April 15, 2008

Consolidated Gold Win Ventures Inc.

Creating Wealth Through World-wide Mineral Exploration

P.O. Box 48474, Bentall Centre, Vancouver, BC V5C 2M7

NEWS RELEASE

COMPANY COMPLETES RESTRUCTURING AND PREPARES FOR 2008 EXPLORATION SEASON

(VANCOUVER BC; April 15, 2008) CONSOLIDATED GOLD WIN VENTURES INC.

(GWV TSX-V, FRANKFURT - OUH, PINKSHEETS - CGWJF) has completed its restructuring and is now trading under the new symbol **GWV** on the TSX Venture Exchange and **CGWJF** listed on the Pink Sheets.

The company is planning to initiate its drilling program on the Victoria Mine and the Dolly Varden Area Claims in early May as it builds on the information from its analysis of last year's exploration and the information it has received from its research on Anaconda's Victoria Mine files.

This year's work on the Victoria mine is geared to developing the mineralization below the Anaconda reported levels and to follow up on the targets identified but never tested, by both Anaconda and Hecla when they held the property.

The work on the Dolly Varden area will focus on the significance of the discovered mineralization including zones of massive pyrite associated with the 75 foot intersection grading 0.66% copper and 0.24 ounces per ton silver that have a similar association at the Victoria Mine and the adjacent showings.

The continuation of exploration in this area, the first since the early 1980's at the close of mining of the nearby Victoria Mine, will be done in conjunction with the company completing regulatory compliant 43-101 reports on the Victoria Mine property.

The Dolly Varden area is recognized as a classic eastern Great Basin district with base and precious metals associated with upper Palaeozoic sediments intruded by Cretaceous auriferous magmas.

William Timmins, P.Eng, a Qualified Person under National Instrument 43-101, was on site to inspect the taking of these samples and has approved the contents of this News Release.

About Consolidated Gold Win Ventures

GWV is a progressive and rapidly advancing junior exploration company with interests in:
Nevada – Dolly Varden Copper Gold claims and the Victoria Copper Mine
British Columbia – Yeti Gold claims
North West Territories – Drybones Diamond properties
Quebec – Raglan Platinum Group Metals claims
