transactions will be available on SEDAR under the Company’s profile. The acquisition of the Scadding Mine, including issuance of the share consideration, is subject to TSX Venture Exchange (“TSX-V”) approval and other customary closing conditions. 514 Finance Inc. acted as an arms-length advisor to BMK for this transaction and will receive 2,000,000 BMK common shares for its services, subject to TSX-V approval.

The following table summarizes the cumulative exploration and evaluation expenditures the Company has incurred on its various properties:

Outlook

In the spring of 2019, the Company secured the Scadding Mine, located in the Scadding Township near the Wanapitei – Ashigami Lake district, 40 kilometres east of Sudbury, Ontario. With the purchase of the Scadding Mine the Company controls 10,647 hectares on its SPJ Project, east of Sudbury, Ontario that is an under-explored, polymetallic gold district that exhibits similarities to the Idaho Cobalt Belt with IOCG-like mineralization.

The summer exploration program was executed with regional prospecting on the SPJ Property, focusing on understanding the geological controls on mineralization in the area. Mid summer, the Company expanded the SPJ Property by staking 14 claims and purchased an additional 130 claims covering prospective extensions of the potential IOCG system identified at the Scadding Mine. The inaugural drill program on the SPJ Project commenced during the summer and is focused on confirming and expand zones of high-grade gold mineralization in the Scadding deposit.

Highlights of current drill program:

- The first two drill holes intersected mineralized hydrothermal breccia zones with visible gold and abundant pyrite;
- Drill hole SM-19-001 intersected two mineralized zones, including an interval with over 12 pinheads of visible gold, centered around 46 metres depth;
- Visible gold was also observed in SM-12-002 in a chlorite breccia at 24 metres depth – the hole had not been completed at the time of this press release.

The Company continues to identify and analyze, potential new prospective projects to acquire in Canada and is planning a private placement to fund the company exploration activities.

Results of Operations

Q2 2019

The Company realized a net loss of \$205,922 (Q2 2018 – loss of \$244,486) due to the increase in exploration revenue of \$74,000 (Q2 2018 nil).

The Company incurred \$ 146,575 in exploration expenditures in Q2 2019 (Q2 2018 - \$63,074), due to increase in activity.

Salaries, professional and consulting fees were \$77,385 (Q2 2018 - \$83,321) due to reduced external support. .

The Company recorded nil in Q2 2019 (Q2 2018 - nil) in share-based compensation.

During the three months ended June 30, 2019, a gain of nil (Q2 2018 - \$5,487) was recognized relating to a deferred flow-through premium.

YTD Q2 2019

The Company realized a net loss of \$ 304,290 (YTD Q2 2018 – loss of \$477,081) the increase in exploration revenue of \$74,000 (YTD Q2 2018 nil).

The Company incurred \$ 166,577 in exploration expenditures in YTD Q2 2019 (YTD Q2 2018 - \$189,259), as less work was done in the first quarter of 2019 compared to 2018.

Salaries, professional and consulting fees were \$ 104,821 (YTD Q2 2018 - \$126,273) due to reduced external support.

The Company recorded \$nil (YTD Q2 2018 - 23,882) in share-based compensation.

During the six months ended June 30, 2019, a gain of 2,891 (YTD Q2 2018 - \$12,513) was recognized relating to a deferred flow-through premium initially recognized from the December 2017 private placement

Mineral Properties

Scadding Property

On April 24, 2019 the Company signed definitive agreements with both Northern Sphere Mining Corp. ("Northern Sphere") and Currie Rose Resources Inc. ("Currie Rose"), to purchase a 100% interest in the leases comprising the Scadding Mine, as well as additional mineral claims that surround the permitted Scadding Mine site (collectively, the "Scadding Mine"), which is located east of Sudbury in Northern Ontario. The Scadding Mine is located in Scadding Township near the Wanapitei – Ashigami Lakes district, 40 kilometres east of Sudbury, Ontario. The site was initially mined by Northgate Exploration in the mid-80's.

To acquire Northern Sphere's 51% interest in the Scadding Mine and 100% interest in the surrounding claims, BMK, upon satisfaction of certain conditions, will:

- issue 10,000,000 of the Company's common shares upon transfer of title;
- make a \$100,000 cash payment;
- incur \$300,000 in eligible exploration expenditures in the 12-month period following acquisition of the Scadding Mine.

The agreement with Northern Sphere is subject to both a standstill clause and voting requirements. To acquire Currie Rose's 49% interest in the Scadding Mine, BMK, upon satisfaction of certain conditions, will:

- issue 8,000,000 of the Company's common shares;
- make a \$50,000 cash payment on transfer of title;
- incur \$1.5M of eligible exploration expenditures on the leases partially comprising the Scadding Mine over a three-year period.

As part of the agreement, Currie Rose retains a 3% Net Smelter Return ("NSR") on the property. Upon reaching commercial production, BMK agrees to pay Currie Rose \$2,000,000 in exchange for a reduction of the NSR to 2.5%. An additional 1% of the NSR can be bought back for \$1,000,000. The agreement with Currie Rose is subject to both a standstill clause and voting requirements. The complete terms of the transactions will be available on SEDAR under the Company's profile. The acquisition of the Scadding Mine, including issuance of the share consideration, is subject to TSX Venture Exchange ("TSX-V") approval and other customary closing conditions. 514 Finance Inc. acted as an arms-length advisor to BMK for this transaction and will receive 2,000,000 BMK common shares for its services, subject to TSX-V approval.

Sudbury Property

On July 18, 2018, the Company announced it acquired an option to earn 100% interests in the Jovan and Powerline properties. The purchase price was structured to be payable over a three-year period and included cash payments totaling \$225,000, the issuance of common shares valued at \$180,000 and the commitment to spend up to \$800,000 in exploration activities.

The Company made a cash payment of \$37,500 upon signing the definitive agreements. On October 5, 2018, the Company issued 500,000 common shares, valued at \$20,000 pursuant to the definitive agreement. On August 14th, 2019 in accordance with agreement the Company issued 800,000 common shares and paid \$45,500 cash.

Holdsworth Property

On December 7, 2016 ("the "Effective Date"), the Company entered into an Option and Joint Venture ("JV") agreement ("the Option Agreement") with Noble Mineral Exploration Inc. ("Noble"), to advance exploration on Noble's Wawa-Holdsworth Gold and Silver Project (the "Holdsworth Project"), located 25 kilometres northeast of Wawa, Ontario. Subject to the terms and conditions of the Option Agreement, the Company will have the right to earn up to an undivided 75% interest in the Project, comprising of a first option to earn a 51% base interest and a second option to earn an additional 24% interest. The property covers 18 contiguous patented mining claims covering approximately 285 hectares.

To earn an initial 51% undivided interest ("the Base Interest") in the Holdsworth Project, the Company issued 2,500,000 of its Class A Common Shares and 2,500,000 share purchase warrants to Noble and must incur a minimum of \$1,200,000 in expenditures in the 18-month period following the Effective Date. The share purchase warrants have an exercise price of \$0.15 and expire 3 years from the date of issue. The Company issued the common shares and share purchase warrants on January 12, 2017. To earn the additional 24% undivided interest, the Company shall incur a further \$1,000,000 of expenditures on or before the second anniversary of the date the 51% interest is exercised, and the Base Interest is earned and make a payment of \$100,000 to Noble.

On May 3, 2017, the Option Agreement was replaced with a purchase agreement whereby the Company agreed to acquire the Holdsworth Project from Noble (the "Purchase Agreement"). The purchase price comprised the following: (i) 5,500,000 units of the Company; (ii) the granting a 1.5% net smelter return royalty in favour of Noble and (iii) the payment of the equivalent of 5,000 ounces of gold once a mineral reserve or resource has been identified compliant with National Instrument 43-101 guidelines. Each unit shall comprise one common share and one share purchase warrant of the Company, with each share purchase warrant having an exercise price of \$0.30 and a 3-year term from the date of issue. The Purchase Agreement supersedes the Option Agreement. Payment of the 5,500,000 units shall be issued in tranches to ensure Noble's shareholdings in the Company does not exceed 9.9%.

As at June 30, 2019, the Company has issued 5,225,000 units to Noble under the Purchase Agreement.

Charlevoix - Silica Property

On November 18, 2016, (the "Effective Date") the Company entered into a purchase agreement with 9019-5504 Quebec Inc. to acquire a 100% interest in certain 6 mining claims located in the Province of Quebec known as the

Charlevoix Silica Property. In consideration for the purchase of the mining claims, the Company issued 9,000,000 common shares on January 12, 2017 valued at \$0.07 per share.

McFaulds Lake and Area Properties

The Company has held property in this region of northern Ontario since 2004 and is subject to net smelter royalties ("NSR") on certain claims.

On August 5, 2016, the Company entered into an agreement with Noront Resources Ltd. ("Noront") to sell 75% interest of certain lands in the property through the issuance of 2,318,393 common shares of Noront at a deemed value of \$750,000. On the date of the transaction, the fair value of the shares received was \$799,846. The Company has a 25% carried interest in the property until such time as an Inferred Mineral Resource has been filed on the property by Noront in accordance with NI43-101, at which time ("the Notification Date") a Joint Venture shall automatically be deemed to be formed between Noront and the Company.

The Company shall have twenty business days following the Notification Date (the "Conversion Right Exercise Period") in which to make a one-time election to transfer its 25% carried interest in the Property to Noront in exchange for a 1% NSR on the property.

If the Company fails to exercise the Conversion Right within the Conversion Right Exercise Period, Noront shall have the option (the "Buy-Back Option"), exercisable for twenty days following the expiry of the Conversion Right Exercise Period, to elect to purchase the Company's 25% carried interest in the Property for a purchase price of \$3,000,000 (the "Buy-Back Purchase Price"), payable in cash or Noront shares at the option of Noront.

During the year ended December 31, 2016, the Company completed a Mineral Property Acquisition Agreement with KWG Resources Inc. ("KWG") to sell the mineral claims known as the Hornby Property. In consideration of the claims sold, KWG issued 4,000,000 of its common shares to the Company. On the date of the transaction, the fair value of the shares received was \$78,600. MacDonald Mines retains a 2% net smelter return ("NSR") on the Hornby Property. KWG can purchase one percent (1%) of the NSR, at any time prior to commencement of production from the claims, by making a cash payment of \$1,000,000 to the Company. KWG retains the first right of refusal to purchase the NSR on similar transaction terms should the Company, at its sole discretion, elect to sell the entire (or any part) of the 2% NSR to a bona-fide third party.

Bob Lake Property

To acquire the property, the Company paid \$75,000, issued 2,850,000 common shares valued at \$194,000 and 300,000 now expired share purchase warrants.

Liquidity and Capital Management

Cash flow (used in)/provided by for the six months ended June 30, 2019 and 2018 was as follows:

For the six months ended June 30,			
		2019	2018
Net cash used in operating activities	\$	(77,865)	\$ (415,255)
Net cash (used in) provided by investing activities		-	(13,302)
Net cash (used in) provided by financing activities	\$	200,000	\$ (57,801)

As of June 30, 2019, the Company had a working capital deficit of \$ 1,576,183 (December 31, 2018 – deficit of \$1,279,876).

There were no changes in the Company's approach to capital management during the six months ended June30, 2019.

In managing liquidity, the Company's primary objective is to ensure the entity can continue as a going concern while raising additional funding to meet its obligations as they come due. The Company's operations to date have been funded by issuing equity.

The Company's investment policy is to invest excess cash in very low risk financial instruments such as term deposits or by holding funds in high yield savings accounts with major Canadian banks. Financial instruments are exposed to certain financial risks, which may include currency risk, credit risk, liquidity risk and interest rate risk.

The Company's mineral property interests are all in the exploration stage, as such the Company is dependent on external financing to fund its exploration activities and administrative costs. Management continues to assess the merits of mineral properties on an ongoing basis and may seek to acquire new properties or to increase ownership interests if it believes there is sufficient geologic and economic potential.

Management mitigates the risk and uncertainty associated with raising additional capital in current economic conditions through cost control measures that minimizes discretionary disbursements and reduces exploration expenditures that are deemed of limited strategic value.

The Company manages the capital structure (consisting of shareholders' deficiency) on an ongoing basis and makes adjustments in response to changes in economic conditions and risks characteristics of its underlying assets. Adjustments to the Company capital structure may involve the issue of new shares, issue of new debt, acquisition or disposition of assets, or adjustments to the amounts held in cash, cash equivalents and short-term investments.

The Company is not subject to any externally imposed capital requirements other than flow-through spending.

Related Party Transactions

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company. Key management personnel include the Board of Directors and the executive management team. The executive management team comprises the President and Chief Executive Office, Chief Financial Officer and Vice-President Exploration.

Compensation for key management personnel of the Company was as follows:

	Q2 2019	Q2 2018
Short-term benefits ⁽¹⁾	22,382	22,500
Share-based payments ⁽²⁾		-
	22,382	22,500

	YTD 2019	YTD 2018
Short-term benefits ⁽¹⁾	45,323	45,000
Share-based payments ⁽²⁾		23,882
	68,882	68,882

⁽¹⁾ Includes salary and profession fees

⁽²⁾ Represents the expense of stock options vested during the year.

As of June 30, 2019, the following related party balances were outstanding:

The Company has a short-term loan of \$200,000 (December 31, 2018 - \$50,000) owed to a company under common management. The loan bears interest at a rate of 5% per annum, is unsecured and payable upon demand. No amounts have been paid as at June 30, 2019. The Company has accrued interest of \$ 4,383 (Q1 2018 - \$7,293) related to the loan.

Included in accounts payable and accrued liabilities is an amount of \$121,511 (Q1 2018 - \$65,998) related to exploration, rent and general & administrative charges from a company under common management.

Outstanding Share Data

MacDonald Mines is authorized to issue an unlimited number of common shares.

As of August 29, 2019, the number of common shares outstanding or issuable pursuant to other outstanding securities is as follows:

Common Shares	Number
Outstanding	\$108,742,965
Issuable upon the exercise of share purchase warrants ⁽¹⁾	42,217,209
Issuable upon the exercise of stock options ⁽²⁾	6,840,500
Diluted common shares	157,800,674

(1) There were 42,217,209 share purchase warrants outstanding with exercise prices ranging from \$0.06 to \$0.30 per warrant.

(2) There were 6,840,500 stock options under the Company's Stock Option Plan outstanding to directors, officers and

consultants with exercise prices ranging from \$0.075 to \$1.00 per share and included compensation options at an exercise price of \$0.05.

Critical Accounting Estimates

The preparation of financial statements in accordance with IFRS requires management to make judgement, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Judgements, estimates and assumptions are continuously evaluated and are based on management's best knowledge of the relevant facts and circumstances, having regard to previous experience. However, actual outcomes may differ from the amounts included in the financial statements.

The Company's significant accounting policies and estimates are disclosed in Notes 2 and 3 of the Company's most recent annual financial statements.

New and Amended Standard Adopted by the Company

The following accounting standard was adopted by the Company as of January 1, 2018. The impact of the adoption of this standard and the new accounting policies are disclosed below:

IFRS 9 *Financial Instruments*

IFRS 9 *Financial Instruments* ("IFRS 9"), replaces the provisions of IAS 39 *Financial Instruments: Recognition and Measurement* ("IAS 39") that relate to the recognition, classification and measurement of financial assets and financial liabilities, derecognition of financial instruments, impairment of financial assets and hedge accounting.

The adoption of IFRS 9 on January 1, 2018 resulted in changes in accounting policies and adjustments to the amounts recognized in the financial statements. The Company has applied the changes in accounting policies retrospectively; however, in accordance with the transitional provisions of IFRS 9, comparative figures have not been restated. The reclassifications and adjustments are recognized in the opening balance sheet as at January 1, 2018 as summarized below:

- The Company's equity investments are reclassified to fair value through profit and loss ("FVTPL") from available-for-sale ("AFS") under IAS 39 because these investments are short-term in nature and not part of a strategic business model. On adoption of IFRS 9, the Company recorded an adjustment of \$17,358 to increase opening deficit with a corresponding adjustment to reduce accumulated other comprehensive income. Net loss for the six months ended June 30, 2018 was reduced by \$270 with the reclassification.

The adoption of IFRS 9 did not result in changes in the carrying values of the Company's financial instruments on January 1, 2018.

IFRIC 23 *Uncertainty Over Income Tax Treatments*

In June 2017, the IFRS Interpretation Committee issued IFRIC 23, which clarifies how the recognition and measurement requirements of IAS 12 *Income Taxes* are applied where there is uncertainty over income tax treatments. IFRIC 23 becomes effective for annual periods beginning on or after January 1, 2019 and is to be applied retrospectively with early adoption permitted. The Company is in the process of assessing the impact of IFRIC 23 on the financial statements.

Off Balance Sheet Arrangements

The Company does not have off-balance sheet arrangements including any arrangements that would affect the liquidity, capital resources, market risk support and credit risk support or other benefits.

Dividends

The Company has neither declared nor paid any dividends on its Common Shares. The Company intends to retain its earnings, if any, to finance growth and expand its operations and does not anticipate paying any dividends on its common shares in the foreseeable future.

Internal Controls Over Financial Reporting

The Company has established procedures and internal control systems to ensure the timely and accurate preparation of financial, management and other reports. The Chief Executive Officer and Chief Financial Officer certify financial reports. Disclosure controls are in place to ensure all reporting meets statutory reporting requirements. The Company's management is responsible for establishing and maintaining adequate internal controls. These controls have been designed to provide reasonable, but not absolute, assurance with respect to the Company's financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. Internal controls, however well-conceived, will provide only reasonable and not absolute assurance that the objectives of the internal controls over financial reporting will be met. It should not be expected that the disclosure and internal controls and procedures would prevent all errors or fraud.

Due to the small size of the Company's finance department, there are a limited number of personnel handling accounting and financial matters and as a result, there is a lack of segregation of duties. Management believes that it has designed sufficient compensating internal controls to mitigate these limitations, including dual signatories on all cheques. Additional internal controls include audit committee and senior management review and oversight.

The Company's certifying officers, the Chief Executive Officer and the Chief Financial Officer, have reviewed the effectiveness of the design and operation of the Company's disclosure controls and procedures as a whole. Based on their review, including a review of the compensating controls relating to the lack of segregation of duties noted above, they have concluded that the Company's internal controls and procedures, as defined in National Instrument 52-109, Certification of Disclosure in Issuer's Annual and Filings of the Canadian Securities Regulators, were effective overall.

Disclosure Controls and Procedures

Disclosure controls and procedures are designed to provide reasonable, but not absolute, assurance that all material information is obtained, analyzed and reported to senior management on a timely basis in order for management to make reasonable decisions regarding public disclosure.

The Company's certifying officers, the Chief Executive Officer and the Chief Financial Officer, have reviewed the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on their review, they have concluded that the Company's disclosure controls and procedures, as defined in National Instrument 52-109, Certification of Disclosure in Issuer's Annual and Filings of the Canadian Securities Regulators, were effective and provide reasonable assurance that information required to be disclosed in interim, annual and special filings are submitted under Canadian securities laws and are recorded, processed, summarized and reported in a timely fashion.

Other Information

Additional information relating to the Company is also available on the SEDAR at www.sedar.com.

Cautionary Statement of Forward-Looking Information

Forward-looking information is broadly defined as disclosures regarding possible events, conditions or financial performance that is based on assumptions about future economic conditions and courses of action and includes future-oriented financial information with respect to prospective financial performance, financial position or cash flows that is presented either as a forecast or a projection.

This MD&A contains forward-looking information and forward-looking statements, including statements relating to going concern and capital raising and capital requirements, that are subject to a number of known and unknown risks, uncertainties and other factors that may cause actual results to differ materially from those anticipated. In some cases, you can identify forward-looking statements by terminology such as "may", "should", "expects", "plans", "anticipates", "believes", "estimates", "predicts", "potential" or "continue" or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Factors that could cause such differences include: changes in commodity prices, changes in equity markets, changes in costs and supply of materials relevant to the exploration and mine development, changes in governments, changes to government mining regulations as well as numerous other risk factors.

Readers are cautioned not to place undue reliance on forward-looking statements contained within this document, which speak only to the date of this MD&A or as of the date otherwise specifically indicated herein. Due to risks and uncertainties, actual events may differ materially from stated expectations. Although the Company believes its expectations are reasonable, results may vary, and the Company cannot guarantee future results, levels of activity, performance or achievements.

Although the Company believes that the assumptions and factors used in preparing the forward-looking information in this MD&A are reasonable, undue reliance should not be placed on such information, which only applies as of the date of this MD&A. The Company disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, other than as required by law.
