FORWARD-LOOKING STATEMENTS

Forward looking statements are statements that are not historical facts and are generally, but not always identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential", "interprets" and similar expressions, or that events or conditions "will", "may", "could" or "should" occur. The information contained herein may contain forward looking statements including expectations of future production, cash flows or earnings. These statements are based on current expectations that involve a number of risks and uncertainties which could cause actual results to differ from those anticipated. Factors that could cause the actual results to differ materially from those in forward-looking statements, but are not limited to: the risk associated with the oil and gas industry (e.g., operational risks in development, exploration and production; delays or changes in plans with respect to exploration or development projects or capital expenditures; the uncertainty of reserves estimates; the uncertainty of estimates and projections relating to production, costs and expenses, and health, safety and environmental risks), commodity price, price and exchange rate fluctuation and uncertainties resulting from potential delays or changes in plans with respect to exploration or development projects or capital expenditures. The foregoing list of assumptions is not exhaustive. Additional information on these and other factors that could affect the Company's operations or financial results are included in the Company's reports on file with Canadian securities regulatory authorities. Events or circumstances could cause results to differ materially.

MANAGEMENT'S DISCUSSION AND ANALYSIS

DESCRIPTION OF BUSINESS AND REVIEW

Grand Peak was a Canadian junior capital company that has completed its continuation from the jurisdiction of Yukon to British Columbia. Effective as of April 27, 2010, the Company is registered in British Columbia under the Business Corporations Act.

Grand Peak is engaged primarily in investing in small capital resource sector public companies. The focus is on increasing the Company's value to the benefit of its stakeholders. Accordingly, its financial success may be dependent upon the extent to which it can develop its investments and the economic viability of developing any additional investment portfolios.

Management of Grand Peak is actively looking for opportunities for investment. The team has experience evaluating and financing investment projects and anticipates expanding the Company's activities in the near future.

Mineral Properties

The Company owns 100% interests in the Vianey Mineral Claims in Guerrero State, Mexico.

OVERALL PERFORMANCE

Realized investment gains or losses are a recurring element in the Company's revenues and net earnings. Realized investment gains or losses may fluctuate significantly from period to period, with a meaningful effect upon the Company's consolidated net earnings. However, the amount of realized investment gain or loss for any given period has no predictive value, and variations in amount from period to period have no practical analytical value.

Annual Results

The following table summarizes selected consolidated data for the Company prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The information in the following table was extracted from the more detailed consolidated Financial Statements and related notes and should be read in conjunction with such Financial Statements.

The following table represents selected annual financial information on the Company's revenue and net income (loss) for the past three years:

Weighted-average number of shares	24,988,680	24,988,680	17,747,612

Revenue was higher in 2018 and 2017 than 2016 because the Company performed more management and consulting services during these years.

Net income decreased in 2018 primarily due to the impairment of loans receivable of \$4,540,000.

Total assets increased in 2018 compared to 2017 and 2016 due to the Company sold off some of its marketable securities to purchase other marketable securities, resulting in more cash for the Company.

Debt in 2017 was less than 2018 and 2016 due to the Company repaid some loans in 2017.

Investment Gains (Losses)

Realized investment gains or losses are a recurring element in the Company's revenues and net earnings. Realized investment gains or losses may fluctuate significantly from period to period, with a meaningful effect upon the Company's consolidated net earnings. However, the amount of realized investment gain or loss for any given period has no predictive value, and variations in amount from period to period have no practical analytical value.

GRAND PEAK CAPITAL CORP.
MANAGEMENT'S DISCUSSION AND ANALYSIS

FINANCIAL RISK MANAGEMENT

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as followings:

Market Risk

Market risk is the risk that the fair value of, or future cash flows from the Company's investment in marketable securities will significantly fluctuate because of changes in market prices. The Company is exposed to market risk or equity risk or equity price risk in trading its investment and unfavourable market conditions could result in dispositions of investments at less than favourable prices. Additionally, the Company marks its investments to market in accordance with accounting policies at each reporting period. This process could result in significant write-downs of the Company's investment over one or more reporting periods, particularly during periods of declining resource markets.

Market risk includes price risk, interest rate risk and currency risk as well as factors specific to an individual investment or its issuer or risk specific to a certain market. Market risk is managed principally through diversification of investments. Management monitors the overall market risk position on a quarterly basis.

Price Risk

The Company is exposed to price risk in relation to listed marketable securities held as available-for-sale and FVTPL investment, assessed as high.

Interest Rate Risk

Interest risk is the risk that the fair values or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to interest rate risk is minimal.

Currency Risk

Currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company is not exposed to currency risk as the Company does not hold financial instrument denominated in foreign currency.

GRAND PEAK CAPITAL CORP.
MANAGEMENT'S DISCUSSION AND ANALYSIS

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash held in bank accounts. Cash is deposited in bank accounts held with a major bank in Canada. As all of the Company's cash is held by one bank, there is a concentration of credit risk. This risk is managed by using major banks that are high credit financial institutions as determined by rating agencies. The Company's secondary exposure to risk is on its GST receivable. The risk is minimal.

Liquidity Risk

Liquidity risk is the risk that the Company may be unable to meet its financial obligations as they fall due. The Company reviews its working capital position regularly to ensure there is sufficient capital in order to meet short-term business requirements, taking into account its anticipated cash flows from operations and its holding of cash.

Capital Management

The Company's policy is to maintain a strong capital base so as to maintain investor and creditor confidence and to sustain future development of the business. The capital structure of the Company consists of equity, comprising share capital, net of accumulated deficit.

There were no changes in the Company's approach to capital management during the year. The Company is not subject to any externally imposed capital requirements.

OUTSTANDING SHARES

As at May 28, 2019, there were 36,188,480 common shares.

RELATED PARTY TRANSACTIONS

Transactions with Key Management and Directors

The Company did not have transactions with management and directors for the six-month period ended March 31, 2019.

Due to Related Parties

The Company did not have any balances owing to or from its related parties.

MANAGEMENT'S DISCUSSION AND ANALYSIS

INTERNAL FINANCIAL CONTROLS

Venture issuers are not required to include representations relating to the establishment and maintenance of disclosure controls and procedures (DC&P) and internal control over financial reporting (ICFR), as defined in National Instrument 52-109 Certification of Disclosure in Issuer's Annual and Interim Filings ("NI52-109"). In particular, the Company's certifying officers are not making any representations relating to the establishment and maintenance of:

- i) controls and other procedures designed to provide reasonable assurance that information required to be disclosed by the Company in its annual filings, interim filings or other reports filed or submitted under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and
- ii) a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the Company's generally accepted accounting principles.

The Company's certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they make. Investors should be aware that inherent limitations on the ability of the Company are certifying officers to design and implement on a cost effective basis.

CRITICAL ACCOUNTING POLICIES

The Company's significant accounting policies are described in Note 2 of the September 30, 2018 audited financial statements.

NEW ACCOUNTING STANDARDS INCLUDING ADOPTION

See Note 2 of the Company's financial statements for the year ended September 30, 2018 for a detailed summary of accounting standards issued but not yet effective. The Company has adopted the following new accounting standards on October 1, 2018:

IFRS 9 Financial Instruments

IFRS 9 addresses classification and measurement of financial assets and replaces the multiple category and measurement models in IAS 39 for debt instruments with a new mixed measurement model having only two categories: amortized cost and fair value through profit and loss. IFRS 9 also replaces the models for measuring equity instruments and such instruments are either recognized at fair value through profit and loss or at fair value through other comprehensive income. The adoption of this standard on October 1, 2018 did not have a significant impact on the Company's consolidated financial statements.

GRAND PEAK CAPITAL CORP.
MANAGEMENT'S DISCUSSION AND ANALYSIS

IFRS 15 Revenue from Contracts with Customers

IFRS 15 provides a single, principles based five-step model to be applied to all contracts with customers. The five steps in the model are as follows: i. Identify the contract with the customer; ii. Identify the performance obligations in the contract; iii. Determine the transaction price; iv. Allocate the transaction price to the performance obligations in the contracts; v. Recognize revenue when (or as) the entity satisfies a performance obligation. Guidance is provided on topics such as the point in which revenue is recognized, accounting for variable consideration, costs of fulfilling and obtaining a contract and various related matters. New disclosures about revenue are also introduced. The adoption of this standard on October 1, 2018 did not have a significant impact on the Company's consolidated financial statements.
