NOTICE OF NO AUDITOR REVIEW OF INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3) (a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the interim financial statements have not been reviewed by an auditor.

The accompanying unaudited interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these interim financial statements in accordance with standards established by the Canadian Institute of Chartered Professional Accountants for a review of interim financial statements by an entity's auditor.

PLANET VENTURES INC.

Notes to the Financial Statements

For the Nine months Ended December 31, 2025 and 2024

(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS

Planet Ventures Inc. (the “Company”) was incorporated in Canada on January 29, 1996 under the Alberta Business Corporations Act and continues under the British Columbia Business Corporations Act. On June 28, 2017, the Company changed its name to Planet Ventures Inc. from Planet Mining Exploration Inc. The Company’s registered office and its principal place of business are located at Suite 303, 750 West Pender Street, Vancouver, BC Canada V6C 2T7. The Company’s shares were listed on the TSX Venture Exchange (TSX.V) under the trading symbol “PXI”. On January 31, 2024, the Company’s common shares were delisted from the TSX.V and continue to trade on the Canadian Securities Exchange under the same symbol.

From its inception up to October 2, 2014, the Company was in the business of acquiring, exploring and developing gold, copper, silver and other resource properties, both directly and through joint ventures in Canada. In October 2014, the Company changed its business from a “junior mineral exploration company” to an “investment issuer”.

The principal business of the Company is investing in a portfolio of common shares and other securities of publicly-listed and private companies to achieve capital appreciation of the portfolio.

These financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assume that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. Future capital requirements will depend on many factors including the Company’s ability to execute its business plan. These factors form a material uncertainty which may cast significant doubt on the Company’s ability to continue as a going concern.

2. BASIS OF PREPARATION

(a) Statement of compliance

These condensed interim financial statements have been prepared in accordance with International Accounting Standard 34 (IAS 34) – Interim Financial Reporting of the International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). The interim financial statements should be read in conjunction with the Company’s audited financial statements for the year ended March 31, 2025 and 2024, which have been prepared in accordance with IFRS.

(b) Basis of presentation

These financial statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

PLANET VENTURES INC.

Notes to the Financial Statements

For the Nine months Ended December 31, 2025 and 2024

(Expressed in Canadian dollars)

2. BASIS OF PREPARATION (continued)

(b) Basis of presentation (continued)

The Company meets the definition of an investment entity under IFRS 10 Consolidated Financial Statements and measures its investment in relevant subsidiaries at fair value through profit or loss (see note 4).

The presentation and functional currency of the Company is the Canadian dollar.

(c) Significant accounting judgements and estimates

The preparation of financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and expenses during the reporting period. Actual results could differ from these estimates.

These financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and may affect both the period of the revision and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the reporting date that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from estimates made, relate to determination of the fair value of financial instruments (note 4(b)).

In preparing the financial statements, management makes judgments regarding the application of IFRS for the Company's accounting policies. Significant judgments relate to the following areas:

(i) *Going concern assumption*

Determining if the Company has the ability to continue as a going concern is dependent on its ability to achieve profitable operations. Certain judgments are made when determining if the Company will achieve profitable operation.

2. BASIS OF PREPARATION (continued)

(c) Significant accounting judgements and estimates (continued)

(ii) Income taxes

Judgements are made by management at the end of the reporting period to determine the likelihood that deferred income tax assets will be realized from future taxable earnings. Assessing the recoverability of deferred income tax assets requires the Company to make judgments related to the expectations of future cash flows from operations and the application of existing tax laws. While management believes judgements and the estimates are reasonable, actual results could differ from those judgements and estimates and could impact future results of operations and cash flows.

(iii) Investment entity status

Determining if the Company meets the investment entity status under IFRS 10 requires significant judgment.

3. MATERIAL ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently by the Company.

(a) Foreign currencies

The Company's functional and reporting currency for all its operations is the Canadian dollar as this is the currency of the primary economic environment in which it operates.

Transactions in foreign currencies are initially recorded in the Company's functional currency at the exchange rate at the date of the transaction. Monetary assets and liabilities of the Company that are denominated in foreign currencies are translated at the functional currency rate of exchange ruling at the date of the statement of financial position. Non-monetary assets and liabilities are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value is determined.

Exchange gains and losses arising on translation are included in the statement of operations and comprehensive Income (loss).

PLANET VENTURES INC.

Notes to the Financial Statements

For the Nine months Ended December 31, 2025 and 2024

(Expressed in Canadian dollars)

3. MATERIAL ACCOUNTING POLICIES (Continued)

(b) Financial instruments

(i) Measurement – initial recognition

All financial assets and financial liabilities are initially recorded on the Company's statement of financial position when the Company becomes a party to the contractual provisions of the instrument. Purchases and sales of investments are recognized on the settlement date. All financial asset and liabilities are initially recorded at fair value, net of attributable transaction costs, except for those classified as fair value through profit or loss ("FVTPL"). Subsequent measurement of financial assets and financial liabilities depends on the classifications of such assets and liabilities.

(ii) Classification – financial assets

Amortized cost

Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows, and the contractual terms of these financial assets give rise on specified date to cash flows that are solely payments of principal and interest on the principal amount outstanding, are subsequently measured at amortized cost using the effective interest rate method. The Company classifies loans receivable and receivables as a financial asset at amortized cost.

Fair value through other comprehensive income ("FVTOCI")

Financial assets that are held within a business model whose objective is to hold financial assets in order to both collect contractual cash flows and selling financial assets, and that the contractual terms of the financial assets give rise on specified date to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Upon initial recognition of equity securities, the Company may make an irrevocable election (on an instrument-by-instrument basis) to designate its equity securities that would otherwise be measured at FVTPL to present subsequent changes in fair value in other comprehensive income (loss). Designation at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognized by an acquirer in a business combination. Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognized in OCI. The cumulative gain or loss is not reclassified to profit or loss on disposal of the instrument; instead, it is transferred to retained earnings upon derecognition. The Company currently has no financial assets designated as FVTOCI.

3. MATERIAL ACCOUNTING POLICIES (continued)

(b) Financial instruments (continued)

(ii) Classification – financial assets (continued)

Fair value through profit or loss (“FVTPL”)

By default, all other financial assets are measured subsequently at FVTPL, which includes cash and cash equivalents and investments at fair value.

(iii) Classification – financial liabilities

Financial liabilities are subsequently measured at amortized cost using effective interest method, except for financial liabilities at FVTPL, financial guarantee contracts, loan commitments at below-market interest rate, and liabilities related to contingent consideration of an acquirer in a business combination. Financial liabilities at amortized cost include accounts payable.

The Company has no hedging arrangements and does not apply hedge accounting.

(iv) Derecognition and reclassification of investments

Investments are derecognized when the rights to receive cash flows from the investments have expired or the Company has transferred the financial asset and the transfer qualifies for derecognition in accordance with IFRS.

The Company would only reclassify a financial asset when the Company changes its business model for managing the financial asset. Reclassifications are recorded at fair value at the date of reclassification, which becomes the new carrying value.

(v) Determination of fair values

The determination of fair value requires judgment and is based on market information, where available and appropriate. At the end of each financial reporting period, the Company’s management estimates the fair value of investments based on the criteria below and reflects such valuations in the financial statements.

(vi) Impairment

The Company recognizes a loss allowance for expected credit losses on its financial assets when necessary. The amount of expected credit losses is updated at each reporting period to reflect changes in credit risk since initial recognition of the respective financial instruments. The Company did not recognize impairment losses during the nine months ended December 31, 2025 and 2024.

PLANET VENTURES INC.

Notes to the Financial Statements

For the Nine months Ended December 31, 2025 and 2024

(Expressed in Canadian dollars)

3. MATERIAL ACCOUNTING POLICIES (continued)

(b) Financial instruments (continued)

(vi) Impairment (continued)

The Company is also required to disclose details of its investments (and other financial assets and liabilities for which fair value is measured or disclosed in the financial statements) within three hierarchy levels (Level 1, 2, or 3) based on the transparency of inputs used in measuring or disclosing the fair value, and to provide additional disclosure in connection therewith (note 4).

(c) Cash and cash equivalents

Cash and cash equivalents are comprised of cash on hand, demand deposits and short-term investments with a maturity less than 90 days on acquisition that are readily convertible into known amounts of cash.

(d) Investments in crypto currencies

Crypto currencies acquired are accounted for as intangible assets, initially recorded at cost and are subsequently measured at fair value under the revaluation method. Crypto currencies are treated as indefinite lived intangibles, unless the contractual terms indicate a definite useful life.

Under IAS 38, Intangible Assets, for the purposes of revaluation, fair value is measured by reference to an active market. If an intangible asset cannot be revalued because there is no active market for this asset, it should be carried at cost less any accumulated amortization and impairment losses. The fair value changes are accounted for as follows:

- Increases in the fair value are recorded in other comprehensive income (“OCI”), and decreases that reverse previous increases are recorded in OCI, which would result in the cumulative effect on OCI being the net increase in the fair value of cryptocurrencies over time; and
- Decreases in the fair value are recorded in profit or loss and increases that reverse previous decreases are recorded in profit or loss, which would result in the cumulative effect on profit or loss being the net decrease in the fair value of cryptocurrencies over time.

Decreases in the fair value to the extent of the credit balance in the revaluation surplus related to the crypto currency asset may be recorded in OCI.

PLANET VENTURES INC.

Notes to the Financial Statements

For the Nine months Ended December 31, 2025 and 2024

(Expressed in Canadian dollars)

3. MATERIAL ACCOUNTING POLICIES (continued)

(e) Revenue recognition

Sales of investments are recognized on the settlement date. Realized gains and losses on disposal of investments and unrealized gains and losses in the value of investments are reflected in the statements of operations and comprehensive income (loss).

All transaction costs associated with the acquisition and disposition of investments are expensed to the statements of operations and comprehensive income (loss) as incurred.

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

Interest income is recognized in profit or loss as it accrues, using the effective interest method.

Consulting income is recorded when services have been rendered, terms of the arrangement with a client have been met and collection is probable, which is usually when a consulting invoice is issued.

(f) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

PLANET VENTURES INC.

Notes to the Financial Statements

For the Nine months Ended December 31, 2025 and 2024

(Expressed in Canadian dollars)

3. MATERIAL ACCOUNTING POLICIES (continued)

(g) Income taxes

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive income (loss).

(i) Current income tax

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

(ii) Deferred income tax

- Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: liabilities arising from initial recognition of goodwill for which depreciation is not deductible for tax purposes;
- liabilities arising from the initial recognition of an asset/liability other than in a business combination which, at the time of the transaction, does not affect either the accounting or the taxable profit; and
- liabilities arising from undistributed profits from investments where the entity is able to control the timing of the reversal of the difference and it is probable that the reversal will not occur in the foreseeable future.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

PLANET VENTURES INC.

Notes to the Financial Statements

For the Nine months Ended December 31, 2025 and 2024

(Expressed in Canadian dollars)

3. MATERIAL ACCOUNTING POLICIES (continued)

(h) Share capital

The proceeds from the exercise of stock options or warrants together with amounts previously recorded over the vesting periods are recorded as share capital.

Share capital issued for non-monetary consideration is recorded at an amount based on fair market value on the date of issue.

The proceeds from the issue of units are allocated between common shares and common share purchase warrants using residual value method. Under this method, the unit price is compared to the price of common shares in a concurred financing or to the market share price. The proceeds are first allocated to the share capital, and any residual value is allocated to contributed surplus.

(i) Share-based compensation

The Company has a stock option plan as described in note 8(c). An individual is classified as an employee, versus a consultant, when the individual is an employee for legal or tax purposes (direct employee) or provides services similar to those performed by a direct employee.

Compensation expense attributable to share based awards to employees is measured at the fair value at the date of grant using the Black-Scholes Option Pricing Model, and it is recognized over the period that the employee becomes unconditionally entitled to the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognized as an expense is based on the number of awards that do meet the related service and non-market performance conditions at the vesting date.

For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes. The fair value, under the Black-Scholes model, takes into account a number of variables, including the exercise price of the award, the expected dividend rate, the expected life of the options, forfeiture rate and the risk-free interest rate.

Where equity instruments are granted to parties other than employees, they are recorded by reference to the fair value of the services received. If the fair value of the services received cannot be reliably estimated, the Company measures the services received by reference to the fair value of the equity instruments granted, measured at the date the counterparty renders service. All equity-settled share-based payments are reflected in contributed surplus, until exercised. Upon exercise, shares are issued from treasury and the amount reflected in contributed surplus is credit to share capital, adjusted for any consideration paid.

PLANET VENTURES INC.

Notes to the Financial Statements

For the Nine months Ended December 31, 2025 and 2024

(Expressed in Canadian dollars)

3. MATERIAL ACCOUNTING POLICIES (continued)

(j) Earnings (loss) per share

Basic earnings (loss) per share is computed by dividing net income (loss) available to common shareholders by the weighted average number of shares outstanding during the reporting period. Diluted income (loss) per share is computed similar to basic income (loss) per share except that the weighted average shares outstanding are increased to include additional shares for the assumed exercise of stock options and warrants, if dilutive. The number of additional shares is calculated by assuming that outstanding stock options and warrants were exercised and that proceeds from such exercises were used to acquire common stock at the average market price during the reporting periods.

Currently, the effect of potential issuances of shares under stock options and warrants would be anti-dilutive and accordingly, basic and diluted earnings (loss) per share are the same.

(k) Comprehensive income (loss)

Comprehensive income (loss) is the change in the Company's net assets that results from transactions, events and circumstances from sources other than the Company's shareholders and includes items that are not included in net profit such as foreign currency gains or losses related to translation of the financial statements of foreign operations and the revaluation of the Company's investments in crypto currencies. The Company's comprehensive income (loss), components of other comprehensive income (loss) are presented in the statements of comprehensive income (loss) and the statements of changes in equity.

(l) New accounting standards

No new accounting standards had a significant impact on the financial statements.

Certain new standards, interpretations and amendments to existing standards have been issued by the IASB or the IFRIC that are mandatory for future accounting periods. The Company has not identified any new standards, interpretations or amendments to existing standards that are expected to have an impact on the Company's financial statements.

PLANET VENTURES INC.**Notes to the Financial Statements****For the Nine months Ended December 31, 2025 and 2024***(Expressed in Canadian dollars)***4. INVESTMENTS AT FAIR VALUE AND FINANCIAL INSTRUMENTS HIERARCHY**

The fair value measurements use a fair value hierarchy that reflects the significance of the inputs used in making measurements. The level in the hierarchy within which the fair value measurement is categorized is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety.

The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (that is, as prices) or indirectly (that is, derived from prices);

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

	December 31, 2025			March 31, 2025		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
	\$	\$	\$	\$	\$	\$
Investments at fair value:						
Equity investments in public companies (a)	7,475,498	-	-	10,467,365	-	-
Investments in fixed income	1,251,240	-	-	-	-	-
Investments in cryptocurrencies (b)	3,473,391	-	-	-	-	-
Equity investments in private companies (c)	-	-	7	-	-	7

The methods of measuring each of these financial assets have not changed during the period. The fair values of financial instruments measured at amortized cost approximate their carrying amounts.

PLANET VENTURES INC.

Notes to the Financial Statements

For the Nine months Ended December 31, 2025 and 2024

(Expressed in Canadian dollars)

**4. INVESTMENTS AT FAIR VALUE AND FINANCIAL INSTRUMENTS
HIERARCHY (continued)**

(a) Equity investments in public companies

The Company's equity investments are valued using quoted market prices in active markets and as such are classified within Level 1 of the fair value hierarchy. The fair value of investment securities is calculated as the closing market price of the investment equity security multiplied by the quantity of shares held by the Company. Some of the equity investments are subject to a four-month statutory hold period. Stock options and warrants held that are not traded on an active market are remeasured using a valuation technique based on data inputs that are supported by observable current market conditions and are therefore classified within Level 2 of the fair value hierarchy.

(b) Investments in cryptocurrencies

The Company's cryptocurrency investments consist solely of Ethereum ("ETH"). Cryptocurrency holdings are valued using quoted market prices in active markets and are therefore classified within Level 1 of the fair value hierarchy. The fair value of the ETH investment is calculated as the closing market price of Ethereum on the reporting date multiplied by the quantity of ETH held by the Company. As of December 31, 2025, the Company held 852.93943648 ETH with a fair value of \$3,473,391.15 and a total cost of \$3,720,845.94, resulting in an unrealized gain of \$247,455.

(c) Equity investments in private companies

All privately-held investments (other than options and warrants) are initially recorded at the transaction price, being the fair value at the time of acquisition. Thereafter, at each reporting period, the fair value of an investment may (depending upon the circumstances) be adjusted using one or more of the valuation indicators described below.

The determination of fair value of the Company's privately held investments at other than initial cost is subject to certain limitations. Financial information for private companies in which the Company has investments may not be readily available and, even if available, that information may be limited and/or unreliable.

Use of the valuation approach described below may involve uncertainties and determinations based on the Company's judgment and any value estimated from these techniques may not be realized or realizable.

**4. INVESTMENTS AT FAIR VALUE AND FINANCIAL INSTRUMENTS
HIERARCHY (continued)**

(c) Equity investments in private companies (continued)

Company-specific information is considered when determining whether the fair value of a privately-held investment should be adjusted upward or downward at the end of each reporting period. Valuation techniques which use management-derived unobservable data specific to the investee are considered to be measured at fair value using Level 3 inputs. In addition to company-specific information, the Company will take into account trends in general market conditions and the share performance of comparable publicly-traded companies when valuing privately-held investments.

The absence of the occurrence of any events, such as a significant change in trends in general market conditions, or any significant change in share performance of comparable publicly-traded companies indicates generally that the fair value of the investment has not materially changed. The fair value of a privately-held investment may be adjusted if there has been a significant subsequent equity financing provided by outside investors at a valuation different than the current value of the investee company, in which case the fair value of the investment is set to the value at which that financing took place.

Adjustments to the fair value of a privately-held investment will be based upon management's judgment and any value estimated may not be realized or realizable. The resulting values for non-publicly traded investments may differ from values that would be realized if a ready market existed. In addition, the amounts at which the Company's privately-held investments could be disposed of currently may differ from the carrying value assigned.

In addition, investments which are in Level 3 and become public issuers are transferred to Level 1 or 2. These financial instruments are measured at fair value utilizing non-observable market inputs based on specific company information and general market conditions. The net change in unrealized gains (losses) are recognized in the statements of operations and comprehensive income (loss).

5. CONSULTING INCOME

During the year ended March 31, 2025, the Company expanded its consulting services to include corporate advisory services for a number of its clients. For the nine months ended December 31, 2025, the Company recognized consulting revenue of \$1,725,379 (2024 – \$4,820,217). As at December 31, 2025, the Company had deferred revenue of \$172,206 (March 31, 2025 – \$635,116).

PLANET VENTURES INC.**Notes to the Financial Statements****For the Nine months Ended December 31, 2025 and 2024***(Expressed in Canadian dollars)*

6. LOANS RECEIVABLE

On October 29, 2020, the Company entered into an agreement to loan up to \$300,000 with a private company. The principal amount was \$250,000 with a 6% interest rate per annum due on August 3, 2021. The loan was secured by a mortgage in the principal amount of \$300,000 against the sub-lease between the borrower as tenant and a landlord. During the year ended March 31, 2022, the Company agreed to extend the maturity date to August 31, 2022, in return for a \$33,000 loan extension fee. On April 1, 2022, the principal increased by \$50,000 from \$250,000 to \$300,000 as a lump-sum interest payment agreed, and the Company received another loan extension fee of \$33,000 recognized as other income. On March 14, 2025, the Company accepted the borrower's proposed payment plan of post-dated cheques of \$4,000 month per month over the course of the 7 months, totalling \$28,000, of which \$4,000 was deposited during the year ended March 31, 2025. Upon receipt of all promised payments, the Company agreed to forgive remaining principal and interest. As a result, the Company recorded \$24,988 of loss on loan settlement during the year ended March 31, 2025. During the nine months ended December 31, 2025, the loan was fully settled.

On January 23, 2025, the Company agreed and provided a \$100,000 loan to a company with common directors and officers. The loan has a 5% interest rate per annum and is payable on demand.

On May 20, 2025, the Company provided a \$125,000 loan to an arm's length party. Default or judgement will bear interest at a rate of \$8,333 per month. During the nine months ended December 31, 2025, the loan was fully settled and received interest income of \$25,000.

7. RIGHT-OF-USE ASSET AND LEASE LIABILITY

On April 1, 2016, the Company entered into an office lease agreement for a term ended on February 28, 2022. On March 1, 2022, the lease was extended to February 28, 2027. Interest was calculated based on estimated annual rate of 10%.

As at December 31, 2025, the lease liability is as follows:

Balance as at March 31, 2024	\$	247,291
Interest expense		20,562
Lease payments		(95,613)
Balance as at March 31, 2025	\$	172,240
Interest expense		10,246
Lease payments		(73,018)
Balance as at December 31, 2025	\$	109,468
Current portion of the lease liability		92,993
Non-current portion of a lease liability		16,475

PLANET VENTURES INC.**Notes to the Financial Statements****For the Nine months Ended December 31, 2025 and 2024***(Expressed in Canadian dollars)*

7. RIGHT-OF-USE ASSET AND LEASE LIABILITY (CONTINUED)

As at December 31, 2025, the balance of the right-of-use asset is as follows:

Balance as at March 31, 2024	\$	219,340
Depreciation		(75,203)
Balance as at March 31, 2025	\$	144,137
Depreciation		(56,402)
Balance as at December 31, 2025	\$	87,735

8. SHARE CAPITAL**(a) Common shares**

The Company is authorized to issue an unlimited number of common voting shares without par value. The holder of common shares is entitled to receive any dividend declared by the Company on such shares.

Shares issued during the nine months ended December 31, 2025

In connection with a normal course issuer bid ("NCIB") announced in July 2024, the Company repurchased 35,000 of the Company's issued and outstanding common shares at an average cost of \$0.03 per share for total cost of \$1,050. As at December 31, 2025, the Company had 204,126,674 of issued and outstanding common shares.

Shares issued during the year ended March 31, 2025

In July 2024, the Company announced its intention to initiate an NCIB through the facilities of the CSE to repurchase up to 16,687,115 of the Company's issued and outstanding common shares until July 16, 2025, for cancellation. During the year ended March 31, 2025, the Company repurchased and cancelled 6,464,000 common shares at an average cost of \$0.03 per share for total cost of \$193,840. As at March 31, 2025, the Company had 204,161,674 of issued and outstanding common shares.

(b) Preferred shares

The Company is authorized to issue an unlimited number of first preferred shares and second preferred shares issuable in series with the issue price to be fixed by the directors. The holders of first preferred shares are entitled to preference over the common shares and the second preferred shares with respect to payment of dividends and distribution of assets in the event of liquidation, dissolution or winding-up of the Company.

No preferred shares were issued or were outstanding as at December 31, 2025 and March 31, 2025.

PLANET VENTURES INC.**Notes to the Financial Statements****For the Nine months Ended December 31, 2025 and 2024***(Expressed in Canadian dollars)***8. SHARE CAPITAL (CONTINUED)****(c) Stock options**

The Company has a stock option plan whereby the Company may grant options to its directors, officers, employees and consultants for up to 10% of the outstanding common shares from time to time with vesting rights determined at each grant date. The exercise price of each option equals the market price of the Company's stock on the date of the grant (less any permitted discount, if any) and an option's maximum term is five years.

On July 22, 2025, the Company granted an aggregate of 676,500 stock options to directors, officers and consultants of the Company. The options are exercisable at \$0.20 per common share and expire on July 22, 2027. The options vest immediately on the grant date. The fair value of the options was estimated at the grant date using the Black-Scholes option pricing model and is recorded as share-based compensation during the period.

A continuity schedule of the Company's outstanding options is as follows:

	Number of options	Weighted average exercise price
		\$
Balance, March 31, 2024	2,435,000	0.50
Expired	(100,000)	0.50
Balance, March 31, 2025	2,335,000	0.50
Granted	676,500	0.20
Expired	(2,335,000)	0.50
December 31, 2025	676,500	0.20

As at December 31, 2025, the Company had the following stock options outstanding and exercisable:

Expiry date	Exercise price	Number of options outstanding	Number of options exercisable	Weighted average remaining contractual life (in years)
July 22, 2027	\$ 0.20	676,500	338,250	1.56

(d) Share purchase warrants

There were no outstanding share purchase warrants issued during the nine months ended December 31, 2025 or the year ended March 31, 2025.

PLANET VENTURES INC.**Notes to the Financial Statements****For the Nine months Ended December 31, 2025 and 2024***(Expressed in Canadian dollars)*

9. KEY MANAGEMENT COMPENSATION AND RELATED PARTY TRANSACTIONS**(a) Key management compensation**

Key management personnel include the members of the Board of Directors and officers of the Company, who have the authority and responsibility for planning, directing and controlling the activities of the Company.

Amounts paid and accrued for key management compensation are as follows:

	December 31, 2025	December 31, 2024
	\$	\$
Consulting	374,000	-
Directors' fees	13,500	19,500
Interest on convertible debentures (note 11)	128,000	-
Total	515,500	19,500

Included in accounts payable and accrued liabilities at December 31, 2025 was \$4,725 (March 31, 2025 - \$1,575) due to companies controlled by directors of the Company for unpaid directors' fees.

(b) Related party transactions

In the normal course of operations, the Company transacts with companies related to its directors or officers. Related party transactions are measured at the exchange amounts as agreed upon by transacting parties.

Related party transactions not disclosed elsewhere in the financial statements are as follows:

- As at December 31, 2025, \$55,777 (March 31, 2025 - \$189,250) is included in accounts payable and accrued liabilities for a law firm of which a director and officer of the Company is a partner.
- During the nine months ended December 31, 2025, the Company had a loan receivable of \$100,000 (March 31, 2025 - \$100,000) from a company controlled by the director and officer of the Company (Note 6).
- During the nine months ended December 31, 2025, the Company settled a receivable from a related company with common officers through the issuance of shares by that company. The settlement resulted in a gain on settlement of receivable of \$46,068, which has been recognized in profit or loss for the period.

PLANET VENTURES INC.

Notes to the Financial Statements

For the Nine months Ended December 31, 2025 and 2024

(Expressed in Canadian dollars)

10. FINANCIAL AND CAPITAL RISK MANAGEMENT

The Company is exposed to various financial instrument risks and assesses the impact and likelihood of this exposure. These risks include liquidity risk, credit risk, fair value risk and interest rate risk. Where material, these risks are reviewed and monitored by the Board of Directors.

(a) Capital management

The Company manages its capital to safeguard the Company's ability to continue as a going concern, so that it can continue to provide adequate returns to shareholders and benefits to other stakeholders, and to have sufficient funds on hand for business opportunities as they arise. The Company considers the items included in equity as capital. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through private placements, the sale of assets, debt, or return of capital to shareholders.

(b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company maintains sufficient cash and cash equivalent balances to meet current working capital requirements.

(c) Credit risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets including cash and cash equivalents and receivables.

The Company limits exposure to credit risk on liquid financial assets through maintaining its cash and cash equivalents, and other assets with high-credit quality financial institutions, and obtains security from creditors on receivables when possible.

The majority of the Company's cash and cash equivalents are held with major Canadian-based financial institutions. As at December 31, 2025, the Company estimates the credit risk associated with receivables as \$258,156 (March 31, 2025 - \$347,650) as it related to accounts receivable and loans receivables.

PLANET VENTURES INC.

Notes to the Financial Statements

For the Nine months Ended December 31, 2025 and 2024

(Expressed in Canadian dollars)

10. FINANCIAL AND CAPITAL RISK MANAGEMENT

(d) Market risk

Market risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will significantly fluctuate due to changes in market prices. The value of the financial instruments can be affected by changes in interest rates, foreign exchange rates, and commodity prices.

Interest rate risk

Interest rate risk is the impact that changes in interest rates could have on the Company's profit and losses. The Company's exposure to interest rate risk arises from the interest rate impact on its cash and cash equivalents and reclamation bond. The Company's practice has been to invest cash at floating rates of interest, in cash equivalents, in order to maintain liquidity, while achieving a satisfactory return for shareholders.

The Company is exposed to significant interest rate risk as the Company has fixed interest-bearing debt. Management closely monitors the market to determine the appropriate course of action to be taken by the Company.

Foreign currency risk

The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars. The Company does not have any exposure to any highly inflationary foreign currencies.

Price risk

The Company is exposed to price risk in trading its investments, and unfavourable market conditions could result in dispositions of investments at less than favourable prices.

In accordance with IFRS 9, the Company is required to remeasure its investments at fair value at the end of each reporting period. This process could result in significant write-downs of the Company's investments over one or more reporting periods, particularly during periods of overall market instability, which would have a significant unfavourable effect on the Company's financial position.

The result of sensitivity analysis shows an increase or decrease of 5% in the market prices, with all other variables held constant, could have decreased or increased the Company's net loss by approximately \$610,667 as at December 31, 2025 (March 31, 2025 - \$523,369).

Management closely monitors commodity prices, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

PLANET VENTURES INC.

Notes to the Financial Statements

For the Nine months Ended December 31, 2025 and 2024

(Expressed in Canadian dollars)

10. FINANCIAL AND CAPITAL RISK MANAGEMENT (continued)

(e) Concentration risk in the Company's investment portfolio

Concentration risk is the risk that any single investment or group of investments will have the potential to materially affect the operating results of the Company.

Subject to board approval for investments in excess of a pre-determined threshold, there are no restrictions on the proportion of Company's funds and no limit on the amount of funds that may be allocated to any particular investment, industry or sector. Accordingly, the Company's investment activities may be highly concentrated in a limited number of investments or industry sectors and the Company's financial results may be substantially adversely affected by the unfavourable performance in those investments or industry sectors.

As at December 31, 2025, the Company's top two investments had a fair value of \$2,640,597 in publicly traded companies, representing 28% of the fair value of the Company's publicly traded companies' portfolio (March 31, 2025 – \$3,153,270 or 30%).

11. CONVERTIBLE DEBENTURES

During the nine months ended December 31, 2025, the Company completed a non-brokered private placement of secured convertible debentures for total gross proceeds of \$6,400,000. No commissions were paid in connection with the offering. The proceeds will be used to support the Company's bitcoin treasury strategy and for general corporate and working capital purposes.

The debentures bear interest at 12% per annum and mature 24 months from the date of issuance. The principal amount is convertible into common shares of the Company at a price of \$0.50 per share at any time during the term of the debentures, at the election of the holders. The holders may request the redemption of the principal amount and any accrued interest at any time after 12 months from the date of issuance until the maturity date. The debentures are secured by a general security agreement over the Company's assets.

A portion of the offering was subscribed for by a non-arm's length company controlled by the Company's CEO, subscribed for \$3,200,000 of the debentures.

During the period, the Company paid \$128,000 of interest in cash. Because interest payments do not reduce the principal balance, the carrying amount of the Debentures remained \$6,400,000 as at December 31, 2025.

The loan movement for the nine months ended December 31, 2025 is as follows:

PLANET VENTURES INC.**Notes to the Financial Statements****For the Nine months Ended December 31, 2025 and 2024***(Expressed in Canadian dollars)*

11. CONVERTIBLE DEBENTURES (CONTINUED)

Balance as at March 31, 2025	-
Issuance of convertible debentures	6,400,000
Accretion and interest	128,000
Less: Interest paid (cash)	(128,000)
Balance as at December 31, 2025	6,400,000

12. SUBSEQUENT EVENT

On January 29, 2026, the Company announced that it has closed its previously announced non-brokered private placement under the listed issuer financing exemption of an aggregate of 100,000,000 common shares in the capital of the company at a price of \$0.05 per share for gross proceeds of \$5,000,000.

On February 9, 2026, the Company granted 5,000,000 stock options to certain directors, officers and consultants, entitling the holder thereof to purchase one share at a price of \$0.25 until February 9, 2028.s

On February 17, 2026, the Company consolidated its issued and outstanding common shares on the basis of one postconsolidated common share for every two preconsolidated common shares. As a result, the number of outstanding shares were reduced to approximately 152,063,336 common shares.
