NEWS RELEASE

**WestBond Increases Profit for the Quarter Ended June 30, 2018
and Declares Quarterly Dividend**

Delta, BC August 27, 2018 – WestBond Enterprises Corporation has posted a profit of $172,905 for the three months ended June 30, 2018. This represents a 197% increase over the profit of $58,282 for the three months ended June 30, 2017. Sales also increased 14.6% to $2,864,740 this year compared to $2,498,878 for the three months ended June 30, 2017.

The increase in sales and net income are due to the company's efforts to develop new markets for its air laid products and existing clinical and personal hygiene lines. Air laid products and parent roll sales increased significantly in the food service market. WestBond intends to continue to develop these markets and increase profitability by improving production efficiencies and lowering overhead costs.

The quarterly report and other information can be found on the company's website at www.westbond.ca and on SEDAR at www.sedar.com.

In recognition of the improved profit, the board of directors has declared a quarterly dividend of $0.0025 per share payable on September 20, 2018 to shareholders of record on September 5, 2018 and quarterly thereafter.

Cautionary Note Regarding Forward Looking Statements: *This release includes certain statements and information that constitute forward-looking information within the meaning of applicable Canadian securities laws, including statements regarding the Company's intentions. Generally, forward-looking statements and information can be identified by the use of forward-looking terminology such as "intends" or "anticipates", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "should" or "would" occur. Forward-looking statements are based on certain material assumptions and analysis made by the Company and the opinions and estimates of management as of the date of this press release, including the ability to develop markets and increase profitability. Although the Company considers these assumptions to be reasonable based on information currently available to it, they may prove to be incorrect, and the forward-looking statements in this release are subject to numerous risks, uncertainties and other factors that may cause future results to differ materially from those expressed or implied in such forward-looking statements. Such risk factors may include, among others, changes in operating performance, availability of and prices for raw materials, availability of trained labour, foreign currency exchange rate fluctuations, unexpected competition and other technical, market and economic factors. Although management of the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements or forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements and forward-looking information. Readers are cautioned that reliance on such information may not be appropriate for other purposes. The Company does not undertake to update any forward-looking statement, forward-looking information or financial out-look that is incorporated by reference herein, except in accordance with applicable securities laws. We seek safe harbour.*
