

ROCHESTER RESOURCES LTD.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE NINE MONTHS ENDED FEBRUARY 28, 2018

This discussion and analysis of financial position and results of operation is prepared as at April 23, 2018 and should be read in conjunction with the unaudited condensed consolidated interim financial statements and the accompanying notes for the nine months ended February 28, 2018 of Rochester Resources Ltd. ("Rochester" or the "Company"). The following disclosure and associated financial statements are presented in accordance with International Financial Reporting Standards ("IFRS"). Except as otherwise disclosed, all dollar figures included therein and in the following management discussion and analysis ("MD&A") are quoted in Canadian dollars.

Forward-Looking Statements

This MD&A contains certain statements that may constitute "forward-looking statements". Forward-looking statements include but are not limited to, statements regarding future anticipated exploration programs and the timing thereof, and business and financing plans. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are typically identified by words such as: believe, expect, anticipate, intend, estimate, postulate and similar expressions, or which by their nature refer to future events. The Company cautions investors that any forward-looking statements by the Company are not guarantees of future performance, and that actual results may differ materially from those in forward looking statements as a result of various factors, including, but not limited to, the Company's ability to identify one or more economic deposits on its properties, to produce minerals from its properties successfully or profitably, to continue its projected growth, to raise the necessary capital or to be fully able to implement its business strategies.

Historical results of operations and trends that may be inferred from this MD&A may not necessarily indicate future results from operations. In particular, the current state of the securities markets for junior resource companies may render it difficult or impossible for the Company to raise the funds necessary to continue operations.

All of the Company's public disclosure filings, including its most recent management information circular, material change reports, press releases and other information, may be accessed via www.sedar.com and readers are urged to review these materials.

Company Overview and Going Concern

The Company is a junior natural resource company engaged in the exploration and development of the Mina Real Project located in Mexico. The Company holds 100% undivided interests in the Mina Real and San Francisco Properties. In addition the Company has an agreement to acquire a 70% interest in the Santa Fe Property.

The Company's Mina Real operations continue to be affected by low grades of mineralized material and operational challenges. During the nine months ended February 28, 2018 the Company recorded a net loss of \$341,379 and, as at February 28, 2018, the Company had an accumulated deficit of \$68,145,317 and a working capital deficit of \$18,864,278. The Company has been unable to make all concession payments when due. The Company's ability to continue as a going concern is dependent on the ability of the Company to improve its operations and generate positive operating cash flow on a consistent basis, the continued financial support of its directors, shareholders and creditors and from the sale of additional common shares or other equity or debt instruments. See "Financial Condition/Capital Resources".

The Company is a reporting issuer in British Columbia, Alberta and Saskatchewan and trades on the TSX Venture Exchange ("TSXV") under the symbol "RCT", the Frankfurt Stock Exchange Open Market under the trading Symbol "R5IA" and on the Pink OTC Markets under the symbol "RCTFF". The Company's head office is located at #1305 - 1090 West Georgia Street, Vancouver, British Columbia, V6E 3V7.

Change in Officers

Effective March 14, 2018 Mr. Nick DeMare, a director and Chairman of the Company since June 2007, was appointed Chief Executive Officer (“CEO”) of the Company. Mr. Eduardo Luna, the outgoing CEO, remains a director and has assumed Mr. DeMare’s previous role as Chairman.

Property Update

The Company holds a 100% interest in Mina Real which holds a 100% interest in the Mina Real Property, a gold and silver property located in the state of Nayarit, Mexico, east of the state capital city of Tepic. Mina Real also owns 70% of Compania Minera Santa Fe S.A. de C.V. (“Compania Minera”) which holds a 100% interest in the Santa Fe gold and silver property located immediately east of the Mina Real Property. Through Mina Real the Company has an agreement to acquire a 70% interest in one concession (the “Santa Fe Property”) located near the Mina Real Property. Under the terms of the agreement the Company agreed to implement a program of exploration to determine if the Santa Fe Property can be economically exploited. In addition, if the exploration work is successful, the Company agreed to provide the necessary capital to construct a processing plant capable of processing a minimum of 200 tonnes per day. The Company has conducted limited exploration on the property and is assessing alternatives to advance the development of the Santa Fe concessions. The Company is required to pay an ongoing monthly fee of US \$10,000 to the 30% concession owners of the Santa Fe Property. All amounts have been paid for fiscal 2017 and for the nine months ended February 28, 2018. Two monthly payments from prior years remain outstanding.

On October 23, 2015 the Company filed, on SEDAR, a National Instrument 43-101 technical report on the Mina Real, Santa Fe and San Francisco Properties. The report is available for viewing at www.sedar.com. The following commentary on the properties is from this technical report.

The Mina Real Property consists of eight mining concessions and one mineral claim encompassing a total area of 21,367.42 hectares. The contiguous Santa Fe Property consists of one mining concession totaling 3,852.66 hectares. The San Francisco Property consists of twelve mining concessions encompassing 18,125.05 hectares.

The terrain on the properties is rugged and steep with deeply incised valleys. Elevations range from 800 to 1,600 meters above sea level. The climate is sub-tropical and characterized by a dry and a wet season.

At present there is no Canadian Institute of Mining, Metallurgy and Petroleum (“CIM”) or 43-101 compliant Resources or Reserves for the Mina Real Property, the Santa Fe Property or the San Francisco Property.

The Company has been processing mineralized material since 2007 when it commissioned a 200 tonne per day cyanidation plant.

The Company has conducted mining operations without defined mineral resources and the production decision was not based on a feasibility study of mineral reserves that has demonstrated technical or economic viability.

Impairment

The Mina Real operations have been affected by low grades of mineralized material, the difficulty in identification of sufficient working faces to provide consistent volumes of mineralized material and operational challenges resulting in low recoveries. The Company recorded impairment charges as follows:

Property, Plant and Equipment

During fiscal 2015 management assessed whether there were any indications of impairment of the Company’s Mina Real operations in property, plant and equipment as required by IAS 36. In light of the continued large net loss from operations, negative cash flow from operations and the low trading value of the Company’s common shares, management concluded there were indications of impairment. The Company applied a fair value-based method that took into account the Company’s financial position and results of operations and operational issues among other factors in determining an estimated recoverable amount. This method indicated that an impairment provision of \$4,000,000 was appropriate in fiscal 2015. Due to further declines from operations in fiscal 2016 the Company

recorded a further impairment charge of \$5,875,572. During fiscal 2017 the Company recorded an additional impairment of \$152,447 due to the increase in the estimate of the provision for site restoration.

Exploration and Evaluation Assets

During fiscal 2016 the Company assessed whether an impairment was required with respect to the Santa Fe Property as required by IFRS 6. In making the assessment management considered the Company's financial situation and its inability to implement an exploration work program. As a result, during fiscal 2016 and fiscal 2017, the Company recorded impairment charges of \$2,509,754 and \$310,243 respectively, to reduce the carrying value to \$nil. During the nine months ended February 28, 2018 the Company incurred \$209,037 which was initially capitalized and then impaired in accordance with IFRS.

Operations

A mining study to establish the technical feasibility and economic viability of the Mina Real Property has not been completed nor does the project host a mineral resource. As a result there is increased uncertainty and risk of economic and technical failure.

Mill operating statistics for the three months ended February 28, 2018 ("Q3"), the three months ended November 30, 2017 ("Q2"), the three months ended August 31, 2017 ("Q1") the nine months (accumulated) ended February 28, 2018 (the "2018 Period") and the nine months (accumulated) ended February 29, 2017 (the "2017 Period") are provided in the table below:

RESULTS	Q3 (Dec 1/17 - Feb 28/18)	Q2 (Sep 1/17 - Nov 30/17)	Q1 (Jun 1/17 - Aug 31/17)	2018 Period (Jun 1/17 - Feb 28/18)	2017 Period (Jun 1/16 - Feb 28/17)
Tonnes Processed	10,294 tonnes	11,082 tonnes	12,741 tonnes	34,117 tonnes	40,164 tonnes

Diamond Drilling Meters	0 meters	0 meters	0 meters	0 meters	0 meters
Access Road Kilometers	0 kilometers	0 kilometers	0 kilometers	0 kilometers	0 kilometers

Q3 Compared to Q2

Production of gold during Q3 was 7.03% higher than production during Q2 (1,079 ounces compared to 931 ounces). Silver production during Q3 was 9.9% lower than Q2 (27,623 ounces compared to 30,634 ounces). The gold equivalent production in Q3 was 7% higher than Q2 (1,431 ounces compared to 1,337 ounces). Total tonnes processed in Q3 were 7.1% less than the total tonnes processed in Q2 (10,294 tonnes as compared to 11,082 tonnes). In Q3 gold recoveries were slightly higher than Q2 (96.42% compared to 95.56%) and silver recoveries were slightly lower (53.00% compared to 53.29%).

The increase in gold equivalent produced in Q3 compared to Q2 was primarily higher due to higher gold grades fed into the process.

The negative difference in tonnes processed was due to continuing unstable ground conditions in the Florida NW area.

2018 Period Compared to 2017 Period

During the 2018 period the Company produced 2,974 ounces of gold and 93,550 ounces of silver compared to 2,701 ounces of gold and 78,826 ounces of silver during the 2017 period. The gold equivalent production during the 2018

period was 4,198 ounces as compared to 3,827 ounces during the 2017 period. The increases were as direct result of high grades and better recoveries in both gold and silver in the 2018 period. Total tonnes processed in the 2018 period were 34,117 as compared to 40,164 in the 2017 period reflecting a wetter rainy season in the 2018 period that did not allow operations in the Macedo area during Q1 and continuing unstable ground conditions in the Florida NW area during Q2 and Q3.

Drifting

The allocation for drifting amongst areas during each of Q3, Q2, Q1, the 2018 period and the 2017 period is as follows:

Area	Q3 (meters)	%	Q2 (meters)	%	Q1 (meters)	%	2018 Period (meters)	%	2017 Period (meters)	%
Tajos Cuates	0	0%	0	0%	0	0%	0	0%	0	0%
Florida NW	9	1%	0	0%	33	6%	42	3%	812	35%
Florida SE Project	316	54%	376	66%	222	42%	914	54%	974	41%
Macedo Project	0	0%	0	0%	0	0%	0	0%	0	0%
Florida IV	0	0%	0	0%	0	0%	0	0%	0	0%
San Francisco Project	264	45%	189	34%	279	52%	732	43%	563	24%
TOTAL DRIFTING	589	100%	565	100%	534	100%	1,688	100%	2,349	100%

Distribution of the development during each of Q3, Q2, Q1, the 2018 period and the 2017 period, by activity, is as follows:

Type of Drifting	Q3 (meters)	%	Q2 (meters)	%	Q1 (meters)	%	2018 Period (meters)	%	2017 Period (meters)	%
Exploration	75	13%	15	3%	206	38%	296	18%	1,308	56%
Stope Preparation	426	72%	550	97%	328	62%	1,304	77%	1,041	44%
Projects and Infrastructure	88	15%	0	0%	0	0%	88	5%	0	0%
TOTAL DRIFTING	589	100%	565	100%	534	100%	1,688	100%	2,349	100%

The primary decrease in drifting during the 2018 period compared to the 2017 period was due to the continuing unstable ground conditions in the Florida NW area.

Exploration and Development Activities

The Company has ongoing exploration and development programs at the Mina Real Project to identify additional mineralized material to provide mill feed for operations. Due to the inclement weather and unstable ground conditions during Q2 and majority of Q3 the exploration and development works were only ongoing at Florida SE and San Francisco. During the end of February 2018 work resumed at the Florida NW Project. The Company continues to work to advance development of working faces however its efforts are curtailed due to a lack of available capital equipment, particularly compressors and scoop trams. Poor operating results have resulted in diminished working capital to fund work programs. The Company remains in a precarious position as it has to identify better quality mineralized material but its ability to do so is hampered by a lack of capital.

Operations

Total production during Q3 from the various working faces was 13,532 wet tonnes (Q2 - 12,018 wet tonnes). Of this production 2% (Q2 - 0%) came from Florida NW, 0% (Q2 - 2%) from Tajos Cuates, 55% (Q1 - 52%) from Florida SE, and the remaining 43% (Q1 - 46%) from the San Francisco Project.

Mill Area

The lack of available working capital had resulted in delays for completion of capital works programs. Some minor works were completed but work on the 10' x 10' mill remains on standby and has yet to be completed. There is no time line for the completion of the work on the 10' x 10' mill.

Selected Financial Data

The following selected financial information is derived from the unaudited condensed consolidated interim financial statements of the Company.

Three Month Period Ending	Fiscal 2018			Fiscal 2017			Fiscal 2016	
	Feb 28/18 \$	Nov 30/17 \$	Aug 31/17 \$	May 31/17 \$	Feb 28/17 \$	Nov 30/16 \$	Aug 31/16 \$	May 31/16 \$

Results of Operations

Three Months Ended February 28, 2018 Compared to Three Months Ended November 30, 2017

During the three months ended February 28, 2018 (“Q3”) the Company reported income of \$31,609 compared to a loss of \$568,069 for the three months ended November 30, 2017 (“Q2”). The fluctuation was primarily attributable to:

- (i) the recognition of a foreign exchange gain of \$217,131 in Q3 compared to a foreign exchange loss of \$112,821 in Q2 due to the fluctuation of the Canadian dollar and Mexican peso exchange rates; and
- (ii) an overall change in operating income from an income of \$329,205 in Q3 compared to \$64,196 in Q2 due to increased grades and consistent recoveries resulting in improved gold equivalent production. See also “Production”.

Nine Months Ended February 28, 2018 Compared to Nine Months Ended February 28, 2017

During the nine months ended February 28, 2018 (the “2018 period”) the Company recorded a loss of \$341,379 compared to a loss of \$1,318,180 for the nine months ended February 28, 2017 (the “2017 period”), a decrease in loss of \$976,801. The fluctuation was primarily attributed to:

- (i) the recognition of a foreign exchange gain of \$707,125 in the 2018 period compared to a foreign exchange gain of \$148,725 in the 2017 period due to the fluctuation of the Canadian dollar and Mexican peso exchange rates; and
- (ii) an overall change in operating income from an income of \$469,832 in the 2018 period compared to an income of \$89,829 in the 2017 period due to increased grades and consistent recoveries resulting in improved gold equivalent production. See also “Production”.

Production

During the 2018 period the Company sold 4,117 equivalent ounces of gold and realized revenues of \$1,538 per equivalent ounce as compared to the sale of 3,552 equivalent ounces of gold and realized revenues of \$1,673 per equivalent ounce during the 2017 period.

The Company's cost of operations per equivalent ounce of gold sold during the 2018 period was \$1,424 as compared to \$1,648 during the 2017 period. The decrease of \$224 per ounce reflects a \$185 decrease in direct operating cost of sales, a \$41 decrease in depletion and amortization and a \$2 increase in the provision for site restoration.

Direct operating cost of sales for the 2018 and 2017 periods comprise the following:

	2018 \$	2017 \$
Mine costs	1,822,626	1,886,477
Mill costs	1,472,680	1,414,858
Service department costs	<u>2,015,196</u>	<u>1,938,880</u>
	<u>5,310,502</u>	<u>5,240,215</u>

General and administrative expenses for the 2018 and 2017 periods are as follows:

	2018 \$	2017 \$
Accounting and administrative	42,000	38,400
Audit and tax services	49,711	50,206
Legal	9,221	12,705
Management fees	99,000	99,000
Office	55,605	36,658
Professional fees	90,279	93,818
Regulatory fees	6,503	6,403
Salaries and benefits	180,016	163,477
Shareholder costs	82	2,281
Transfer agent fees	6,171	4,127
Travel	7,601	5,986
Reversal of amounts previously recorded	<u>-</u>	<u>(25,749)</u>
	<u>546,189</u>	<u>487,312</u>

General and administrative expenses of \$546,189 were reported for the 2018 period, compared to \$487,312 during the 2017 period. Specific expenses of note during the 2018 period are as follows:

- (i) professional fees totalling \$90,279 (2017 - \$93,818) were recorded of which \$89,465 (2017 - \$90,116) were recorded to directors and officers;
- (ii) legal fees totalling \$9,221 (2017 - \$12,705) were incurred primarily for services and ongoing retainers for the Company's Mexican operations;
- (iii) recorded office expenses of \$55,605 (2017 - \$36,658) of which \$54,591 (2017 - \$34,709) were incurred for the operations in Mexico; and
- (iv) during the 2017 period the Company reversed \$25,749 of amounts previously recorded or accrued for which no requests for payments have been made.

Exploration and Evaluation Assets

During the 2018 period the Company incurred additions, net of recoveries, of \$209,307 (2017 - \$246,706) on exploration and evaluation assets for the Santa Fe property, mainly for payments of ongoing monthly fees of US \$10,000 to the 30% concession owners and annual mineral concession payments. The Company recorded an offsetting impairment charge of \$209,307 (fiscal 2017 - \$310,243) to reflect management's continued assessment of a \$nil carrying value of the Santa Fe property.

Exploration, development and production activities conducted during the 2018 period are described in “Property Update” in this MD&A.

Financing and Advances

During the 2018 and 2017 periods the Company did not complete any financings and is reliant on advances from its senior officers for working capital. During the 2018 period the Company received advances totalling \$475,031 (2017 - \$221,521) and repaid \$32,204 (2017 - \$nil).

Financial Condition / Capital Resources

During the 2018 period the Company recorded a net loss of \$341,379 and, as at February 28, 2018, the Company had an accumulated deficit of \$68,145,317 and a working capital deficit of \$18,864,278. The Company’s Mina Real operations continue to be affected by low grades of mineralized material and operational challenges. The Company continues to have negative cash flows from operations and has been unable to make all concessions payments when due in the current and prior years for the Mina Real, San Francisco and Santa Fe properties. The Company’s ongoing operations are dependent on extracting ore from the Mina Real and San Francisco properties and, therefore, on the Company’s ability to preserve its interest in the underlying mineral property interests. In the immediate term, the Company’s ability to continue as a going concern is dependent upon its ability to improve its operations to generate positive operating cash flow from the Mina Real and Santa Fe properties on a consistent basis, to raise additional capital to fund its ongoing business operations and exploration projects and repay indebtedness as they come due. Additional capital may be sought from existing shareholders and creditors and from the sale of additional common shares or other equity or debt instruments. There is no assurance such additional capital will be available to the Company on acceptable terms or at all. In the longer term the discovery of economically recoverable reserves, the achievement of profitable operations and the ability of the Company to obtain financing to support its ongoing exploration programs and mining operations. Whether the Company can generate positive cash flow on a consistent basis and, ultimately, achieve profitability is uncertain. These uncertainties cast significant doubt upon the Company’s ability to continue as a going concern.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements.

Proposed Transactions

The Company has no proposed transactions.

Changes in Accounting Policies

There are no changes in accounting policies.

Related Party Disclosures

A number of key management personnel, or their related parties, hold positions in other entities that result in them having control or significant influence over the financial or operating policies of those entities. Certain of these entities transacted with the Company during the reporting period.

(a) *Transactions with Key Management Personnel*

On March 14, 2018, Mr. Nick DeMare was appointed as the CEO of the Company replacing Mr. Eduardo Luna. Mr. Luna assumed Mr. DeMare's previous role as Chairman. During the 2018 and 2017 periods the following amounts were incurred with respect to Messrs. Luna and DeMare and the Company's Chief Financial Officer, Mr. Jose Manuel Silva:

	2018 \$	2017 \$
Management fees - Mr. Luna	99,000	99,000
Professional fees - Mr. DeMare	27,360	27,360
Professional fees - Mr. Silva	17,105	17,756
	<u>143,465</u>	<u>144,116</u>

As at February 28, 2018, \$943,473 (May 31, 2017 - \$801,546) remained unpaid.

(b) *Transactions with Other Related Parties*

(i) During the 2018 and 2017 periods the following amounts were incurred with respect to the Company's non-executive directors (Messrs. Joseph Keane, Marc Cernovitch, Simon Tam and Michael Magrum) and the Company's Corporate Secretary (Mr. Harvey Lim):

	2018 \$	2017 \$
Professional fees - Mr. Keane	9,000	9,000
Professional fees - Mr. Cernovitch	9,000	9,000
Professional fees - Mr. Tam	9,000	9,000
Professional fees - Mr. Magrum	9,000	9,000
Professional fees - Mr. Lim	9,000	9,000
	<u>45,000</u>	<u>45,000</u>

As at February 28, 2018, \$323,250 (May 31, 2017 - \$278,250) remained unpaid.

(ii) During the 2018 period the Company incurred a total of \$42,000 (2017 - \$38,400) to Chase Management Ltd. ("Chase"), a private corporation owned by Mr. DeMare, for accounting and administration services provided by Chase personnel, excluding Mr. DeMare's services. As at February 28, 2018, \$29,495 (May 31, 2017 - \$3,695) remained unpaid.

(c) The Company has received ongoing advances which bear interest at a rate of 9% per annum and have no fixed terms of repayment. During the 2018 period the Company repaid principal of \$32,204 (2017 - \$nil). The Company recognized \$83,626 (2017 - \$86,273) of interest expense. As at February 28, 2018, \$569,352 (May 31, 2017 - \$504,278) of interest remained unpaid.

As at February 28, 2018, \$1,235,657 of the principal was outstanding of which \$891,233 is due to Mr. Luna and \$344,424 is due to private corporations controlled or affiliated with Mr. DeMare.

- (d) The Company has also received ongoing advances which bear interest at a rate of 12% per annum and have no fixed terms of repayment. During the 2018 period the Company received advances totalling \$475,031 (2017 - \$221,521). In addition the Company recognized \$292,953 (2017 - \$265,817) of interest expense. As at February 28, 2018 \$1,336,112 (May 31, 2017 - \$1,095,295) of interest remained unpaid.

As at February 28, 2018 a total of \$3,465,459 of the principal was outstanding of which a total of \$3,453,439 of these advances are due to Mr. Luna (\$3,100,384), Mr. Keane (\$25,618) and private corporations controlled or affiliated with Mr. DeMare (\$327,437).

- (e) During fiscal 2013 the Company completed a secured convertible debenture financing of \$950,000 of which a total of \$677,000 of the debentures were issued to Mr. Luna (\$577,000), Mr. Magrum (\$50,000) and Mr. Keane (\$50,000). During the 2018 period the Company repaid \$4,814 and recorded \$142,110 (2017 - \$137,045) of interest expense. As at February 28, 2018 \$959,395 (May 31, 2017 - \$822,098) of interest remained unpaid. On December 31, 2014 the debentures matured and are considered to be due and payable, with accrued interest. The debenture holders have not demanded repayment of principal or accrued interest.
- (f) A total of \$3,631,000 principal amounts are due to E-Energy Ventures Inc. ("E-Energy") and United Coal Holdings Ltd. ("United Coal") which are secured by the assets of the Company and interest is calculated at 9% per annum on the declining balance at the end of the month. During the 2018 period the Company recorded \$244,421 (2017 - \$244,421) of interest. As at February 28, 2018 principal totalling \$3,631,000 (2017 - \$3,631,000) and interest payable of \$1,745,364 (May 31, 2017 - \$1,500,943) remained outstanding. Neither E-Energy nor United Coal has demanded payment of the amounts in arrears. The Company, E-Energy and United Coal are related by way of a common director, Mr. Simon Tam.

Risks and Uncertainties

The Company advises that it did not base its production decision on a feasibility study of mineral reserves, demonstrating economic and technical viability, and, as a result, there may be an increased uncertainty of achieving any particular level of recovery of minerals or the cost of such recovery, including increased risks associated with developing a commercially mineable deposit. Historically, projects which proceed without a feasibility study have a much higher risk of economic and technical failure.

The Company competes with other mining companies, some of which have greater financial resources and technical facilities, for the acquisition of mineral concessions, claims and other interests, as well as for the recruitment and retention of qualified employees.

The Company is in compliance in all material regulations applicable to its exploration activities. Existing and possible future environmental legislation, regulations and actions could cause additional expense, capital expenditures, restrictions and delays in the activities of the Company, the extent of which cannot be predicted. Before production can commence on any properties, the Company must obtain regulatory and environmental approvals. There is no assurance that such approvals can be obtained on a timely basis or at all. The cost of compliance with changes in governmental regulations has the potential to reduce the profitability of operations.

The Company's activities are conducted in Mexico. Consequently, the Company is subject to certain risks, including currency fluctuations and possible political or economic instability which may result in the impairment or loss of mining title or other mineral rights, and mineral exploration and mining activities may be affected in varying degrees by political stability and governmental regulations relating to the mining industry.

Outstanding Share Data

The Company's authorized share capital is unlimited common shares without par value. As at April 23, 2018, there were 20,460,882 issued and outstanding common shares and 1,185,000 warrants outstanding with an exercise price of \$0.05 per share.
