

PRESS RELEASE

CIRCLE GROUP accelerates the digitalisation of the port supply chain with a new Milos® project

A strategic initiative worth approximately €280,000 to support the digital evolution of multimodal maritime terminals

Milan, December 22, 2025

CIRCLE Group ("CIRCLE" or the "Company") - an Innovative SME listed on the **Euronext Growth Milan market**, heading the Group specialized in the process analysis and the development of solutions for the digitalization of the port and intermodal logistics sectors, as well as in the international consultancy on Green Deal and energy transition topics – announces the launch of a new **Digital Supply Chain** project based on the **Milos®** ecosystem, aimed at implementing a digital and optimised system for managing operational processes, using real-time data and simplifying customs procedures.

The project, with a total value of approximately **€280,000**, is part of the **LogIN Business** initiatives and is part of the Group's growth path aimed at promoting the adoption of advanced digital solutions along the supply chain, with a particular focus on operational efficiency, interoperability between systems and data quality.

The initiative involves the implementation of the **Milos® Terminal Operating System (TOS)** Suite and specific application modules of the **Milos®** platform, designed to support the integrated management of terminal operations and improve coordination between the various players involved in logistics and document flows. The solution will enable real-time visibility of operational activities and greater integration with existing information systems.

The project is also developed in line with the **European eFTI Regulation (EU Regulation 2020/1056)** and contributes to the progressive digitalisation of transport information, promoting the structured and secure exchange of data and anticipating regulatory developments in the field of digital logistics.

Thanks to the adoption of the **Milos®** ecosystem, the initiative aims to significantly increase the **efficiency of operational processes, reducing management times, complexity and operating costs**. The introduction of **document dematerialisation** and information flow optimisation solutions also eliminates paper, contributing to the achievement of environmental sustainability objectives. Finally, the modernisation of digital infrastructure, in line with the requirements of the “Login Business” call for tenders, strengthens the competitiveness of the logistics-port system, promoting more integrated and multimodal management of sea-land flows and advanced, data-based decision-making models.

“This initiative confirms Circle’s ability to transform the operational complexity of the supply chain into value through concrete and scalable digital solutions, contributing in a tangible way to the growth of Circle’s order portfolio and the progressive enhancement of the Milos® ecosystem. The project strengthens our presence in the port and logistics segment and is part of the Group’s development path, supporting continuity in the execution of the “Connect 4 Agile Growth” business plan” commented **Luca Abatello, Chairman and Chief Executive Officer of Circle Group.**

This press release is available in the Investor Relations section of the website www.circlegroup.eu and www.1info.it.

Founded in Genoa in 2012, Circle S.p.A. is the Innovative SME leading Circle Group, a company listed on Euronext Growth Milan since 2018 and specialized in the analysis and development of solutions for innovation and digitalization in the port and intermodal logistics sectors, as well as in international consultancy on Green Deal and energy transition topics.

The Group includes the software houses Info.era, NEXT Freight, eXyond, Cargo Start, the consulting firms Magellan Circle and Magellan Circle Italy, NEXT Customs, as well as the affiliated company ACCUDIRE.

*In the field of digital innovation, the **Milos® Intelligence** platform integrates advanced technologies such as AI, simulation, and Digital Twin to support decision-making processes and the digitalization of systems, through solutions like the **Extended Port Community System**, **MasterSPED®**, **Milos® TOS**, **Milos® MTO**, **Milos® TFP**, **Milos® Global Supply Chain Visibility**, and **StarTracking®**.*

*Complementing the offering, **Federative Services (cloud-based)** enable a more efficient migration towards digital business models.*

*Through **Magellan Circle** and **Magellan Circle Italy**, the Group is active in Brussels and across Europe in **advocacy activities with the European Institutions**, supporting public bodies and companies with services in **Strategic Communication and Advocacy and EU Funding Accelerator**, with a focus on the Green Deal and energy transition.*

*With **Cargo Start**, specialized in technological solutions for air cargo, Circle has strengthened its offering in a strategic segment of the **Connect 4 Agile Growth** industrial plan. With **eXyond**, the Group operates in advanced **infomobility** services (InfoBlu NewGen) and telematics solutions for the logistics, transport, and insurance sectors (Kmaster).*

*Circle also holds a 22% stake in the innovative startup **ACCUDIRE**, which offers a collaborative platform for document management along global supply chains, starting from **e-CMR** and **e-DDT** (electronic consignment note). With **NEXT Customs**, the Group develops digital services for customs optimization, contributing to the harmonization of processes in line with the strategic directions of **Connect 4 Agile Growth**.*

Circle S.p.A. has been listed on the Euronext Growth Milan market of Borsa Italiana since October 26, 2018 (alphanumeric code: CIRC; ISIN code ordinary shares: IT. 0005344996).
