

MILLROCK ANNOUNCES AGREEMENT WITH TOCVAN VENTURES FOR EL PICACHO PROJECT, SONORA, MEXICO

VANCOUVER, BRITISH COLUMBIA, June 8, 2021 – Millrock Resources Inc. (TSX-V: MRO, OTCQB: MLRKF) ("Millrock" or the "Company") is pleased to announce it has signed a Letter of Commitment with Tocvan Ventures Corp. (CSE: "TOC") ("Tocvan") in relation to the El Picacho gold project in the Caborca Orogenic Belt, Sonora State, Mexico. Under the Letter of Commitment, Millrock will reinstate a previously held Option Agreement ("Option Agreement") with concession owners Suarez Brothers, and assign the option rights and obligations to Tocvan. In return, Tocvan will pay back taxes owing on the mineral concessions and grant Millrock certain royalty rights in an assignment agreement ("Assignment Agreement").

The Project is located 140 kilometers north of Hermosillo in Sonora, Mexico and is fully accessible by road. Extensive surface exploration has been conducted historically defining five gold targets on the project. Millrock and Tocvan believe these targets will be ready for drill testing with surface confirmation via trenching. A permit is currently active to allow for trenching and drilling on the Project. Prior to signing the definitive Assignment Agreement between Millrock and Tocvan, the transaction is subject to an additional 60-day due diligence period effective June 7, 2021.

About El Picacho

Location and Infrastructure

- Total Area: 2,413.7 ha
- Road accessible, 140 km north-northwest of Hermosillo
- Excellent Road access. Railroad on eastern edge of Project
- 18 km southwest of San Francisco Mine.

Historic Work Summary

- Five Orogenic Gold Targets Defined: San Ramon, Tortuga, El Peurto, La Cornea, and El Jabali (see Figure 2)
- 2,650 rock samples collected
- Regional Scale mapping completed
- 3,548 soil samples collected, covering Project Area
- 70% of area covered by ground magnetic survey
- 17.8 line-km of IP surveys

- Limited drilling completed, widely spaced
- Fully permitted for drilling and trenching

Millrock President and CEO Gregory Beischer commented: “El Picacho has great exploration potential for large-tonnage, bulk minable gold deposits, and higher-grade, vein-hosted deposits. We had previously dropped our option on the project, but it was readily reinstated. In turn, we are very pleased to assign our rights to Tocvan in exchange for royalty interests that may begin cash flowing in a relatively short time period. Further, in the event that Tocvan does not complete the underlying option with the concession owners, the option rights will be returned to Millrock.”

Terms of Option Agreement

Upon assignment of the Option Agreement held by Millrock to Tocvan, Tocvan must make cash payments of \$1,989,600 USD to the underlying concession owners (the Suarez brothers) over a five-year term to acquire 100% interest in the project. In the event that Tocvan elects to withdraw from the Option Agreement, it must return the option rights to Millrock.

Terms of Assignment Agreement

In the event that Tocvan exercises its option to purchase a 100% interest from the Suarez brothers, Millrock will vest with a 2% NSR royalty. Tocvan may purchase back 1% for US\$1.0 million. The royalty contains a provision for an Annual Advance Minimum Royalty (“AMR”). The initial AMR payment to Millrock would be US\$25,000. The amount of the AMR will double each year until commercial production occurs. Any AMR payments made can be deducted from NDR royalty payments.

Qualified Person

The scientific and technical information disclosed within this document has been prepared, reviewed, and approved by Gregory A. Beischer, President, CEO, and a director of Millrock Resources. Mr. Beischer is a qualified person as defined in NI 43-101.

About Millrock Resources Inc.

Millrock Resources Inc. is a premier project generator to the mining industry. Millrock identifies, packages, and operates large-scale projects for joint venture, thereby exposing its shareholders to the benefits of mineral discovery without the usual financial risk taken on by most exploration companies. The company is recognized as the premier generative explorer in Alaska, holds royalty interests in British Columbia, Canada, and Sonora State, Mexico, is a significant shareholder of junior explorer ArcWest Exploration Inc. and owns a large shareholding in Resolution Minerals Limited. Funding for drilling at Millrock's exploration projects is primarily provided by its joint venture partners. Business partners of Millrock have included some of the leading names in the mining industry: EMX Royalty, Centerra Gold, First Quantum, Teck, Kinross, Vale, Inmet and, Altius as well as junior explorers Resolution, Riverside, PolarX, and Felix Gold.
