

CERTIFICATE OF QUALIFIED PERSON

I, Daniel Weich Morrison P. Eng., am employed as a Senior Process Engineer with AMEC Americas Limited.

This certificate applies to the technical report titled "Pre-feasibility Study on the Volta Grande Project, Pará, Brazil, NI 43-101 Technical Report" with an effective date 6 September 2012 (the "Technical Report").

I am a Registered Professional of Professional Engineers of Ontario. I graduated from the University of Stellenbosch (RSA) in 1990 with a B.Eng. in Chemical Engineering.

I have practiced my profession for 20 years. Most of my experience relates to gold extraction research and development as well as gold plant projects. Over the past 5 years I have worked on the process design aspects of 2 feasibility studies for gold deposits and one detailed design, construction and commissioning project for a gold plant. I have been directly involved in the review and finalization of the process design and operating cost estimate for the Volta Grande Project Pre-feasibility Report.

As a result of my experience and qualifications, I am a Qualified Person as defined in National Instrument 43-101 Standards of Disclosure for Mineral Projects (NI 43-101).

I have not visited the Volta Grande Project site.

I am responsible for sections 1.13, 1.17, 13, 17, 21.8 and 25.4 of the Technical Report.

I am independent of Belo Sun Mining Corp. as independence is described by Section 1.5 of NI 43-101.

I have been involved with the Volta Grande Project Pre-feasibility Study from January to July 2013.

I have read NI 43-101 and the sections of the Technical Report for which I am responsible have been prepared in compliance with that Instrument.

As of the effective date of the Technical Report, to the best of my knowledge, information and belief, the sections of the Technical Report for which I am responsible contain all scientific and technical information that is required to be disclosed to make those sections of the Technical Report not misleading.

Dated: 21 June 2013

"signed and sealed"

Daniel Weich Morrison, P. Eng.
