

FORM 51-102F3

MATERIAL CHANGE REPORT

Item 1 Name and Address of Company

Canadian International Pharma Corp.
2489 Bellevue Avenue
West Vancouver, British Columbia V7V 1E1

(the "Company" or "CIPC")

Item 2 Date of Material Change

February 5, 2016

Item 3 News Release

Issued in West Vancouver, B.C. on February 5, 2016 and disseminated through the facilities of Market News and Stockwatch.

Item 4 Summary of Material Change

Canadian International Pharma Corp. closes balance of Non-Brokered Private Placement.

Item 5 Full Description of Material Change

5.1 Full Description of Material Change

Further to the Company's news releases of February 1, 2016, CIPC is pleased to report that the Company has issued an additional 714,286 units (the "Units") at \$0.07 per Unit for additional gross proceeds of \$50,000 under its non-brokered private placement (the "Private Placement"). As a result, the Company has raised an aggregate of \$500,000 by the issuance of 7,142,857 Units. Each Unit consists of one common share and one share purchase warrant, with each warrant entitling the holder to purchase an additional common share for a period of one year at an exercise price of \$0.15. The initial 6,428,571 Units issued pursuant to the Private Placement are subject to a hold period expiring on May 30, 2016 and the additional 714,286 Units are subject to a hold period expiring on June 4, 2016.

The Company intends to use the proceeds from this Private Placement for financing the continued development and pursuit of business opportunities in the area of pharmaceutical and nutraceutical manufacturing and general working capital purposes.

About Canadian International Pharma Corp.

Canadian International Pharma Corp ("CIPC" or the "Company") intends to develop a multi-faceted generic drug manufacturing, distribution and testing / certification company. Once CIPC has obtained its expected Canadian Good Manufacturing ("GMP") license, it intends to focus on applying GMP standards to generics manufactured outside of Canada so that these generics can be certified and tested on an ongoing basis as meeting Canadian standards. The Company also plans to utilize its anticipated GMP license and its planned Canadian manufacturing facility to produce generics and nutraceuticals in Canada for the Canadian market. CIPC also plans to take advantage of international market demands for Canadian and US manufactured nutraceuticals and, in connection therewith, CIPC intends to negotiate and establish distribution agreements with Canadian and US nutraceuticals manufacturers.
