About VanadiumCorp:

VanadiumCorp is a Canadian Critical metals exploration company owning 100% of two strategic properties in Quebec: The Iron T and the flagship Lac Doré property. The company is advancing innovative technologies to extract vanadium-titanium and potentially high-grade iron from its vanadiferous titanomagnetite projects. The successful implementation of these technologies is expected to ensure a stable, long-term supply of the company's critical metal deposits, which include vanadium feedstock for electrolyte production. Our initial electrolyte facility, located in Val-des-Sources, Quebec, will serve a dual purpose: evaluating the quality of the outputs and facilitating the initial production of electrolytes. Furthermore, the company intends to expand its production of electrolytes for the international market, specifically for long-duration Vanadium Flow Batteries (VRBs).
