

PRESS RELEASE

August 22, 2017

Stamper and State Oil Corporation Have Entered Into Collaboration Agreement on Oil and Gas Projects

VANCOUVER, Canada – – Stamper Oil & Gas Corp. (TSX-V: STMP) (FSE:TMP2) (OTCQB: STMGF) (“Stamper” or “the Company”), is pleased to announce that it has entered into a Memorandum of Understanding (the “**MOU**”) with State Oil Corporation (“**State**”), a private independent oil and gas exploration and production (“**E&P**”) company on co-operation on exploration and production of oil and gas in Africa and South America.

About State

The Management Team of State has vast international experience in the hydrocarbon sector and a proven track record in negotiations, acquisitions and development of projects in the oil & gas sector. The Management Team has been involved in the development of a world-class petroleum project in Sudan. Projects of note have comprised of a 12.2 million acre oil concession and the construction of a 1,500 km. long export pipeline to Port Sudan. This project was successfully brought to production. A consortium of international companies was formed with efforts of the management team to further develop it. State’s team has experience in working in Africa, South America and South/Central Asia on various projects.

David Greenway, President & CEO commented, “We are looking forward to working with State with its diverse experience as a leading operator and past producer in Sudan. As we pursue acquisitions in the oil sector, this partnership represents a compelling opportunity to gain exposure in Africa.”

About Stamper Oil & Gas

Stamper Oil & Gas Corp. is a publicly traded junior development stage international oil and gas company. The Company is engaged in the acquisition, exploration and evaluation of conventional and unconventional oil and natural gas properties with the current focus on Latin America. The Company’s strategy is centred on generating sustainable long term shareholder value by exploring and developing cost effective growth of light oil reserves.
