Pink Sheets: MHIFF

Vancouver, BC, April 14, 2010 – Mineral Hill Industries Ltd. (TSX-V: MHI) *(the* "Company") is pleased to announce that further to its news releases of January 22, 2010 and February 1, 2010, the Company has now completed a non-brokered private placement of $75,000 with a subscription of 1,140,000 flow through units (the "Units") of the Company at a price of $0.05 per Unit and 360,000 non flow through units. Each FT Unit will comprise one flow through common share and one transferable common share purchase warrant. Each NFT Unit will comprise one non flow through common share and one transferable common share purchase warrant Each transferable common share purchase warrant is exercisable for one additional non flow through common share at $0.10 per share for a period of five years from the date of issuance.

All of the shares, warrants and any shares issued upon exercise of the warrants comprising the units are subject to a hold period and may not be traded in British Columbia until August 14, 2010 except as permitted by the applicable Securities Acts and the Rules made thereunder and the TSX Venture Exchange.

About Mineral Hill Industries Ltd.

Mineral Hill Industries Ltd. is a Canadian based mineral exploration and development company trading on the TSX Venture Exchange (MHI), the Frankfurt Exchange (N8Z/WKN: AODLHP), and the OTC Pink Sheets (MHIFF). Mineral Hill has accumulated a diversified portfolio of quality lithium and precious metal properties in Canada and the USA. The Company's primary focus is on developing its three 100%-owned hard-rock lithium carbonate exploration projects in Quebec, Canada, its brine lithium property in Nevada, USA, as well as its Praxis Goldfields Project in Northern BC.

Mineral Hill recently completed and filed a NI 43-101 Technical Report on three prospects located near Val d'Or, Quebec which confirmed elevated Li_2O concentrations. Following completion of the NI 43-101 Technical Report, Mineral Hill is evaluating the next stage of development for its Quebec lithium prospects in 2010 which will include drilling and expanded exploration.
