3 Press Release

Issued in West Vancouver, B.C. on August 30, 2012 under Section 85 (1) of the Act and disseminated through the facilities of Market News and Stockwatch.

4 Summary of Material Change

The Company to commence drilling on its Marshall Lake Copper-Silver-Gold Property, Ontario.

5 Full Description of Material Change

As a follow up to its news release of August 20, 2012, the Company announced that DJ Drilling of Aldergrove, British Columbia has advised the Company that they will commence drilling on the Company's Marshall Lake copper, silver and gold exploration property on September 2, 2012. The commencement of White Tiger's drilling program was delayed by DJ Drilling as a result of its own scheduling and earlier commitments to other drilling assignments.

The principal purpose of this next phase of drilling is to continue core drilling within the copper, silver and gold discovery of the RM Zone and to infill drill the area in an effort to further expand and commission a NI 43-101 compliant resource. The Company plans to drill a minimum of 4,000 metres and anticipates completion of the drilling program in early October. Thereafter, assays will be released once they have been received and reviewed by the Company.

White Tiger has the option to earn a 50% interest in the Marshall Lake project from Rainy Mountain Royalty Corp. ("Rainy Mountain" – TSX-V:RMO) and Marshall Lake Mining PLC ("MLM") by spending $4 million in exploration expenditures over 5 years and issuing 2 million shares over 4 years to Rainy Mountain. As well, White Tiger has the additional option to increase its interest to 75% by incurring such additional expenditures as are necessary to take the project to bankable feasibility stage.
