NEWS RELEASE

TSX-PYT OTC-BB-PYNGF

Pyng Medical Corp. Reports Sales and Profits Soar.

Pyng Medical Corp is pleased to announce that invoiced sales for the month of April exceeded \$343,000, the single largest month ever. This strong monthly result confirms a continuation of a historical annual growth in excess of 50% for Pyng Medical Corp and the F.A.S.T.1 System.

This significant revenue for April has had a very positive effect on the bottom line with internal accounting showing Net Profit, after depreciation and amortization, of \$137,000 for April alone. This superior profit can be attributed to a major increase in gross margins generated from internal production and engineering enhancements in concert with increased unit sales and price increase.

We are also pleased to report that the strong April sales results have continued into May with orders received for \$288,000 and June (to the 9th) of \$125,000 respectively.

In recognition of the strong results and anticipation of continued growth, Pyng management has implemented a planned expansion of our production capacity to 3,500 units per month.

For further information please contact Pyng Medical Corp at 1-604-303-7964 or visit our web site at www.pyng.com

Michael W. Jacobs.
Chairman/Pyng Medical Corp.
