BC FORM 53-901F

MATERIAL CHANGE REPORT

Item 1: Reporting Issuer

FORTUNE RIVER RESOURCE CORP.
Suite 1100 – 1199 West Hastings Street
Vancouver, BC V6E 3T5

Item 2: Date of Material Change

October 31, 2007

Item 3: Press Release

October 31, 2007 at Vancouver, British Columbia

Item 4: Summary of Material Change

Fortune River Resource Corp. reported that it has signed an agreement to purchase a Nevada low-sulfidation gold/silver project from Newcrest Resources Inc. ("Newcrest"). The "East Manhattan" project consists of 70 unpatented lode claims (approximately 560 hectares) located in Nye County, Nevada.

The company's Board of Directors has approved a three-hole, reverse-circulation drilling program (~1,200 meter total) to further test for high-grade feeder structures beneath the Wind Mountain mine.

All assays have been received from the company's recent drilling program at its Baxter project, and drilling has been completed at its Mud Springs project. A total of 13 reverse-circulation drill holes (2,964 meters) were completed at Baxter, and a total of seven reverse-circulation drill holes (1,397 meters) were completed at Mud Springs.
