Item 4: Summary of Material Change

INTERNATIONAL SAMUEL ACQUIRES 100% INTEREST
IN THE LUCIFER PROPERTY, DRILL PERMITS, AND STOCK OPTIONS

Item 5: Full Description of Material Change

International Samuel Exploration Corp. (the “Company” or “International Samuel”) (TSXV: ISS USA: ISSFF FSE: RFC2) announces that the Company will complete the purchase of its 100% interest in the Lucifer property by issuing one million common shares to the Vendors, subject to TSX Venture Exchange approval. The Lucifer property (comprising 4,588.41 hectares) located in northwestern British Columbia's Golden Triangle. The property is located in the northeastern part of the Golden Triangle, along the same geological trend as Evrim Resources' Ball Creek property, Colorado Resources' Hank and North Rok properties, Skeena Resources' GJ property, GT Gold Corp.'s Tatogga property, and Imperial Metals' Red Chris mine.

The Lucifer Property has two historical shallow drill holes completed in 1991 (Noranda), which reportedly intersected 15.1 g/t gold over 1.36 meters and 0.7 g/t gold over 5.70 meters. In addition to the mapped alteration zone and strong soil geochemical anomalies Noranda identified multiple strong “gold in stream” anomalies in the central part of the property which have not been followed up. The Company has also received a drill permit for the Lucifer property and will do conduction geophysics before further drilling commences.

In addition, on exercise, International Samuel will grant a 2-per-cent net smelter return royalty, of which 1.5 per cent can be purchased by International Samuel at $500,000 per 0.5 per cent. This transaction is subject to TSX Venture Exchange approval.

Dr. Shane Ebert has resigned as a director from company due to other work commitments. The Company would like to thank Dr. Shane Ebert for his invaluable contribution to International Samuel.

Stock Options
The Company announces that it has granted incentive stock options to directors, officers, employees, and consultants to purchase up to an aggregate of 1,122,065 common shares of the Company at an exercise price of $0.05 per share for a term of five years from the date of the grant. The incentive stock options were granted in accordance with the Company's Stock Option Plan.

The technical information in this press release has been reviewed and approved by Derrick Strickland P. Geo. the Vice President of Exploration.
