Form 51-102F3
Material Change Report

MATERIAL CHANGE REPORT UNDER SECTION 7.1 OF NATIONAL INSTRUMENT 51-102

NOTE: WHERE THIS REPORT IS FILED ON A CONFIDENTIAL BASIS PUT AT THE BEGINNING OF THE REPORT IN BLOCK CAPITALS "CONFIDENTIAL".

Item 1. Name and Address of Company

Aldever Resources Inc. (the "Company")
2200 HSBC Building,
885 West Georgia Street
Vancouver, B.C.
V6C 2E8

Item 2. Date of Material Change

November 18, 2015

Item 3. News Release

The news release was disseminated through TSX, BC Securities Commission, Alberta Securities Commission, Stockwatch and Market News.

Item 4. Summary of Material Change

Aldever Resources Inc. (**ALD** – TSX.V, **ALDVF** – OTCQB, Frankfurt: **17G1**) ("Aldever" or the "Company") is pleased to announce that on November 18, 2015, the TSX Venture Exchange accepted for filing an option agreement with an arm's length vendor, by which the Company can earn 100% interest in the Urban Barry Gold Project "the UB Project"), located approximately 200 kilometers north east of Val D'Or, in the Province of Quebec.

Item 5. Full Description of Material Change

Aldever Resources Inc. (**ALD** – TSX.V, **ALDVF** – OTCQB, Frankfurt: **17G1**) ("Aldever" or the "Company") is pleased to announce that on November 18, 2015, the TSX Venture Exchange accepted for filing an option agreement with an arm's length vendor, by which the Company can earn 100% interest in the Urban Barry Gold Project "the UB Project"), located approximately 200 kilometers north east of Val D'Or, in the Province of Quebec.

The UB Project covers an area of 1,128 hectares and is ~18 kilometers east of, and lies in the same geological district as, Oban Mining's Windfall Lake Deposit, which has a an estimated mineral resource*of 748,000 ounces of gold at 8.42 g/t gold in the indicated category, and 860,000 ounces of gold at 7.62 g/t gold in the inferred category.

** Source: Oban Mining Corporation website - SRK (Canada) November 2014 Technical Report. These estimates of gold resources are sourced from publicly available materials and are not located on the Urban Barry Property. Aldever has not undertaken any independent investigation of the production/resource estimates, nor has it independently analyzed the publicly available results.*

In addition, the UB Project is also located ~13 kilometers northeast of Bonterra Resources' Gladiator Project, which has met with considerable success from their 2015 drilling programs (See Bonterra Resources News Release of November 4, 2015).

The UB Property, which is surrounded on all sides by mineral claims controlled by Oban Mining Corporation, is situatied within the Urban-Barry Greenstone Belt lies within the eastern portion of the Abitibi Subprovince which has an east-west extent of approximately 135 kilometres with ranges from 4 to 20 kilometres in width along its strike extent,. Lithological units within this terrane include sequences of basalt flows withintercalated felsic rhyolities to more mafic volcaniclastic rocks that have been deformed and metamorphosed to the greenschist facies. The volcaniclastic sequence has been intruded by syn-volcanic to late (post mineralization) intrusions. Dominant structural fabrics trend to the northeast, with variable dips between 30 to 85° to the southeast. The principal exploration target at the UB Project is a seven kilometer strike length of regional scale faulting of the Abitibi Greenstone Belt which lies within the UB Property bounds.

Under the terms of the agreement, Aldever can earn 100% interest in the project by issuing 3,500,000 common shares within 5 days of TSX Venture Exchange approval, paying $250,000 in 18 months and incurring $1,000,000 in qualifying exploration expenditures over a five year period. A 1% GOR (Gross Overriding Royalty) has been granted to the vendor, of which 0.5% may be purchased by Aldever for $1,000,000. All shares issued are subject to a statutory hold period of four months plus a day from the respective date of issuance, in accordance with applicable securities legislation.

The technical contents of this news release have been prepared under the supervision of Dr. Peter Born, P. Geo. Dr. Born is a Qualified Person, as that term is defined in National Instrument 43-101, and has approved this news release.

Item 6. Reliance on Section 7.1(2) or (3) of National Instrument 51-102

Nothing in this form is required to be maintained on a confidential basis.

Item 7. Omitted Information

Not applicable.

Item 8. Senior Officers

Clive Massey, President & C.E.O.
Phone: (604) 622-1199

Item 9. Date of Report

Dated at Vancouver this 19th day of November, 2015.

By: Aldever Resources Inc.
