NEWS RELEASE
FOR IMMEDIATE RELEASE: June 6, 2025

Eskay Mining 2025 Exploration Campaign Begins later this Month

Toronto. ON / ACCESSSWIRE / June 6, 2025 / Eskay Mining Corp. (“Eskay” or the “Company”) (TSXV: ESK) (OTC PINK: ESKYF) (Frankfurt:KN7) (WKN: AOYDPM) is pleased to announce Eskay’s prospecting team will be on the ground later this month to explore the extent of the high-grade veins as well as the length of the overall mineralized trend discovered last season at the C10-Vermillion-Ted Morris (TM), trend situated in the southern portion of the Company’s 100% controlled Consolidated Eskay project.

Mac Balkam C.E.O. & President commented “Last year’s high-grade assays of as much as 205 g/t of gold, collected from outcroppings veins occurring along the 4km of the C-10 -Vermillion-Ted Morris (TM) belt, represents an exciting new discovery on our Consolidated Eskay project. Our 2025 goal is simple…… put some size to this trend and develop a drill strategy to test it’s potential. We believe a well-targeted late season drill program will show that this is a significant new discovery “

In early July, Eskay’s team will focus on the highest potential drill target, along a 210 m. zone where high grade samples were collected at Vermillion in 2024. The goal will be to expand the overall length of the strike of this zone and identify potential drill sites for late 2025. The Ted Morris and Big Red Zone located approximately 2km east of Vermillion returned rock chip assays of over 200 g/t gold in 2024. This area is considered a second high-quality target for drilling. The team will determine to what extent Vermillion and TM zones are connected and if the trend extends westward to Red Lightening.

Balkam speaking about this possibility said, “We are confident the Vermillion trend will prove to be an important gold discovery and are intrigued with the potential for this zone to become much larger. This area is a mere 9 km to the west of Newmont’s Valley of the Kings – Brucejack Mine, making this discovery all the more exciting. “

For more detail on the 2024 results at Vermillion and the TM Zone follow https://eskaymining.com/news/news-releases/eskay-minings-boots-on-the-ground-campaign-yiel-9576.
