About Green Valley:

Green Valley is a junior mining resource exploration company focused on exploring for and developing economically viable mineral resources. The Company's mineral properties and interests are located in British Columbia. The company currently has under consideration as discussed in our news release of April 25, 2015 a Change of Business with Miningsky Technology Ltd. Miningsky is an incorporated company, formed on Nov. 10, 2017, under the Business Corporations Act (British Columbia) and is located in Vancouver, B.C. Miningsky is a technology company, involved in designing and manufacturing blockchain infrastructure in order to provide a full-service solution for all cryptocurrency needs.

Miningsky manufactures and sells its proprietary Miningsky 8-GPU mining rig, a high performance GPU-based miner designed to mine Ethereum and other cryptocurrencies, while also specializing in large-scale power services, mining farm construction and miner hosting services. Additionally, Miningsky offers an optimized deployment solution designed to help its clients start their mining operation immediately, no matter the scale. The company will also change its name to Skychain Technologies Inc. or such other name as may be acceptable to regulatory authorities. Green Valley cannot guarantee that the Change of Business will complete.
