# 2. Foreword

Dear Shareholders, Customers, Business Associates and Employees, Ladies and Gentlemen.

Due to the global financial and economic crisis, the operating business showed a rather modest development. In particular, there was a lacking in advance bookings for families' summer vacation.

According to contracts dated 21/22 April 2009, Unister Holding GmbH, Leipzig, acquired the majority of the capital of Travel24.com AG. The reorganisation plan developed by Unister Holding GmbH consolidates the Company's equity capital by approximately € 3.0 million through the purchase and conversion of the respective amount of convertible bonds issued in the period from 2006 to 2008. The reorganisation plan of Unister Holding GmbH also provides for the placement of the acquired "travel24" brand as well as the continuation of the Internet-based business activities by using the "Travel24.com" and "Travel24.de" domains, which will consolidate the Company's business activities in a sustainable and profitable way.

The previous Managing Board members of Travel 24.com AG, Mr Marc Maslaton and Mr Philip Kohler, resigned from their membership with effect from 30 June 2009. With effect from 1 July 2009, the signatories, Mr Thomas Wagner and Mr Sebastian Gantzckow, were appointed as new Managing Board members.

Yours,

Munich, December 2009

Thomas Wagner CEO Travel24.com AG

# 3. Business development

### Travel retail

The sale of holidays remains the core business of Travel24.com AG even after Unister Holding GmbH acquired the majority in the business. In May 2009, the previous booking applications were gradually adapted to the Unister Group both in frontend as well as backend. In this way, first optimisation processes could be initiated. The portfolio was extended by the offers of the new partner and now covers all major tour operators as well as over 200,000 hotels and more than 750 airlines with scheduled, chartered and budget flights. Added to this are a daily selection of millions of last-minute offers as well as the Dynamic Packaging offering. The programme also includes additional offerings such as rental cars, insurance, etc. All travel services can be booked easily and comfortably online at <a href="https://www.travel24.com">www.travel24.com</a> or using the toll-free booking hotline.

### Internet

In the first quarter 2009, the number of visits and page impressions declined compared to the previous year, which also affects the number of bookings. However, this decline cannot be observed considering the overall online booking market in 2009. In fact, there is a stable development compared to previous year. This is mainly due to a further shift from stationary to online distribution. Users are more and more interested in information before, during and/or after travelling. They are more and more willing to book their vacation online. The product range is to increase to the same amount as the user's interest. The quick-to-find online offerings, the wide range of interactive information on vacation destinations and, of course, the ever increasing number of interactive portal components, such as rating by the customers themselves, play a major role in this growth.

# **Marketing**

Both online and offline sales of travel packages geared specifically to the German market by the subsidiary Direkt-Touristik AG, enjoyed a slightly positive growth in the first quarter 2009. The offering covers city breaks, wellness, family vacations, air travel and beach holidays with an attractive cost/benefits ratio. Marketing activities in online travel retail could no longer be carried through in the first quarter due to the Company's financial situation (see paragraph 7. Notes to the interim financial statements / Events subsequent to the balance sheet day on 31 March 2009 / Reorganisation of Travel24.com AG)

### Investor relations

The Annual General Meeting held on 27 November 2008 agreed upon the reduction of the share capital by EUR -1.702,290.00 by means of a simplified procedure and the modification of § 4 (share capital) of the Articles of Association. The capital reduction was carried through, and the share capital amounts to EUR 113,486 on the date of entry in the commercial register on 12 January 2009.

Upon prior notice, Mr Cristofor Henn resigned from his Supervisory Board membership for personal reasons in February 2009. As a consequence, Mr Reiner Distel, accountant and auditor from Düsseldorf, was appointed as new member of the Supervisory Board following a resolution of the registration court Munich at the beginning of March.

On 30 March 2009, the Managing and the Supervisory Board of Travel24.com AG agreed to propose to the creditors of

the 0 % convertible bond of 2008/2009 with a total nominal value of EUR 300,000 (ISIN: DE000A0SFNT2);

- the 0 % convertible bond of 2007/2009 II with a total nominal value of EUR 250,000 (ISIN: DE000A0SS699);
- the 0 % convertible bond of 2007/2009 with a total nominal value of EUR 150,000 (ISIN: DE000A0PM7B5);
- the 0 % convertible bond of 2006/2009 with a total nominal value of EUR 800,000 (ISIN: DE000A0LDJD4) as well as the
- the non-interest-bearing profit sharing certificate of 2006/2009 with a total nominal value of EUR 357,685 (ISIN: DE000A0JDVE1)

to extend the respective convertible bonds and/or profit sharing rights (previous exercise period at maturity) up to and including 15 April 2009.

Significant events subsequent to the balance sheet date on 31 March 2009 are stated under item 7 of this three-month report.

# 4. Business results

### Revenue

In the first quarter 2009, the retail travel revenue recorded upon receipt of bookings totalled EUR 4.2 million, down EUR 1.5 million (25.7%) from last year's level (previous year period: EUR 5.7 Mio.). In the first three months of the current financial year, gross revenue recorded according to travel date at EUR 2.6 million declined by EUR 0.5 million.

Revenue of the first quarter 2009 totalled to TEUR 1,072, which was a decline by TEUR 158 compared to last year's first quarter (Q1 2008 TEUR 1,230).

### **Results**

Losses in the first quarter increased significantly compared to the previous year period. At EUR 0.5 million, both EBITDA and EBIT show an increase in losses of EUR 0.4 million compared to Q1 2008 of roughly EUR 0.1 million. On the one hand, these losses are due to a decline of TEUR 462 in revenue of the segments Travel Marketing & Distribution compared to the previous year quarter (see item 7. Notes to the interim financial statements – Segment reporting). On the other hand, non-liquidity-related interest charges in the amount of TEUR 102 arising from convertible bonds issued by the Company affect the quarterly results. As required by IFRS, these are due to the progressive passivation of interests for all bonds issued by the Company and similar financial instruments.

## Cash and cash equivalents

The cash and cash equivalents reported as of 31 March 2009 totalling TEUR 61 were thus down TEUR 72 compared to the start of the year. The cash and cash equivalents used from operations during the first quarter amounted to TEUR 106 and were mostly used to further establish the direct tour operator division.

## **Investments**

There were no notable investments in the first three months of the current financial year.

## **Employees**

As of 31 March 2009 the Travel24.com Group employed 21 persons. The quarterly average was 21.3 full-time employees. This was equivalent to 17.6 full-time company employees as of 31 Mach 2009, or a quarterly average of 17.7 (all figures excluding management).

# 5. Outlook

On 31 August 2009, the Annual General Meeting was held in Munich. The contracts concluded with regard to the transaction with Unister Holding GmbH in April 2009 and presented to the General Meeting for approval were adopted with a clear majority. Thus, the last condition for validity of the contracts concluded between Travel24.com AG and Unister Holding GmbH in April 2009 is fulfilled, and the taking over of the majority in the Company by Unister Holding GmbH in line with the reorganisation plan is completed. The taking over of the operational divisions by the Unister Group as well as the transfer of the place of business of Travel24.com AG from Munich to Leipzig permit a promising reorientation. The transfer of know-how as well as the use of synergies with regard to the Unister Group will lead to an increase in revenues and margins as well as a reduction of costs in the short and medium term. Optimised marketing campaigns, improved conversions on websites, competitive conditions in travel retail, a reduction in costs by using synergies within the Unister Group and the restriction to only necessary costs will contribute to increase the competitiveness of Travel24.com AG. According to recent planning, a positive result can already be reached in financial year 2010.

<sup>\*</sup> The negative revenue value of the segment Travel Marketing & Distribution in the amount of TEUR 11 is mainly due to the amortisation of the Travel24 GmbH affiliate and the effects resulting thereof. The amortisation requires the cancellation of revenues for booked travels that were already recognised in the Annual Financial Statements of 31 December 2008, which were booked before 31 December 2008 and refer to a travel date subsequent to the date of amortisation. These revenues are

part of Travel24 GmbH and will no longer be recognised as benefits for the Travel24.com AG Group after the sale of the company. Revenues realised from booked travels referring to a booking and travel date within the first three months of financial year 2009 will be overcompensated by TEUR 11 through the aforementioned cancellation of revenue.

### Events subsequent to the balance sheet date on 31 March 2009

Unister Holding GmbH acquires the majority of the capital of Travel24.com AG.

The repayment of the convertible bonds issued in the financial years from 2006 to 2008 and due in financial years 2008 and 2009 in the amount of T€ 4,469 was postponed until July 2010 as a result of the creditors' meeting held on 16 May 2008.

As of 15 June 2009, Unister Holding GmbH acquired the majority in the share capital of Travel24.com AG through purchase and conversion on 30 April 2009 of the respective number of partial bonds issued from 2006 to 2008, and increased share capital significantly while the Company's liabilities arising from bonds were reduced respectively.

### Issue of new shares

Following a resolution of the General Meeting on 5 July 2004, modified by a resolution of the General Meeting on 28 June 2006, and subject to § 4 section 4 of the Articles of Association of Travel24.com AG, the Managing Board was empowered, subject to the approval of the Supervisory Board, to increase the Company's share capital several times by EUR 5,474,960 (Authorised Capital) by no later than 4 July 2009 through issues of new non-par value bearer shares against cash or on-cash contributions, in full or partial amounts — after partial exploitation. The Managing Board was furthermore authorised, subject to the approval of the Supervisory Board, to exclude the statutory subscription rights of the shareholders in the case of capital increases against cash contributions for restructuring purposes or as required to grant the creditors of convertible bonds from the 2006 convertible loan programme resolved at the General Meeting of 28 June 2006 according to TOP 11.1 a subscription right to new shares to the extent to which they are entitled after exercising the conversion privilege.

The total issuing price of 1,610,958 shares issued from the Authorised Capital amounted to EUR 3,487,395. The new shares are entitled to a share in profits from the beginning of financial year 2009. The capital increase from the Authorised Capital was registered in the commercial register of Travel24.com AG at the registration court of Munich on 15 June 2009.

In partial execution of the Authorised Capital, the Company's share capital was increased by EUR 6,067 through the issue of a total of 6,067 new non-par value bearer shares, each representing EUR 1.00 of the share capital. 4,166 shares (from the converted 0% convertible bond 2006/2009) were issued at an issuing price of EUR 2.50 per non-par value share (totalling to EUR 10,415). 1,901 shares (from the converted non-interest profit-sharing certificate 2006/2009) were issued at an issuing price of EUR 3.00 per non-par value share (totalling to EUR 5,703). The total issuing price for 6,067 shares issued from the Authorised Capital thus amounted to EUR 16,118. The new shares are entitled to a share in profits from the beginning of financial year 2009. The capital increase from Authorised Capital in the amount of EUR 6,067 was registered in the commercial register of Travel24.com AG at the registration court of Munich on 19 June 2009. Due to this increase, the Company's share capital amounted to EUR 1.733.661.

A further capital increase from Contingent Capital was carried through in June 2009 due to the conversion of 50,000 partial bonds of the zero coupon convertible bond 2005/2010 by EUR 50,000 through the issue of 50,000 new non-par bearer shares, each representing EUR 1.00 of the share capital. The Company's share capital thus amounts to EUR 1,783,661 on 30 June 2009.

# Reorganisation of Travel24.com AG

At the time of acquisition by Unister Holding GmbH in April 2009, Travel24.com AG was in bad economic condition since risks concerning the survival of the Company existed in conjunction with § 322 section 2, sentence 3 HGB (German Commercial Code). These resulted from the accounting insolvency of Travel24.com AG, which would be inevitable if the continuation of business activities pursuant to § 19 section 2, sentence 1 InsO (German Insolvency Code) with regard to the reorganisation plan of Unister Holding GmbH was not sufficiently probable.

As stated above, Unister Holding GmbH acquired a majority of the capital of Travel24.com AG by purchase and conversion in April 2009 of the respective amount of convertible bonds issued in the period of 2006 to 2008. It thus significantly consolidated the Company's equity capital and at the same time reduced liabilities. The company also implemented significant restructuration measures both in terms of company law as well as business concept. As of 30 April 2009, the subsidiaries in deficit Direkt-Touristik AG and Travel24 GmbH were sold to an investor including the business activities related thereto. The reorganisation plan of Unister Holding GmbH provides for an evaluation of the acquired "travel24" brand as well as continuation of the Internet-based business activities by using the "Travel24.com" and "Travel24.de" domains. Unister Holding GmbH acquired the "Travel24.com" and "Travel24.de" domains as well as the "Travel24" brand at a total purchasing price of EUR 1.5 million. Pursuant to a License Agreement, the Travel24.com AG domains and brand are made available for at least 30 months free of charge. A monthly compensation fee in the amount of EUR 10,000 will be due from 1 January 2012 at the earliest. Compositions with creditors of Travel24.com AG agreed by Unister Holding GmbH as a precondition for implementing the above-mentioned transactions contributed to the compensation of the negative equity capital.

In our opinion, the reorganisation concept provided by Unister which was already implemented to a large extent in the second quarter of financial year 2009, is eligible to eliminate the cause of the crisis with regard to the accounting insolvency of Travel24.com AG and thus to ensure the reorganisation of Travel24.com AG. This is also confirmed by a statement of Wirtschaftsprüfungsgesellschaft BDO Deutsche Warentreuhand AG, Hamburg, subsidiary Leipzig, dated 25 June 2009 and the auditors'

opinion of Wirtschaftsprüfungsgesellschaft BDO Deutsche Warentreuhand AG, Hamburg, subsidiary Munich, dated 15 June 2009 regarding the Annual Financial Statements as of 31 December 2008.
