

22.1.2 Jerry Perkins

CERTIFICATE OF QUALIFIED PERSON

As a qualified person responsible for the report titled “Technical Report, Cerro Moro Project, Santa Cruz Province, Argentina” dated February 9, 2009 (the “Technical Report”) to which this certificate applies, I, Jerry Perkins do hereby certify that:

1. I am a metallurgist. My address is Suite 701, 121 Walker Street, North Sydney, NSW 2060, Australia
2. I am a graduate of the University of Manchester Institute of Science & Technology (UMIST) and obtained a B.Sc. (Hons Chem. Eng.) in 1968.
3. I am a member in good standing of the Australian Institute of Mining and Metallurgy (FAusIMM) and a Chartered Professional (Metallurgy).
4. I have worked as a senior manager of mineral developments and operations for the last 30 years both in publicly listed companies and as an independent consultant. Gold projects that I have had a significant association with in either their development and/or operations include Selwyn (Qld, Australia), Red Dome (Qld., Australia), Kanowna Belle (WA, Australia), Granny Smith (WA, Australia), Sunrise (WA, Australia), Jinfeng (Guizhou, Peoples Republic of China), Beaconsfield (Tas. Australia).
5. I have read the definition of “qualified person” set out in National Instrument 43-101 – *Standards of Disclosure for Mineral Projects* (“NI 43-101”) and confirm that by reason of my education, affiliation with a professional association (as defined in NI 43-101) and past relevant work experience, I fulfill the requirements to be a “qualified person” for the purposes of NI 43-101.
6. My most recent personal inspection of the Cerro Moro project was on 17 November 2008.
7. I am responsible for section 16 of the Technical Report.
8. I am not independent of Exeter Resource Corporation as described in section 1.4 of NI 43-101.
9. I have had prior involvement with the Cerro Moro project; namely, I have visited the site on several occasions to review the mineralization at first hand in drill core, to select specific drill core intercepts for metallurgical testwork and to ensure that the sampling and packing procedures for those samples was in accordance with best practice. I have also visited the mineral tenements and surrounding areas with a view to assessing project development concepts and planning environmental baseline studies.
10. I have read NI 43-101 and the Technical Report has been prepared in compliance with NI 43-101.

11. As of the date of this certificate, to the best of my knowledge, information and belief, the Technical Report contains all scientific and technical information that is required to be disclosed to make the Technical Report not misleading.

Dated this 9 day of February, 2009.

[ORIGINAL SIGNED]

Jerry Perkins – BSc Hons. (Chem Eng.), CP, FAusIMM,
