WHITE METAL RESOURCES CORP.

Notes to the Condensed Consolidated Interim Financial Statements

Six months ended October 31, 2016

(Unaudited - Expressed in Canadian dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

The Company is incorporated in British Columbia, Canada and has been primarily involved in the acquisition and exploration of mineral properties in the Province of Ontario, Canada. The address of its corporate office and principal place of business is 684 Squier Street, Thunder Bay, Ontario, Canada, P7B 4A8.

At the date of these financial statements, the Company has not been able to identify a known body of commercial grade ore on any of its properties. The ability of the Company to recover the costs it has incurred to date on these properties is dependent upon the Company being able to identify a commercial ore body, to finance its exploration and development costs and to resolve any environmental, regulatory, or other constraints which may hinder the successful development of the property. Although the Company is unaware of any defects in its title to its mineral properties, no guarantee can be made that none exist.

These financial statements have been prepared on the basis of a going concern, which presumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the entity's ability to continue as going concern as described in the following paragraph. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying financial statements.

The Company has a need for financing for working capital, and the exploration and development of its properties. The ability of the Company to continue operations is dependent upon the continued financial support of its shareholders, other investors and lenders, and the successful development of the Company's interests in the mineral properties in which it holds interests. The Company has not determined whether any of the properties contain mineral reserves that are economically recoverable. It is not possible to predict whether financing efforts will be successful or if the Company will attain profitable levels of operations. Since inception, the Company has incurred cumulative operating losses of \$380,924 and expects to incur further losses in the development of its business, and at October 31, 2016 has no source of operating revenue. These financial statements include no adjustments which might become necessary if the Company cannot meet its obligations and continue on a going-concern basis.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The accounting policies followed in these condensed interim financial statements are the same as those applied in the audited annual consolidated financial statements of the Company for the year ended April 30, 2016.

The policies applied in these interim condensed financial statements are based on IFRS issued and outstanding as of December 5, 2016, the date the Audit Committee approved the statements. Any subsequent change to IFRS after this date could result in changes to the financial statements for the period ended October 31, 2016.

The condensed interim financial statements do not contain all disclosures required under IFRS and should be read in conjunction with the audited annual financial statements and the notes thereto for White Metal Resources for the year ended April 30, 2016.

WHITE METAL RESOURCES CORP.

Notes to the Condensed Consolidated Interim Financial Statements

Six months ended October 31, 2016

(Unaudited - Expressed in Canadian dollars)

2. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

b) Basis of preparation

These financial statements have been prepared on the historical cost basis. The presentation and functional currency of the Company is the Canadian dollar. These financial statements include the accounts of the Company and its wholly-owned subsidiary 1191557 Ontario Corp.

All transactions and balances between the Company and its subsidiary are eliminated on consolidation. Amounts reported in the financial statements of the subsidiary have been adjusted where necessary to ensure consistency with the accounting principles adopted by the Company.

c) Significant accounting judgments, estimates and assumptions

The preparation of the Company's financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Critical judgements in applying accounting policies:

The following are critical judgments that management has made in the process of applying accounting policies and that have the most significant effect on the amounts recognized in these financial statements:

- The determination that the Company will continue as a going concern for the next year; and
- The determination that there have been no events or changes in circumstances that indicate that the carrying amounts of exploration and evaluation assets may not be recoverable.

3. RESTRICTION ON THE USE OF CASH

During the period ended October 31, 2016, the Company issued common shares that were designated as being flow-through shares. One of the conditions of issuing flow-through shares is that the Company is required to retain the gross proceeds for the exclusive purpose of paying for qualified Canadian exploration expenditures associated with its exploration and evaluation assets.

	October 31, 2016	April 30, 2016
Restricted cash, beginning of period	\$ -	\$ -
Gross proceeds received upon issuance of flow-through shares	356,500	-
Qualified exploration expenditures paid from these funds	(283,762)	-
Restricted cash, end of period	<u>\$ 72,738</u>	<u>\$ -</u>

		\$		\$
Alset Energy Corp.	25,000	2,750	25,000	1,500
Benton Resources Inc.	25,000	2,125	25,000	1,375
Minfocus Exploration Corp.	250,000	6,250	450,000	22,500
Balance, end of period		11,125		25,375

All marketable securities are classified as available for sale.

During the period ended October 31, 2016, the Company disposed of 350,000 shares of Minfocus Exploration Corp. ("Minfocus") for net proceeds of \$15,475. The shares sold had a carrying value of \$10,500 and the resulting gain of \$4,975 was recorded as income in the current period. The Company received an additional 150,000 shares of Minfocus International during the current period related to the Seagull property option agreement. The shares were valued at \$5,250 and were recorded as a reduction in the deferred exploration and evaluation assets during the current period.

ONTARIO PROPERTIES

a) Seagull/Disraeli Property, Ontario

The Seagull/Disraeli property is owned 40% by Canadian International Pharma Corp. (formerly Black Panther Mining Corp.), with the Company and Rainy Mountain Royalty Corp. (“Rainy Mountain”) each owning 30% interests (the three owners consolidated to be, collectively, the “Companies”). The Seagull/Disraeli Property consists of 191 mineral claim units in the Anders Lake and Leckie Lake areas and is subject to an aggregate 2.4% NSR royalty, of which 1.4% can be purchased by the Company or Rainy Mountain at any time for \$2,000,000.

On February 17, 2011, the Companies granted an option to Minfocus International Inc. (subsequently renamed Minfocus Exploration Corp.) (“Minfocus” or the “Optionee”) of Toronto, Ontario, entitling the Optionee to earn an interest in the Seagull/Disraeli property. Under this agreement, the Optionee has the initial option to earn a 55% interest in the Seagull/Disraeli property from the Companies upon paying each its pro-rata share of \$55,000 cash and 50,000 common

WHITE METAL RESOURCES CORP.

Notes to the Condensed Consolidated Interim Financial Statements

Six months ended October 31, 2016

(Unaudited - Expressed in Canadian dollars)

shares of Minfocus (of which the Company received \$15,000 in cash and 63,559 common shares valued at \$12,000, based on the reorganized share capital of Minfocus). Additionally, the Optionee is required to pay the Companies an aggregate of \$25,000 (in cash and/or common shares of the Optionee) on each of the 12, 24 and 36 month anniversaries of the agreement (an aggregate of \$3,750 in cash and 211,441 shares of Minfocus received by the Company). The Optionee is also required to incur minimum exploration expenditures on the Seagull/Disraeli property of \$250,000 in each year of the four-year initial option term (the first three years of expenditures have been completed). The Optionee could acquire a further 15% interest in the property (to 70%) by incurring an additional \$2,000,000 in expenditures during the initial four-year option term. Finally, the Optionee has the right to increase its interest to 85% by completing a feasibility study on the property. By an amending agreement, dated February 11, 2015, the Companies agreed to allow the Optionee to extend the four-year exploration period to September 30, 2015 and to extend the additional 70% earn in option period to September 30, 2016 in return for the Optionee issuing 1,000,000 Minfocus shares to the Companies (300,000 shares received by the Company on February 27, 2015, valued at \$6,000, representing the Company's 30% pro rata share of such issuance).

During the period ended October 31, 2016, the Companies granted another extension of the option period to September 30, 2017, with Minfocus able to extend the option period to September 30, 2018 by paying the Companies \$30,000. With this extension, Minfocus is required to incur \$250,000 in exploration expenditures (originally required to be incurred during the fourth year of the option) by September 30, 2017, or by September 30, 2018 if the option period is extended, to earn the initial 55% interest in the Seagull/Disraeli property and can earn a 70% interest by incurring cumulative expenditures of \$3,000,000 and issuing 1,000,000 Minfocus shares to the Companies prior to September 30, 2019. Minfocus is to issue 500,000 Minfocus common shares to the Companies as consideration for this extension.

b) Other Properties

The Company also retains certain other Ontario mineral property interests, including the Kasagiminnis Lake Property, West Porcupine Project, Vanguard Property, Norton Lake Property, Pickle Lake East Property, Tilly Property, and Nighthawk Joint Venture. All such interests were originally owned by Trillium and were booked at nominal amounts on the acquisition described in note 2. Refer to note 11a).

In June 2015, the Company entered into an agreement with Copper Lake Resources Ltd. ("Copper Lake") pursuant to which Copper Lake issued 2,000,000 shares to White Metal Resources to obtain the Company's 9.09% stake in the Norton Lake Project. The shares were valued at \$80,000, with the value of this consideration received recorded in the current year as a gain on the disposition of exploration and evaluation assets.

In June 2015, the Company entered into an agreement to sell 2,000,000 common shares of Copper Lake, received pursuant to the Norton Lake Project sale, to a director for \$50,000. As a result, a loss of \$30,000 on the disposition of the shares was recorded in the current year.

On February 25, 2016, the Company sold its West Timmins Property (also known as the West Porcupine Property) to Probe Metals Inc. for the sum of \$120,000. White Metal Resources will retain a 1% NSR on the property which can be purchased at any time for \$1,000,000. The \$120,000 received was recorded as a gain on the disposition of exploration and evaluation assets.

On July 4, 2016, the Company secured an Option Agreement (the "Murchison Option") with its Joint Venture Partner, Murchison Minerals (CSE:MUR) ("Murchison"), formerly Manicouagan Minerals Inc., to acquire Murchison's joint venture interest in certain mining claims located in the Pickle Lake area of northwestern Ontario. The Murchison Option requires the Company to pay Murchison \$45,000 (\$10,000 paid) over the first two years of the three year option period and expend \$1,200,000 over three years (work commitment) to acquire Murchison's 51% ownership of the Pickle Lake Claims (the "claims"). Once the option is completed, Murchison would retain a 1% NSR royalty, of which one-half could be bought by the Company for \$2,500,000, with the second 50% purchasable for \$1,500,000. Included in the Murchison Option are certain claims held 100% by Murchison and also all claims that were included in the Joint Venture Agreement with the Company.

WHITE METAL RESOURCES CORP.

Notes to the Condensed Consolidated Interim Financial Statements

Six months ended October 31, 2016

(Unaudited - Expressed in Canadian dollars)

5. EXPLORATION AND EVALUATION ASSETS *(continued)*

The Company secured a second Option Agreement (the “Kukkee Option”) for certain mining claims located in the Pickle Lake area of northwestern, Ontario. The Kukkee Option requires the Company to issue to the vendor 1,500,000 common shares over the four-year option period (200,000 common shares were issued on July 11, 2016) and also make cash payments to the vendor that total \$110,000 (\$15,000 paid) over the first three years of the four-year option period. The Property is subject to a 2% NSR of which 1% can be bought out at any time by the Company for \$1,000,000. Annual advance royalty payments of \$50,000 cash are due and payable to the Optionor commencing April 15, 2026 and will continue until commencement of commercial-scale production.

LABRADOR PROPERTY

a) Senecal Lake Property

The 100% owned Senecal Lake Property was acquired by the Company through staking and is located in the Natashquan River and Senecal Lake area of southwest Labrador. The property originally consisted of 416 claims, plus an additional 210 claims subject to an option agreement as described below.

In January 2014, the Company entered into an option agreement with Metals Creek Resources Corp. (“Metals Creek”), a public company related by a director in common, to acquire a 100% interest in 210 claims located in the Senecal Lake area by issuing 500,000 post-consolidation common shares (1,250,000 pre-consolidation shares issued) to Metals Creek and reimbursing Metals Creek’s staking costs. Metals Creek retains a 1% NSR on the claims and the Company also granted Metals Creek a 1% NSR on certain of the Senecal Lake claims originally staked by the Company.

After entering into the Metals Creek option agreement, the Company agreed in January 2014 to option 367 of the original staked claims and sub-option the 210 Metals Creek claims to Platinum Metals Group Ltd. (“Platinum”). Platinum could have acquired a 71% interest in these claims by paying \$40,000 to the Company and incurring \$1,300,000 in exploration expenditures on the property over four years as follows:

- (i) \$40,000 cash payment (received) on January 23, 2014;
- (ii) Incurring \$150,000 in exploration expenditures by January 23, 2015;
- (iii) Incurring a further \$150,000 in exploration expenditures by January 23, 2016;
- (iv) Incurring a further \$250,000 in exploration expenditures by January 23, 2017; and
- (v) Incurring a further \$750,000 in exploration expenditures by January 23, 2018.

After completion of the option, Platinum and the Company were to form a joint venture through terms to be negotiated. The property was to be subject to a 2% NSR, as to 1% to each of the Company and Metals Creek. Platinum could have purchased up to 1% of the NSR by making payments of \$500,000 to each of the Company and Metals Creek.

In June 2015, Platinum served notice of termination of the option to the Company. The Company retained a 100% interest in the property.

The Company has since let the property lapse and currently holds no mining claims in the area. Historical recoveries received in excess of capitalized expenditures related to this property of \$23,197 were recognized as a gain on the disposition of exploration and evaluation assets in the April 30, 2016 fiscal year.

WHITE METAL RESOURCES CORP.

Notes to the Condensed Consolidated Interim Financial Statements

Six months ended October 31, 2016

(Unaudited - Expressed in Canadian dollars)

6. SHARE CAPITAL

- a) The authorized share capital of the Company consists of an unlimited number of common shares.

Details of the Company's share capital transactions during the six month period ended October 31, 2016 are as follows:

- (i) On July 11, 2016 the Company issued 200,000 common shares valued at \$0.075 per share related to the on-signing share payment on the Kukkee option described in note 4.
- (ii) The Company closed a non-brokered private placement in two tranches by issuing 6,041,666 flow-through units ("FT") at a price of \$0.06 per FT unit and 5,083,331 non flow-through units ("NFT") at a price of \$0.06 per NFT unit for gross proceeds of \$667,500. Each FT unit consists of one flow-through common share and one-half of one share purchase warrant, each whole warrant entitling the holder to acquire one additional common share at a price of \$0.15 per share expiring between July and August 2018. Each NFT unit consists of one common share and one common share purchase warrant, each warrant entitling the holder to acquire an additional common share of the Company at a price of \$0.15 expiring between July and August 2018. The warrants are subject to an acceleration clause if the Company trades at or above \$0.25 for a period of 10 consecutive days. In addition, the shares issued in the private placement are subject to a four-month hold period.

The Company also paid cash finders' fees, commissions and expenses totaling \$36,242 related to the private placement and issued a total of 397,333 broker warrants with each warrant entitling the holder to acquire a common share of the Company at a price of \$0.15 per share for a period of 24 months following closing.

- b) Share-based payments and share purchase options

The Company applies the fair value method of accounting for share-based payments using the Black Scholes valuation model.

For options granted on April 12, 2016, the fair value of each vested option is \$0.0487 and was estimated on the grant date with the following assumptions: dividend yield of 0%, expected volatility of 210%, a risk-free interest rate of 0.88% and an expected life of approximately 5 years.

For options granted on August 27, 2014, the fair value of each vested option is \$0.0621 and was estimated on the grant date with the following assumptions: dividend yield of 0%, expected volatility of 147.8%, a risk-free interest rate of 1.52% and an expected life of approximately 5 years.

The continuity of share purchase options is as follows:

	Number of Options	Weighted Average Exercise Price
		\$
Outstanding, April 30, 2015	1,610,000	0.10
Granted	275,000	0.10
Expired/Cancelled	(500,000)	0.10
Outstanding, April 30, 2016/October 31, 2016	1,385,000	0.10

(1) At October 31, 2016, the weighted-average remaining contractual life of stock options outstanding is 3.14 years (April 30, 2016 – 3.65 years)

8. CAPITAL MANAGEMENT

The Company's objectives for the management of capital are to safeguard the Company's ability to continue as a going concern, including the preservation of capital, and to achieve reasonable returns on invested cash after satisfying the objective of preserving capital.

The Company considers its cash and cash equivalents to be its manageable capital. The Company's policy is to maintain sufficient cash and deposit balances to cover operating and exploration costs over a reasonable future period. The Company accesses capital markets as necessary and may also acquire additional funds where advantageous circumstances arise.

The Company currently has no externally-imposed capital requirements except to maintain sufficient cash and deposit balances to meet exploration commitments entered into pursuant to flow-through share purchase agreements.
