FogChain's RadJav Rapid Application Development Platform Integrates with Apple's iOS Operating System

Vancouver, Canada and San Carlos, California - FogChain Corp. (OTCQB:FOGCF; CSE:FOG; FWB:MUU3) ("FogChain" or the "Company") is pleased to announce that RadJav has completed the integration of the iOS operating system into its platform.

FogChain, a next-generation, fully integrated software development, testing and deployment provider, gives developers a suite of rapid development tools and resources for the creation of apps, smart contracts, mobile apps and decentralized apps (dApps). Through FogChain's recent acquisition of Quilmont Solutions, it now provides automated testing, Continuous Integration and Deployment (CI/CD), and software quality assurance.

The RadJav platform provides rapid application development tools and resources to build and launch applications across all devices – from PCs to tablets and smartphones, as well as operating systems such as Linux, Windows, Mac OS X, and now Apple's iOS 12 – all using the same code. RadJav's unified development environment also includes full support of Cryptographic Security, Databases, a 3D rendering engine, resource libraries, as well as templates and tools, all of which are available to develop with today. The iOS operating system, which is owned and maintained by Apple Inc. (Nasdaq: AAPL), is one of the world's leading smartphone and mobile device operating systems. iOS 12, the latest version released in September, includes iPhones (iPhone S, 6 Plus and later), iPads (5th generation and later), iPod Touch (6th generation), iPad Mini (2 and later), and iPad Air (and later generations). The iPhone X is considered the most popular smartphone in the world and Apple's top 5 smartphones have shipped over 40 million units in the first half of 2018, with Apple now having over 1.3 billion total active devices in the market globally.

FogChain's CEO, James Cerna, commented, "This is a significant achievement for RadJav and FogChain in that we can now develop for and integrate with one of the world's leading mobile operating systems and the coveted Apple brand, which has evolved into a part of everyday life for businesses, enterprises, and individuals alike and connects us to an active install base of over a billion devices. This also provides the Company with the ability to better serve our clients, as well as the developer community at large, especially considering the increasing demand for mobile-first development initiatives."

Nathanael Coonrod, VP of Engineering for FogChain and the inventor of RadJav, stated, "Integrating with iOS is one of the biggest benchmarks to date for RadJav in terms of the impact and connectedness it provides our platform, as well as the capabilities it now offers for developers. I have to give special thanks to our development team for helping make this happen, and we're all very excited about more new releases we have planned."

About FogChain Corp.

FogChain (OTCQB: FOGCF; CSE: FOG) is a fully integrated, end-to-end software development life cycle (SDLC) and quality assurance solutions provider. Combined with a decentralized Fog (edge network) and high-performance application development platform, FogChain's suite of services and technology provides application development at scale with greater speed, efficiency and at a lower cost. With the recent explosive demand for more edge computing and security within the Micro-

Service, IoT, mobile data and driverless vehicle space, FogChain's *Build-Once Deploy-Everywhere* software architecture provides developers with a suite of tools and resources that bridges devices, operating systems, and the ability to build and launch exciting new applications in a unified environment. Led by a team of Cloud and SaaS veterans, FogChain is uniquely positioned to be a leader in the next super wave of the $500 billion software development market. Learn more at **www.FogChainInc.com**

FORWARD LOOKING STATEMENTS

This news release contains "forward-looking information" and "forward-looking statements" (collectively, "forward-looking statements") within the meaning of the applicable Canadian securities legislation. All statements, other than statements of historical fact, are forward-looking statements and are based on expectations, estimates and projections as at the date of this news release. Any statement that involves discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions, future events or performance (often but not always using phrases such as "expects", or "does not expect", "is expected", "anticipates" or "does not anticipate", "plans", "budget", "scheduled", "forecasts", "estimates", "believes" or "intends" or variations of such words and phrases or stating that certain actions, events or results "may" or "could", "would", "might" or "will" be taken to occur or be achieved) are not statements of historical fact and may be forward-looking statements. In this news release, forward-looking statements relate, among other things, to: the terms and conditions of the Transaction; use of funds; and the business and operations of the Company. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable, are subject to known and unknown risks, uncertainties, and other factors which may cause the actual results and future events to differ materially from those expressed or implied by such forward-looking statements. Such factors include, but are not limited to: general business, economic, competitive, political and social uncertainties; and the delay or failure to receive board, shareholder or regulatory approvals. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on the forward-looking statements and information contained in this news release. Except as required by law, the Company assumes no obligation to update the forward-looking statements of beliefs, opinions, projections, or other factors, should they change, except as required by law.
