1. NATURE OF OPERATIONS

Midasco Capital Corp. ("Midasco" or the "Company") is a Canadian resident company listed on the NEX board of the TSX Venture Exchange and trades under the symbol MGC.H. The Company's head office is at 605-815 Hornby Street, Vancouver, British Columbia, Canada.

The financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes that the Company will continue its operations and will be able to realize the carrying value of its assets and discharge its liabilities in the normal course of business. The ability of the Company to continue as a going concern and realize its assets and discharge its liabilities in the normal course of business is dependent upon continued financial support from related parties, the ability of the Company to raise equity financing to continue operations, and successfully identifying a new business opportunity for the Company. These uncertainties may cast significant doubt on the ability of the Company to continue operations as a going concern. The financial statements do not reflect adjustments to the carrying values of assets, liabilities or reported results should the Company be unable to continue as a going concern. Different bases of measurement may be appropriate if the Company were not expected to continue operations for the foreseeable future.

The Company will seek additional financing through related party loans and equity raises. As at June 30, 2021, the Company had a working capital of \$221,230 and accumulated losses of \$15,986,142.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. While the impact of COVID-19 is expected to be temporary, the current circumstances are dynamic and the impacts of COVID-19 on business operations cannot be reasonably estimated at this time. There can be no assurance that the Company will not be impacted by adverse consequences that may be brought about by the pandemic's impact on its business, results of operations, financial position and cash flows in the future.

2. BASIS OF PRESENTATION

Statement of compliance with International Financial Reporting Standards

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB. The policies applied in these unaudited condensed interim financial statements are based on IFRSs issued and outstanding as of August 23, 2021, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2020, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2020 could result in restatement of these unaudited condensed consolidated interim financial statements.

2. BASIS OF PRESENTATION (continued)

Basis of preparation

The financial statements of the Company have been prepared on an accrual basis and are based on historical costs, modified where applicable. The financial statements are presented in Canadian dollars unless otherwise noted.

Use of estimates and judgments

Significant estimates and assumptions

The preparation of financial statements in accordance with IFRS requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reported period. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised.

Estimates and assumptions where there is risk of material adjustments to assets and liabilities in future accounting periods include estimates of the recoverability and measurement of deferred tax assets, and contingent liabilities.

Significant judgments

The preparation of financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments applying to the Company's financial statements include the classification of financial instruments and the going concern basis of accounting.

3. FINANCIAL RISK AND CAPITAL MANAGEMENT

Management of Industry and Financial Risk

The Company was engaged primarily in mineral exploration and managed related industry risk issues directly. The Company is currently inactive and seeking new business opportunities. The Company may be at risk for environmental issues and fluctuations in commodity pricing. Management is not aware of and does not anticipate any significant environmental remediation costs or liabilities in respect of its prior operations.

The Company's financial instruments are exposed to certain financial risks, which include the following:

Credit risk

Credit risk is the risk of loss due to the counterparty's inability to meet its obligations. The Company's exposure to credit risk is on its cash and sales tax receivables. Risk associated with cash is managed through the use of major banks which are high credit quality financial institutions as determined by rating agencies. Sales tax receivables comprise refundable sales tax credits from the Canadian federal government.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting obligations when they become due. The Company ensures that there is sufficient capital in-order to meet short-term operating requirements, after taking into account the Company's holdings of cash. Liquidity risk has been assessed as high.

3. FINANCIAL RISK AND CAPITAL MANAGEMENT (continued)

Foreign exchange risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company does not have any direct exposure to foreign exchange risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to significant interest rate risk.

Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor and creditor confidence and to sustain future development of the business. The capital structure of the Company consists of equity, net of cash and cash equivalents. There were no changes in the Company's approach to capital management during the year. The Company is not subject to any externally imposed capital requirements.

4. SHARE CAPITAL AND RESERVES

Share Capital

Authorized share capital of the Company consists of an unlimited number of fully paid common shares without par value.

See Note 7.

For the period ended June 30, 2021

On May 11, 2021, the Company completed private placement of 2,500,00 Units at a price of \$0.10 per Unit for gross proceeds of \$250,000. Each Unit consisted of one common share of the Company and one share purchase warrant entitling the holder to purchase one additional common share of the Company at a price of \$0.15 until May 11, 2022, subject to an acceleration right that allows the Company to give notice of an earlier expiry date if the Company's share price on the TSX Venture Exchange is equal to or greater than \$0.40 for a period of 10 consecutive trading days.

On May 20, 2021, the Company completed debt settlements with various directors, officers and creditor's of the Company totaling \$169,500 in exchange for 1,695,000 common shares of the Company.

All securities issued under the private placement and debt settlement agreement are subject to a mandatory hold period until September 21, 2021.

For the year ended December 31, 2020

There was no share capital activity during this year.

4. SHARE CAPITAL AND RESERVES (continued)

Stock Options

Under TSX Venture Exchange NEX policies the Company has reserved for issuance 1,227,336 common shares as incentive stock options available for issuance to directors and employees of the Company. The exercise price, term and vesting provisions are authorized by the Board of Directors at the time of the grant. There were no stock options outstanding at June 30, 2021 and December 31, 2020.

Warrants

There are 2,500,000 share purchase warrants exercisable at \$0.15 until May 11, 2021 with a remaining life of 0.86 years.

Equity settled benefits and warrant reserve

Equity settled benefits reserve records items recognized as stock-based compensation expense until such time that the stock options are exercised, at which time the corresponding amount will be transferred to share capital. If the options expire unexercised, the amount remains in reserves. Warrant reserve records the value of warrants until such time that the warrants are exercised, at which time the corresponding amount will be transferred to share capital. If the warrants expire unexercised, the amount remains in reserves.

5. RELATED PARTY TRANSACTIONS

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties may be individuals or corporate entities. The Company has identified its directors and officers as its key management personnel.
