

**Form 51-102F3
Material Change Report**

1. Name and Address of Company

Firestone Ventures Inc.
#220, 17010 - 103 Avenue
Edmonton, Alberta T5S 1K7

2. Date of Material Change

February 28, 2007

3. News Release

February 28, 2007 via CCNMatthews.

4. Summary of Material Change

Firestone Ventures Inc. ("Firestone" or the "Company") announced that it has completed acquisition by claim staking of an additional 167 quartz mining claims near the Company's Sonora gold property, located 110 km northwest of Carmacks, Yukon Territory, Canada.

5. Full Description of Material Change

Firestone Ventures Inc. ("Firestone" or the "Company") announced that it has completed acquisition by claim staking of an additional 167 quartz mining claims near the Company's Sonora gold property, located 110 km northwest of Carmacks, Yukon Territory, Canada.

A total of 123 mineral claims were added to expand the existing Sonora claimblock. In addition, the Chopin property, covering 44 mineral claims was staked 20 km southeast of the Sonora property. The Chopin property covers two historical mineral occurrences; the Pitts and the Panther. Both are similar in geochemistry to the Sonora property. At the Pitts occurrence, historical rock sampling returned values to 5.5 g/t gold; at the Panther occurrence historical surface sampling returned values to 1.03 g/t gold (as documented in "Yukon Minfile").

Firestone recently announced a high-grade gold intercept of 6.21 g/t gold across 15.3 metres from its Autumn, 2006 diamond drilling program on the Sonora property (see news release dated Jan. 15, 2007). The high-grade intercept, from the "Amadeus Zone", contained a sub-interval of 12.19 gold across 5.0 metres and is open at depth. A total of 1,821 metres in 12 holes was drilled by Firestone in 2006.

The Sonora property is located within 25 kilometres of a seasonal access road and within 40 kilometers of Sherwood Copper's Minto copper-gold mine project, currently in development. The Sonora property now covers 5,244 hectares (12,952 acres). The Chopin property covers an additional 933 hectares (2,305 acres). Firestone is earning in for an 80% interest in the Sonora property.
