This is the form of material change report required under section 85(1) of the *Securities Act* and section 151 of the *Securities Rules*.

FORM 53-901F
(Previously Form 27)

MATERIAL CHANGE REPORT UNDER
SECTION 85(1) OF THE *SECURITIES ACT* (BRITISH COLUMBIA)

NOTE: This form is intended as a guideline. A letter or other document may be used if the substantive requirements of this are complied with.

NOTE; If this report is filed on a confidential basis, put at the beginning of the report in block capitals “CONFIDENTIAL – SECTION 85”, and file in an envelope marked “Confidential – Attention: Supervisor, Financial Reporting”.

1 Reporting Issuer

WHITE TIGER MINING CORP.
2489 Bellevue Avenue
West Vancouver, British Columbia V7V 1E1

Telephone (604) 922-2030

(the “Company” or “White Tiger”)

2 Date of Material Change

November 24, 2011

3 Press Release

Issued in West Vancouver, B.C. on November 24, 2011 under Section 85 (1) of the Act and disseminated through the facilities of Market News, Stockwatch and Marketwire.

4 Summary of Material Change

The Company reported the assay results from drill holes RMZ 11-20, 22, 26, 27 & 28 for its Marshall Lake Property project in Ontario.

5 Full Description of Material Change

Further to the Company’s news releases of November 9, and November 21, 2011, White Tiger reported the assay results from five additional core drill holes (RMZ 11-20, 22, 26, 27 & 28). All of these drill holes were designed as step out holes to the northwest (for RMZ 11-22, 26, 27 & 28) and to the southeast (for RMZ 11-20) on trend to test the continuity of the mineralization in the “RM Zone South” (formerly referred to as the “Lease Zone”).

To date, all of the Company’s drill holes within the RM Zone South have intersected copper, silver and gold over significant intercepts with the one exception of drill hole RMZ 11-20 which intersected no significant mineralization.

Drill hole RMZ 11-28 (which is the furthest hole to date along the geological trend to the northwest) intercepted near surface a significant 7 metres of 2.5% copper, 8.9 grams/tonne silver and 0.067 grams/tonne gold. The RM Zone South remains open to the northwest and, based on the assay results for drill hole RMZ 11-28, the Company believes that the grades are significantly improving in that direction.

The assay results for drill hole RMZ 11-22, 11-26, 11-27 and 11-28 are as follows:

Hole Number	From (metres)	To (metres)	Width (metres)	Cu (%)	Ag (g/tonne)	Au (g/tonne)
RMZ 11-22	6	17	11	0.70	1.8	0.014
RMZ 11-26	58	71	13	0.20	0.9	0.005
and	80	96	16	0.43	0.7	0.008
RMZ 11-27	109	113	4	0.57	1.6	0.024
RMZ 11-28	28	65	37	0.69	2.4	0.016
including	28	35	7	2.50	8.9	0.067
including	28	30	2	3.38	11.8	0.148
and	32	34	2	4.00	14.7	0.064
and	76	89	13	0.32	1.0	0.005

The true width of the mineralized zones is estimated to be 66% of the mineralized intersections.

The Marshall Lake Property is a copper, silver and gold exploration project located 30 km west of Nakina, Ontario and is accessible via a good all weather gravel road from Hwy 11 and is 22 km north of the main CNR rail line.

Drill core was split at the Marshall Lake property and sample preparation was done by ALS Chemex in Thunder Bay, Ontario. Pulp samples (<75 microns) were then sent by secure courier to ALS Chemex in North Vancouver, British Columbia and analyzed by ICP spectrometer ("ICP") using a 0.5g representative pulp dissolved in Aqua Regia (3 acid) digestion. All samples grading over 1.0% copper were re-assayed with ore grade ICP and Aqua Regia digestion. Gold analysis was done on a 30 gram sample by fire assay extraction with AA ("Atomic Absorption") finish.

White Tiger has the option to earn a 50% interest in the Marshall Lake project from Rainy Mountain Royalty Corp. (“Rainy Mountain” – TSX-V:RMO) and Marshall Lake Mining PLC (“MLM”) by spending $4 million in exploration expenditures over 5 years and issuing 2 million shares over 4 years to Rainy Mountain. As well, White Tiger has the additional option to increase its interest to 75% by incurring such additional expenditures as are necessary to take the project to bankable feasibility stage.

This news release has been reviewed and approved by Rick Walker P.Geo., who is acting as the Company’s Qualified Person for the Marshall Lake property project, in accordance with regulations under NI 43-101.

For further information, contact Mr. Clive Shallow, Shareholder Communications, at 604-922-2030, Robert A. Young, Investor Relations, at 604-682-5123 or visit the Company’s website at www.whitetigermining.com
