Jim Pettit, Aben's Chief Executive Officer, stated: "Aben Resources is very pleased to welcome Eric Sprott as a large strategic shareholder of the Company. Mr. Sprott is one of the world's premiere precious metals investors and a respected leader in the investment community. His participation in this financing speaks to the high-grade discovery and future potential of Aben Resources' Forest Kerr Project in the Golden Triangle region of British Columbia. The Company plans to expand its current drill program on the back of the results from the first drill hole in the program at the newly discovered North Boundary Zone which intersected four separate high-grade intervals including 62.4 g/t Au over 6.0m within 38.7 g/t Au over 10.0m from 114.0-124.0m. With drilling ongoing, Aben is awaiting assay results from an additional seven drill holes, all of which were drilled at the North Boundary Zone and will provide updates as results become available."

The Company intends to utilize the proceeds from the private placements to expand its 2018 exploration and drilling program at its Forrest Kerr Gold Project located in the Golden Triangle, British Columbia and for general working capital purposes. The private placement is subject to TSX Venture Exchange approval, and all securities are subject to a four-month-and-one-day hold period. Finder fees may be payable in connection with the private placement, all in accordance with the policies of the TSX Venture Exchange.
