Eastfield Resources Ltd.

Notes to Condensed Consolidated Interim Financial Statements

For the Nine Months Ended November 30, 2017

(Unaudited – Expressed in Canadian Dollars)

1. NATURE AND CONTINUATION OF OPERATIONS

Eastfield Resources Ltd. (the “Company”) was incorporated in British Columbia, and the common shares are listed for trading on the TSX Venture Exchange – Tier One: symbol: ETF. The Company is in the process of actively exploring its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable. The Company is considered to be in the exploration stage and does not have operating cash flow. The Company’s head office and principal address is 110-325 Howe Street, Vancouver, British Columbia V6C 1Z7.

These consolidated interim financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of operations. The ability of the Company to fund its potential future operations and commitments is dependent upon the ability of the Company to obtain additional financing. There is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These financial statements do not reflect the adjustments or reclassifications that would be necessary if the Company was unable to continue operations. Such adjustments and reclassifications could be material.

2. BASIS OF PREPARATION

These consolidated condensed interim financial statements were authorized for issue on January 29, 2018 by the directors of the Company.

Statement of Compliance

These condensed interim financial statements for the Company’s reporting period ended August 31, 2017 have been prepared in accordance with and using accounting policies which are, without reservation, in full compliance with IAS 34 as issued by the International Accounting Standards Board (“IASB”) as required by National Instrument 52-107 sec. 3.2(1)(b)(ii) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”), and as set out in the Handbook of the Chartered Professional Accountants of Canada (“CPA Handbook”).

Basis of Measurement

These consolidated interim financial statements have been prepared on a historical cost basis, except for cash and cash equivalents and other financial instruments classified as fair value through profit or loss or available-for-sale that have been measured at fair value, and are presented in Canadian dollars, the Company’s reporting currency and the functional currency of all of its operations.

3. SIGNIFICANT ACCOUNTING POLICIES

These consolidated condensed interim financial statements have been prepared in accordance with IFRS, and reflect the accounting policies, which have been applied consistently with those of the previous financial year.

4. RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

The Company has classified its financial instruments as follows:

- Cash and cash equivalents as FVTPL
- Accounts receivable (excluding taxes receivable) as loans and receivables
- Deposits for reclamation as held-to-maturity
- Accounts payable and accrued liabilities and flow-through share premium as other financial liabilities.

The carrying values of cash and cash equivalents, accounts receivables and accounts payable (excluding due to related parties) approximate their fair values due to the short-term maturity of these financial instruments. The carrying value of reclamation deposits approximates fair value since amounts held earn interest at market rates. The fair value of amounts due to related parties included in accounts payable and accrued liabilities have not been disclosed as their fair values cannot be reliably measured since there is no quoted market prices for such instruments. The Company’s risk exposure and the impact on the Company’s financial instruments are summarized below:

Eastfield Resources Ltd.

Notes to Condensed Consolidated Interim Financial Statements

For the Nine Months Ended November 30, 2017

(Unaudited – Expressed in Canadian Dollars)

4. RISK MANAGEMENT AND FINANCIAL INSTRUMENTS (continued)

Credit risk

Credit risk refers to the potential that a counter party to a financial instrument will fail to discharge its contractual obligations and arises principally from the Company's holdings of cash and cash equivalents. The Company manages credit risk, in respect of cash and cash equivalents, by holding these at major Canadian financial institutions. In regards to accounts receivable, the Company is not exposed to significant credit risk. Concentration of credit risk exists with respect to the Company's cash and cash equivalents as all amounts are held at a major Canadian financial institution.

	November 30, 2017	February 28, 2017
Cash held in accounts with Bank of Montreal	\$ 777,335	\$ 746,774

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they become due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. The Company maintains sufficient cash to meet short-term liabilities.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company is exposed to interest rate and foreign currency risk as follows:

Interest rate risk

The Company's cash held in bank accounts earns interest at variable interest rates. Due to the short-term nature of these financial instruments and the prevailing interest rate environment, fluctuations in market rates do not have a significant impact on estimated fair values as of November 30, 2017.

Foreign currency risk

The Company's operations are located in Canada with substantially all transactions denominated in Canadian dollars and, accordingly, the Company is not exposed to significant foreign currency risk.

5. CAPITAL MANAGEMENT

The Company's primary source of funds has been obtained through the issuance of capital stock. The Company does not use other sources of financing that require fixed payments of interest and principal and is not subject to any externally imposed capital requirements.

The Company defines its capital as all components of shareholders' equity. Capital requirements are determined by the Company's exploration activities on its mineral property interests and administrative overhead. To effectively manage the Company's capital requirements, the Company has a planning and budgeting process in place to ensure that adequate funds are available to meet strategic goals.

The Company periodically invests its capital in liquid investments to obtain returns that are considered reasonable under prevailing market conditions. The investment decision is based on cash management to ensure working capital is available to meet the Company's short-term obligations while maximizing liquidity and returns of unused capital.

Although the Company has been successful at raising funds in the past through the issuance of capital stock, there can be no assurance that it will continue into the future.

Jointly Controlled Exploration and Evaluation Assets
Okeover Property, Vancouver Mining Division, British Columbia

On October 31, 2008, the Company earned a 100% interest in the property, subject to a 2.5% net smelter royalty. On March 8, 2006 the Company entered into an option agreement with Prophecy Coal Corp. (“Prophecy”), which allowed Prophecy to earn a 60% interest in the property by incurring an additional \$1,000,000 in mineral exploration costs by March 8, 2010 (completed) and making \$110,000 in cash or share option payments (received). On March 8, 2010, Prophecy fulfilled all the terms of its option agreement and earned a 60% interest in the Okeover property. On April 28, 2016, Lorraine Copper Corp entered into an agreement with the Company to acquire the Company’s remaining 40% interest in the OK (Okeover) copper molybdenum project located near Powell River on the southern British Columbia coast. Under the terms of the agreement Lorraine Copper issued \$40,000 payable in cash and/or shares (valued at \$0.05/share) to the Company and assumed responsibilities to cover its proportionate share of assessment work requirements on the property. The Company will additionally be entitled to 20% of any option payments resulting from third party agreements with the project for a period of three years.

Eastfield Resources Ltd.

Notes to Condensed Consolidated Interim Financial Statements

For the Nine Months Ended November 30, 2017

(Unaudited – Expressed in Canadian Dollars)

7. EXPLORATION AND EVALUATION ASSETS (continued)

Other Exploration and Evaluation Assets

Iron Lake Property, Clinton Mining Division, British Columbia

The Company acquired 100% of the Iron Lake property from Canevex Resources Ltd., and a director of the Company. Canevex Resources Ltd. is owned by two other directors of the Company. The Company has reserved a 1.5% net smelter royalty for the vendors. The Company has also entered into an option agreement, as amended on February 21, 2010, under which Calico Resources Corp. (“Calico”) has the option to earn a 60% interest in the Iron Lake property by making staged share issuances totalling \$100,000 in value and 666,666 shares (633,333 now issued), option payments totalling \$175,000 (\$45,000 received to date) in cash and completing exploration work totalling \$1,600,000 over a five-year term to September 1, 2013 (\$175,000 received to date). On May 21, 2012, Calico terminated its option agreement.

Zymo Property, Skeena Mining Division, British Columbia

On June 20, 2011, the Company entered into an option agreement with Bearing Resources Ltd. (“Bearing”). Under the terms of the agreement, Bearing had an option to earn 65% interest in the Zymo property. To earn an initial 51% interest, Bearing could make cash payments totaling \$500,000 (\$200,000 received), issue 500,000 shares (200,000 shares received) and complete exploration expenditures of \$8,000,000 over a five year period. Assessment work has now been filed to keep the property in good standing until 2022. On November 5, 2012, Bearing delivered to the Company a notice of termination of the Zymo option agreement. The Company now holds a 100% interest in the Zymo property and is seeking an option partner to continue exploration at Zymo.

Indata Property, Omineca Mining Division, British Columbia

The Company has a 90.7% interest in the Indata property located northwest of Fort St. James in central British Columbia. Another company, Imperial Metals Corporation (“Imperial Metals”), owns the remaining 9.3% interest in the Indata property; this interest will be reduced if Imperial Metals fails to make its proportionate share of exploration and other payments on the property.

In 2015 the Company granted Rise Resources Inc. (“Rise”) an option on the 91% owned Indata property. The option allowed Rise to earn an initial 60% interest by paying \$350,000 and completing exploration expenditures of \$2,000,000 over a four-year period. Rise terminated the option during the quarter.

Other Properties, British Columbia

In November 2017 the Company entered into an option agreement with Copper Creek Gold Corp., granting Copper Creek an option to earn a 60-per-cent interest in its Hedge Hog project, located 15 kilometres north of Barkerville, B.C. Terms of the agreement require Copper Creek to make payments totalling \$350,000, make share issuances or pay cash valued at an additional \$150,000, and complete \$2.5-million in exploration by the fifth anniversary of the agreement. The Hedge Hog property consists of seven mineral tenures covering an area of 2,418 hectares (5,975 acres).

Patented Claim Assets

Tonopah Project, Nevada

The Company holds a 100% interest in 25 patented claims in the Tonopah district, Nevada, U.S.A., subject to certain royalty interests. The Company recently received a \$125,000 payment from West Kirkland Mining Ltd. in partial compensation for the sale of eight of Eastfield’s claims adjacent to West Kirkland’s Three Hills gold deposit located near Tonopah Nevada. A further \$130,000 was received this year which completed the sale. Eastfield also sold a 100% interest in the remaining 18 patented claims and fractions to Ely Gold & Minerals Inc. in consideration of a payment of \$50,000 (received) and 300,000 shares of Ely Gold (received).

(Unaudited – Expressed in Canadian Dollars)

8. RELATED PARTY TRANSACTIONS

During the quarter ended November 30, 2017 geological services totaling \$98,835 (year ended February 28, 2017 - \$116,887) were provided to the Company by Mincord Exploration Consultants Ltd. (“Mincord”), a geological service company owned by two directors of the Company. Mincord’s relationship with the Company is non-exclusive and without retainer, and Mincord is used on a project by project basis.

Services provided include the hiring of field and professional personnel, rental of vehicular, camp and technical equipment, transportation and mobilization costs. The amounts for geological and exploration services also include payments for services on properties managed by the Company on behalf of joint venturers.

In the normal course of business, the Company enters into transactions with a related companies for the use of equipment, services and rental of office space. The Company is related to these companies through common management and directors. These transactions were measured at the exchange amounts agreed to by the parties.
