Enablence Technologies Appoints Colin Parry as Vice President Operations

OTTAWA, ONTARIO--(Marketwire - Nov. 12, 2007) - (TSX VENTURE:ENA) Enablence Technologies Inc. ("Enablence" or the "Corporation"), a developer of Planar Lightwave Circuit (PLC) based Transceivers for Fiber-to-the-Home (FTTH), Aerospace and Defence applications, is pleased to announce that Mr. Colin Parry has joined the Enablence Technologies team as its Vice President of Operations.

Mr. Parry has a broad range of executive management experience as former Vice President of Manufacturing Operations and Logistics for Alcatel and more recently as the Vice President of Operations and Business Systems for Curtiss-Wright Corporation, a supplier of advanced technology solutions for military, commercial and industrial applications.

"Colin is a strong addition to our senior management team. His experience in leading global operations for multinational companies in the telecom, aerospace & defence industries is extremely valuable as we ramp production of our Fiber-to-the-Home product lines and continue our product expansion into new aerospace & defence markets," explained Arvind Chhatbar, the Chief Executive Officer of Enablence Technologies Inc.

About Enablence Technologies Inc.

Enablence products are used in optical modems that are located inside the consumer's homes (i.e. for the delivery of high speed data/voice/video). Enablence designs and manufactures optical components, in particular triplexers and diplexers, using its proprietary Planar Lightwave Circuit (PLC) "Dispersion Bridge" platform, for the Fiber-to-the-Home (FTTH) market. These devices are filters that are embedded on a chip that are capable of processing optical signals at a low cost.

Forward Looking Statements

The statements in this press release may contain forward looking statements that may involve a number of risks and uncertainties. Actual events or results could differ materially from the Corporation's expectations and projections. The TSX Venture Exchange has not approved this press release and does not accept responsibility for the adequacy or accuracy of this press release.
