For Immediate Release**News Release****GoldWeb Announces Plans to form a Joint Venture Company with
Acura Computers and Electronics, Surrey, B.C.**

VANCOUVER, British Columbia, August 13, 2001 – Vancouver B.C., Canada. The Board of Directors of GoldWeb Technologies, Inc. (a wholly owned subsidiary of Consolidated Gold Win Ventures, Inc. (CDNX:CGW")) is pleased to announce the signing of a Letter of Intent to form a new joint venture company with Acura Computers and Electronics to be 50% owned by each partner. This company's function will be to integrate, manufacture and market products of GoldWeb Technologies Inc., and those of Acura Computers and Electronics. This is a major step in our efforts to bring to market the new technologies we have been developing over the last two years.

Acura Computers and Electronics

Acura Computers and Electronics is a successfully run business that assembles and maintains computer hardware, networks and software. Acura Computers services customers such as Transport Canada, TSI Ltd., SMI Marine Ltd., Ministry of Women Equality, University of British Columbia, and Mainland Engineering. Acura has a reputation for unmatched service regardless of the size of the company.

Market Partners

Acura Computers has teamed up with a number of computer peripherals manufacturers as authorized dealer and service center for IBM, APPLE, FUJITSU, SAMSUNG, WARRENTech, LEXMARK MAXTOR, IEAC, NEC Western Digital, Intel, Hewlett Packard, Microsoft and several others to offer the highest quality and value to the customer.

Acura Embedded Systems

Acura Embedded Systems is a division of Acura Computers and Electronics located in Surrey, B.C., Canada. Acura Embedded Systems grew from market demands and client needs, beginning in 1998. The company specializes in the assembly and sale of custom configured industrial PC/104, Rack-Mount and Wall-Mount Computer Systems to manufacturers and OEM's in multiple industries.

Acura Embedded Systems is committed to delivering a total system solution for its customers' computing needs. The company has developed a solid reputation by providing rugged and reliable industrial PC systems for major applications in factory automation, office automation, computer telephony, networking telecommunications and the internet industries.

The new joint venture will, through integration of already developed GoldWeb products, will develop a new product line of solid-state embedded proprietary systems for sale worldwide. Acura Computers and Electronics will bring with it a team of engineers and designers to compliment the GoldWeb team. The two companies together form an excellent matching of product development and practice implementation and manufacturing plans are in place for our first joint product, which will be prototyped by the end of August, 2001.
