April 29, 2009

Encore Renaissance Resources Corp.

P.O. Box 48474, Bentall Centre, Vancouver, BC V5C 2M7

NEWS RELEASE

ENCORE RENAISSANCE RESOURCES CORP. CONSIDERS PROCESSING HIGH GRADE BONAPARTE ORE AT LOCAL MILL

(VANCOUVER BC; April 29, 2009) ENCORE RENAISSANCE RESOURCES CORP. (EZ TSX-V, OUH1, CGWJF) ("Encore") is pleased to announce that its president and main geological consultant Kokanee Placer, have recently concluded a visit to the Bonaparte Mine Property affirming the feasibility for start up of the planned bulk test mining program.

The company representatives visited a local area mineral processing mill to assess the viability of utilizing it for the main development of the test mining program. The company is continuing its evaluation of the mill as well as investigating other immediate opportunities for processing of the initial 10,000 tonne bulk sample.

The processing of such bulk sample and other exploration and development activities pertaining to the property shall be subject to the approval of the TSX Venture Exchange of a definitive agreement and the issuance of the applicable permits expected by or before the end of May, 2009.

Encore has also commenced permitting for exploration drilling at the property on other identified veins that have reported multi-ounce values of gold.

The area visit has enabled the company to commence operational plans for the planned bulk sample and to verify initial preparations are in place for a spring commencement of mining operations. Regular vehicle roads provide year round service to within 9 kilometres of the mine property site where the 13 identified gold vein systems are located.

Says Mike Mulberry, President, "Management is very pleased with this recent acquisition and after visiting the property we feel that this project will be beneficial to the company. We are working diligently on behalf of our shareholders to build value and would like to thank them for their support."

This release has been reviewed by Laurence Stephenson P.Eng. the designated Qualified Person.
