News Release

The news release was disseminated through TSX, BC Securities Commission, Alberta Securities Commission, Market News and Stockwatch.

Summary of Material Change

Vancouver, BC – KENRICH-ESKAY MINING CORPORATION (the “Company”) wishes to announce that they have entered into an agreement with Consultants Victoria (Overseas) Limited (the “Vendor”) to acquire an additional 30% interest in the Coastal Copper Property (the “Property”), located in the Anox mining camp of Northwestern BC.

Full Description of Material Change

Vancouver, BC – KENRICH-ESKAY MINING CORPORATION (the “Company”) wishes to announce that they have entered into an agreement with Consultants Victoria (Overseas) Limited (the “Vendor”) to acquire an additional 30% interest in the Coastal Copper Property (the “Property”), located in the Anox mining camp of Northwestern BC.

The Company had previously announced the right to acquire a 50% interest in the Property. The Company has now met obligations to vest in that 50%, and after additional expenditures of approximately \$4.5 million, the Company is pleased to announce it has now vested in an additional 20% bringing the Company’s total interest to 70%.

The Company and the Vendor have now agreed, subject to regulatory approval, to grant the Company the right, on or before December 31, 2008, to acquire an additional 10% interest in the Property, for a total interest of 80%, by expending \$2 million in exploration and development of the Property, by making a payment of \$600,000 and by issuing 1,500,000 shares.

After acquiring an 80% interest, the Company and the Vendor will form a joint venture at the election of the Company. If the Company does not elect to form a joint venture, the Company has the alternate right to acquire an additional 10% interest (for a total 90% interest) by spending \$10 Million to provide a Positive Feasibility Study. Upon completing a Positive Feasibility Study, the remaining 10% converts to a 3% NSR which has buy out provisions.

The NSR Royalty would be subject to a buy down right, at the option of the Company. The entire 3% royalty can be purchased for \$12,000,000 (CND), whereby the Company could purchase the royalty on the following basis:

- (a) \$2,000,000 for the first ⅓ (1% NSR Royalty) within one year of commencement of commercial production;

- (b) \$3,000,000 for the second $\frac{1}{3}$ (1% NSR Royalty) within two years of commencement of commercial production; and
- (c) \$7,000,000 for the last $\frac{1}{3}$ (1% NSR Royalty) at any time after commencement of commercial production.

In June 2007, the Company will recommence exploration on the Double Ed zone with a surface diamond drilling program targeting extensions to the previously reported indicated mineral resource.

On behalf of The Board of Directors of Kenrich-Eskay Mining Corporation.
