

PRESS RELEASE

CIRCLE Group accelerates the digitalization of intermodal logistics with two new strategic projects worth over € 300,000

Integration of MILOS® federative platforms for intermodal logistics, eFTI, e-CMR, customs interoperability, and paperless transport flows digitalization, in line with the European eFTI Regulation and the objectives of the Italian Recovery and Resilience Plan (PNRR)

Milan, November 12, 2025

[Circle S.p.A.](#) ("CIRCLE" or the "Company") - an Innovative SME listed on the **Euronext Growth Milan market**, heading the Group specialized in the process analysis and the development of solutions for the digitalisation of the port and intermodal logistics sectors, as well as in the international consultancy on Green Deal and energy transition topics – has signed two new strategic projects under the **LogIN Business** program, for a total value exceeding €300,000. Both initiatives, carried out with **leading transport and logistics operators**, aim to accelerate the **digitalization and interoperability of transport, logistics, and customs flows**, in line with European standards and the innovation guidelines promoted by the PNRR.

At the technological core of these projects is **MILOS®**, Circle Group's proprietary platform that enables a federative digital ecosystem for the integrated management of transport, shipping, and intermodal processes. The platform, already a European benchmark for supply chain digitalization, has been enhanced with new modules for **e-CMR** and **e-DDT** management (**in collaboration with Accudire**), enabling the complete dematerialization of transport documents and digital signing by all involved operators. These functionalities ensure traceability, security, and regulatory compliance while drastically reducing time, errors, and paper management costs, introducing a **paperless** approach that contributes tangibly to environmental sustainability.

At the same time, the projects include the development of a federative infrastructure **capable of automatically connecting Italian and European ports, inland terminals, and logistics hubs**, and interacting with customs systems. Thanks to the **MILOS® Node**

Connector, operators will be able to exchange real-time information on missions, transport orders, authorizations, and document checks, improving efficiency and reducing waiting times at logistics nodes.

The solutions also feature advanced **Business Intelligence** and **Control Tower** functionalities for continuous monitoring of operational performance and resource planning optimization. All modules are interoperable with major existing TMS and ERP systems and are **eFTI-compliant** (EU Regulation 2020/1056), which regulates the digital exchange of transport data at the EU level from 2025 and will become mandatory for European control authorities from 2027.

With these initiatives, CIRCLE further consolidates its position as a leading technological partner for logistics and transport digitalization, continuing along the strategic lines of its *Connect 4 Agile Growth* industrial plan. The goal is to strengthen the competitiveness of Italian and European companies and promote an **intelligent, interoperable, and sustainable** logistics ecosystem that combines innovation, efficiency, and environmental responsibility.

“These new projects represent a decisive step toward truly digital and interoperable logistics. Through the federative technologies of MILOS®, we are providing the sector with tools that overcome the fragmentation of systems and processes, enabling continuous dialogue among companies, logistics nodes, and authorities. This is a tangible transformation that goes beyond document digitalization to reshape the entire information architecture of the supply chain. In an increasingly integrated and sustainability-driven European context, Circle reaffirms its commitment to leading change and strengthening the competitiveness of the Italian logistics system, in line with our Connect 4 Agile Growth plan.” — said **Luca Abatello, CEO of Circle Group**

Founded in Genoa in 2012, Circle S.p.A. is the Innovative SME leading Circle Group, a company listed on Euronext Growth Milan since 2018 and specialized in the analysis and development of solutions for innovation and digitalization in the port and intermodal logistics sectors, as well as in international consultancy on Green Deal and energy transition topics.

*The Group includes the software houses **Info.era**, **NEXT Freight**, **eXyond**, **Cargo Start**, the consulting firms **Magellan Circle** and **Magellan Circle Italy**, **NEXT Customs**, as well as the affiliated company **ACCUDIRE**.*

*In the field of digital innovation, the **Milos® Intelligence** platform integrates advanced technologies such as AI, simulation, and Digital Twin to support decision-making processes and the digitalization of systems, through solutions like the **Extended Port Community System, MasterSPED®, Milos® TOS, Milos® MTO, Milos® TFP, Milos® Global Supply Chain Visibility, and StarTracking®**. Complementing the offering, **Federative Services (cloud-based)** enable a more efficient migration towards digital business models.*

*Through **Magellan Circle and Magellan Circle Italy**, the Group is active in Brussels and across Europe in **advocacy activities with the European Institutions**, supporting public bodies and companies with services in **Strategic Communication and Advocacy and EU Funding Accelerator**, with a focus on the Green Deal and energy transition.*

*With **Cargo Start**, specialized in technological solutions for air cargo, Circle has strengthened its offering in a strategic segment of the **Connect 4 Agile Growth** industrial plan. With **eXyond**, the Group operates in advanced **infomobility** services (InfoBluNewGen) and telematics solutions for the logistics, transport, and insurance sectors (Kmaster).*

*Circle also holds a 22% stake in the innovative startup **ACCUDIRE**, which offers a collaborative platform for document management along global supply chains, starting from **e-CMR and e-DDT** (electronic consignment note). With **NEXT Customs**, the Group develops digital services for customs optimization, contributing to the harmonization of processes in line with the strategic directions of **Connect 4 Agile Growth**.*

***Circle S.p.A. has been listed on the Euronext Growth Milan** market of Borsa Italiana since October 26, 2018 (alphanumeric code: CIRC; ISIN code ordinary shares: IT. 0005344996).*
