Wealth Arranges Non-Brokered Financing

FOR IMMEDIATE RELEASE....Vancouver, British Columbia: Wealth Minerals Ltd. (the “Company” or “Wealth”) - (TSXV: WML; OTCQB: WMLLF; SSE: WMLCL; Frankfurt: EJZN), is pleased to announce that it has arranged a non-brokered private placement (the “Placement”) of up to 3,600,000 shares (the “Shares”) of the Company at a price of \$1.35 per Share for gross proceeds of up to \$4,860,000. All shares issued in the Placement will have a hold period in Canada of four months from the closing of the Placement. Finder’s fees are payable on a portion of the Placement.

The net proceeds from the Placement are intended to fund option payments on the Company’s projects, the costs for the review and assessment of additional potential lithium mineral property acquisitions in South America, exploration work on the Company’s existing projects and for general and administrative expenses and working capital.

Wealth continues to assess additional potential lithium mineral property acquisitions in South America on which the Company is actively negotiating.

Completion of the Placement is subject to the acceptance for filing thereof by the TSX Venture Exchange.

About Wealth Minerals Ltd.

Wealth is a mineral resource company with interests in Canada, Mexico, Peru and Chile. The Company’s main focus is the acquisition of lithium projects in South America. To date, the Company has positioned itself to develop the Aguas Calientes Norte, Pujsa and Quisquiro Salars in Chile (the Trinity Project), work alongside existing producers in the prolific Atacama Salar, and advance the Laguna Verde lithium project. The Company continues to aggressively pursue new acquisitions in the region. Lithium market dynamics and a rapidly increasing metal price are the result of profound structural issues with the industry meeting anticipated future demand. Wealth

is positioning itself to be a major beneficiary of this future mismatch of supply and demand. The Company also maintains and continues to evaluate a portfolio of precious and base metal exploration-stage projects.
