NEWS RELEASE 00-04

TRADING SYMBOL LCR.V

SEC 12g3-2(b) #82-1756

www.luceroCorp.com

The Company has agreed to terms of a further non-brokered private placement wherein Lucero will issue US \$200,000 worth of units of the Company at a price of Cdn \$0.15 per unit. Each unit will be comprised of one common share in the capital of the Company and one share purchase warrant. Each share purchase warrant will entitle the holder to acquire an additional common share for a period of 18 months, at a price of \$0.17 per share during the first six months and at a price of \$0.20 per share for the balance of the term.

Proceeds of the financing will be used to conduct drilling on the Macromin porphyry copper prospect (southern targets) in Northern Chile.

Phase I exploration will consist of a 16 hole (4,000 mt. R.C.) drill program in order to test 6 copper porphyry targets where the Company has previously performed extensive work (mapping, trenching, assays and Geophysical testing).

A contract with a drilling contractor has been signed and drilling is scheduled to start the first week of June 2000.

**ON BEHALF OF THE BOARD
OF LUCERO RESOURCE CORP.**

(Signed) *Gary Belik*

Gary Belik, President
