Item 4. Summary of Material Change

Drill program planned on BR/SC.

Item 5. Full Description of Material Change

Vancouver, British Columbia, June 15, 2005 - The Board of Directors of International Samuel Exploration Corp. are pleased to announce drilling has commenced on the BRSC Property located in the Contwoyto Lake area, Nunavut.

The planned drill program will test at least 3 high priority geophysical targets. The targets consist of two isolated circular magnetic low anomalies (Anomaly BR-07 and BR-19) with coincident EM anomalies and one isolated circular magnetic high anomaly (Anomaly BR-29). The targets are located approximately 20-25 kms north of Tahera's Jericho Project. The diamond drill program is under the supervision of Martin St. Pierre, P.Geoph., Project Manager BRSC Property and a Director of Samuel, a qualified person under NI 43-101.
