This is the form of material change report required under Section 85(1) of the Securities Act and Section 151 of the Securities Rules

BCF 53-901F

SECURITIES ACT

MATERIAL CHANGE REPORT UNDER SECTION 85(1) OF THE ACT

1. Reporting Issuer

State the name and address of the principal office in Canada of the reporting issuer

Northern Star Mining Corp.
Suite 610 – 815 West Hastings St.
Vancouver, British Columbia
V6C 1B4
Tel: (604) 608-1500

2. Date of Material Change

March 26, 2003

3. Press Release

State the date and places of issuance of the press release issued pursuant to Section 85(1) of the Act.

This news release was issued on March 26, 2003 through Canada Stockwatch, Market News Publishing Inc. and other dissemination services.

4. Summary of material change:

Provide a brief but accurate summary of the nature and substance of the material change.

The Issuer announced the acquisition of three gold properties located in the Abitibi gold belt of Northwestern Quebec.

The new properties, collectively termed the Malartic Break Project, consist of three claim groups totaling 20 claims and 864 hectares, all located approximately 25 km west of the city of Val d'Or, 4 km north and northwest of the town of Malartic, Quebec. This new project is located 6 km northwest of the Company's Midway gold project.

Claim group 1 is located 4 km north of Malartic, Quebec. The Trans Canada highway crosses the eastern boundary of the property in a N-S direction. The group consists of 14 claims totaling 594 hectares.

The second claim group, located 2 km west of claim group 1, consists of 4 claims totaling 170 hectares.

The third claim group consists of 2 claims totaling 100 hectares and is located 1 km west of claim group 2, immediately south of the Kewagama/Malartic contact zone.

The Issuer can acquire 100% of the three properties by making payments of 450,000 shares and $35,000. The $35,000 must be paid prior to March 1, 2005.

The present owners retain a 1.5% net smelter return royalty that can be purchased for $ 500,000.

No finders fee or commission is payable in connection with the acquisition. The acquisition of the "Malartic Break Project" is subject to acceptance for filing with the TSX Venture Exchange.

5. Full Description of Material Change

The Issuer announced the acquisition of three gold properties located in the Abitibi gold belt of Northwestern Quebec.

The new properties, collectively termed the Malartic Break Project, consist of three claim groups totaling 20 claims and 864 hectares, all located approximately 25 km west of the city of Val d'Or, 4 km north and northwest of the town of Malartic, Quebec. This new project is located 6 km northwest of the Company's Midway gold project.

Claim group 1 is located 4 km north of Malartic, Quebec. The Trans Canada highway crosses the eastern boundary of the property in a N-S direction. The group consists of 14 claims totaling 594 hectares. The property is located on the Kewagama/Malartic group contact, a major tectonostratigraphic contact north of the Cadillac Tectonic zone. Numerous gold deposits are associated with this contact, the most notable being the past producing Camflo Mine (production of approximately 2 million ounces from 1965 to 1992), located 5 km east along strike (Kewagama/Malartic Break) from the property. The Camflo Mine was located on the Kewagama/Malartic contact zone along axial plane folding (Makila 1990). Quebec government aeromagnetic and geological compilation map (32D/1-303) interpret possible axial plane folding on the claim group number 1.

The second claim group, located 2 km west of claim group 1, consists of 4 claims totaling 170 hectares. It is also located along the Kewagama/Malartic contact. The Trans Canada highway crosses the southern portion of the property in an east-west direction.

The third claim group consists of 2 claims totaling 100 hectares and is located 1 km west of claim group 2, immediately south of the Kewagama/Malartic contact zone.

The Issuer can acquire 100% of the three properties by making payments of 450,000 shares and $35,000. The $35,000 must be paid prior to March 1, 2005.

The present owners retain a 1.5% net smelter return royalty that can be purchased for $ 500,000.

No finders fee or commission is payable in connection with the acquisition. The acquisition of the "Malartic Break Project" is subject to acceptance for filing with the TSX Venture Exchange.

6. Reliance on Section 85(2) of the Act

   This report is not being filed on a confidential basis.

7. Omitted Information

   There is no Omitted information

8. Senior Officers

   Richard Silas, Director
   604-608-1500

9. Statement of Senior Officer

   The foregoing accurately discloses the material change referred to herein

   Dated at Vancouver, British Columbia this 26th day of March, 2003

   "Richard Silas"

   Name: Richard Silas
