This is the form of material change report required under section 85(1) of the *Securities Act* and section 151 of the *Securities Rules*.

FORM 53-901F
(Previously Form 27)

MATERIAL CHANGE REPORT UNDER
SECTION 85(1) OF THE *SECURITIES ACT* (BRITISH COLUMBIA)

NOTE: This form is intended as a guideline. A letter or other document may be used if the substantive requirements of this are complied with.

NOTE; If this report is filed on a confidential basis, put at the beginning of the report in block capitals "CONFIDENTIAL – SECTION 85", and file in an envelope marked "Confidential – Attention: Supervisor, Financial Reporting".

1 Reporting Issuer

WHITE TIGER MINING CORP.
2489 Bellevue Avenue
West Vancouver, British Columbia V7V 1E1

Telephone (604) 922-2030

(the "Company" or "White Tiger")

2 Date of Material Change

March 4, 2013

3 Press Release

Issued in West Vancouver, B.C. on March 4, 2013 under Section 85 (1) of the Act and disseminated through the facilities of Market News and Stockwatch.

4 Summary of Material Change

White Tiger Announces 3D Modeling Completed for its Marshall Lake Property, Ontario

5 Full Description of Material Change

White Tiger Mining Corp. (the "Company" or "White Tiger") is pleased to report that it has completed new survey control of cut grid lines within and adjacent to the RM Zone copper discovery on its Marshall Lake property. The new survey was conducted using a Trimble ProXRT2 with OmniStar XP real-time differential GPS to sub metre (nominally 30 cm) accuracy. The Company then commissioned Caracle Creek International of Toronto to reinterpret previously obtained surface IP (Induced Polarization) data read from the grid. The Company is now in receipt of an unconstrained 2D inversion of said data, interpolated and expressed as 3D chargeability and conductivity isosurfaces to an effective depth of investigation of 120 metres below surface. Four discrete chargeability anomalies are apparent, which when interpreted with the copper 3D grade shell model, appear to further define the RM copper zones, with the best geophysical responses yet to be tested.

The Marshall Lake property is an advanced exploration stage copper (Cu), silver (Ag) and gold (Au) project located 30 km west of Nakina, Ontario (access is via good all weather gravel road from Hwy 11 and 22 km north of the main CNR rail Line).

The Company is presently analyzing recently received assay results and is still awaiting additional assay results for the remainder of holes drilled in the Company's recently completed drilling program. The Company will announce the remaining assay results when received and analyzed.

The Company is planning to recommence drilling on the Marshall Lake property later this month (March), however, should there be any startup delays, drilling will be postponed long enough to obtain an exploration permit under the new permitting requirements which come into effect on April 1, 2013.

White Tiger has the option to earn a 50% interest in the Marshall Lake property project from Rainy Mountain Royalty Corp. (“Rainy Mountain” – TSX-V:RMO) and Marshall Lake Mining PLC (“MLM”) by spending $4 million in exploration expenditures over 5 years and issuing 2 million shares over 4 years to Rainy Mountain. As well, White Tiger has the additional option to increase its interest to 75% by incurring such additional expenditures as are necessary to take the project to bankable feasibility stage. As at October 31, 2012 (the Company’s most recent fiscal year end), White Tiger has earned a 25% joint venture interest in the Marshall Lake property project.

This news release has been reviewed and approved by Gordon Gibson, P.Geo., who is acting as the Company’s Qualified Person for the Marshall Lake property project, in accordance with regulations under NI 43-101.

For further information, contact Mr. Clive Shallow, Shareholder Communications, at 604-922-2030, Robert A. Young, Investor Relations, at 604-682-5123 or visit the Company’s website at www.whitetigermining.com
