WORLD WISE INTRODUCES ROBSIM.COM BUSINESS UNIT

Markham, Ontario - World Wise Technologies Inc. ("World Wise") announces the introduction of its new e-commerce business unit, RobSim.com. RobSim.com will revolutionize the plant automation and enhancement process. Its team of plant logistics experts will facilitate the plant automation and enhancement process ensuring successful results for all clients. World Wise's RobSim.com and General Cybernetics Inc. complementing products and services, as well as targeted marketing strategies, will maximize our opportunity to capitalize on the plant logistics and enhancements sector of the market place, *globally*.

The RobSim.com business unit is based on 3 products/services:

1. ***I S.T.E.P.*** (One Source To Easy Problem-solution) is a "Knowledge Base" service providing links to plant logistics information, products and services on the internet;
2. ***PAL*** (Plant Automation Logistics) software, a visualization solution (i.e. simulation) for distribution, manufacturing and process control;
3. ***Virtual Architect***, a design software enabling clients from any field to design products and plant facilities.

World Wise will unveil an all encompassing marketing strategy for the RobSim.com e-commerce web site at the Annual and Special Shareholders Meeting on April 17, 2000.

World Wise is also pleased to announce that its subsidiary, **General Cybernetics Inc.** ("GCI") has been profiled and selected among **the Significant Players in the Robotic Simulation and Control Software Market Segment** by Frost & Sullivan. The selected firms, include such Nasdaq listed companies as Cognex Vision Systems, Deneb Robotics Inc., a subsidiary of Dassault Systems and Technomatix Technologies.

Frost & Sullivan was founded in 1961 in New York City with a specific mission: provide world class market consulting on emerging high-technology and industrial markets. Frost & Sullivan has earned a worldwide reputation for high-quality market consulting and training in more than 20 major industries in 50 countries worldwide.

GCI is a world leader in the design and integration of fast, accurate machine and robotic control systems for use in advanced manufacturing applications. The products combine the Company's open-architecture PC-based control system with advanced human-machine interfaces, integrated manufacturing systems, and other third party applications.

Our *fuzzy-driven-technology* allows for unprecedented speed and positional accuracy to penetrate new robotic applications including in-process gauging, inspection, 100% quality control and printed circuit board manufacturing. PC-based control architecture allows us to increase productivity, reducing costs, integrate with third party applications and meet new industry requirements. GCI has strategic partnerships and relationships with a number of major companies, including, Yaskawa/Motoman Robotics, International Metrology Systems, Amet, Native American Technologies Company, Image Processing Systems Inc., University of Calgary, Dana Corporation and General Dynamics Corporation.

World Wise Technologies Inc. is a public company operating three distinct, but related, business units, specializing in the development and marketing of *fuzzy-driven* Application Specific technology for the purpose of maximizing productivity, energy savings and cost efficiency. The wholly owned subsidiary, ***General Cybernetics Inc.*** specializes in the design, integration and marketing of Robotics and Advanced Computing Products. World Wise has established two new divisions within the Company: the ***RobSim.com*** division is an on-line, one source to easy problem solving tool for engineers, plant managers, business persons and entrepreneurs; the ***FDSP System Solution*** division, focuses on the implementation of the Fuzzy Digital Processor core for specific applications.
