Notes to the Condensed Consolidated Interim Financial Statements

Six Months Ended October 31, 2015 and 2014

(Expressed in Canadian Dollars, Unaudited)

1. Nature of Operations and Going Concern

Southern Silver Exploration Corp. (the "Company") is an exploration stage company incorporated under the laws of British Columbia, Canada. The Company's principal business activities include the acquisition, exploration, and development of natural resource properties for enhancement of value and disposition pursuant to sales agreements or development by way of third party option and/or joint venture agreements. The Company's registered office is 1710 - 1177 West Hastings Street, Vancouver, British Columbia, Canada, V6E 2L3.

The business of exploring for minerals involves a high degree of risk and there can be no assurance that any of the Company's current or future exploration programs will result in profitable mining operations. The recoverability of amounts shown for mineral properties is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain financing to complete their exploration and development, and establish future profitable operations, or realize proceeds from their sale. The carrying value of the Company's mineral properties does not reflect present or future value.

These condensed consolidated interim financial statements were prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at October 31, 2015 the Company had working capital of \$207,714 (April 30, 2015 - working capital deficiency of \$463,552). The Company incurred a net loss of \$1,828,259 for the six months ended October 31, 2015 (2014 - \$298,779) and had an accumulated deficit of \$32,062,416 as at October 31, 2015 (April 30, 2015 - \$30,411,672).

The Company has relied mainly upon the issuance of share capital to finance its activities. The Company will be required to rely on current earn-in agreements and / or issue share capital to finance future exploration and administrative activities. There can be no assurance that further financing will be available to the Company and, therefore, a material uncertainty exists that casts significant doubt over the Company's ability to continue as a going concern.

These condensed consolidated interim financial statements do not include the adjustments to assets and liabilities that would be necessary should the Company be unable to continue as a going concern.

2. Basis of Preparation

These condensed consolidated interim financial statements were prepared in accordance with International Accounting Standards 34: *Interim Financial Reporting* using historical cost, except for cash flow information and financial instruments measured at fair value, and include the financial results of the Company and of the entities controlled by the Company: Southern Silver Holdings Ltd. and Southern Silver Projects Ltd., both incorporated in the British Virgin Islands, Minera Plata del Sur S.A de C.V. and Exploraciones Magistral S.A de C.V., both incorporated in Mexico, and Southern Silver Exploration (US) Corp., incorporated in the United States. All inter-company transactions and balances have been eliminated upon consolidation.

The Company's functional and presentation currency is the Canadian dollar.

2. Basis of Preparation, continued

These condensed consolidated interim financial statements do not include all of the information required for complete annual financial statements and should be read in conjunction with the Company's audited annual consolidated financial statements for the year ended April 30, 2015.

These condensed consolidated interim financial statements were approved and authorized for issue by the Board of Directors on December 29, 2015.

3. Summary of Significant Accounting Policies

The same accounting policies are used in the preparation of these condensed consolidated interim financial statements as for the most recent audited annual consolidated financial statements and reflect all the adjustments necessary for fair presentation of the results for the interim periods presented.

4. Financial Instruments

The Company's financial instruments include cash, reclamation bonds, accounts payable and accrued liabilities and amounts due to related parties.

The carrying values of accounts payable and accrued liabilities and amounts due to related parties approximate their fair values due to the short period to maturity. Reclamation bonds are non-interest-bearing, have no maturity date and their carrying values approximate fair value.

5. Mineral Properties, continued

Terms of the agreements for the above properties are described below:

(a) Cerro Las Minitas - Mexico

The property consists of 18 mineral concessions located in Durango, Mexico.

Pursuant to an agreement dated May 14, 2015, Electrum Global Holdings L.P. has the right to earn an indirect 60% interest in the property by funding exploration and development expenditures of US \$5,000,000 over a maximum four year period through the acquisition of common shares of Southern Silver Holdings Ltd (Note 9).

Pursuant to agreements dated July 7 and July 8, 2015, the Company can acquire certain equipment and one additional mineral concession. Payments are due as follows (excluding applicable local taxes):

- (i) US \$60,000 on signing (paid);
- (ii) US \$40,000 on December 30, 2015 (paid subsequent to period end); and
- (iii) US \$100,000 on June 30, 2016 (on condition of optionor providing registered title to the concession).

(b) Minas de Ameca - Mexico

On October 18, 2006, the Company acquired the El Magistral mineral claim in the Ameca region in the State of Jalisco, Mexico located about 80 kilometres west of Guadalajara. The claim is subject to a 1% NSR payable to the Mexican government.

The project previously comprised the El Magistral, Magistral I and San Luis claims. The Company returned Magistral I, which was in default, to the vendors and is continuing efforts to option the remaining claims to a third party. The Company considered these factors to be indicators of impairment and previously recorded an impairment provision against all capitalized costs relating to these claims.

(c) Oro - New Mexico, USA

The property consists of certain unpatented mining claims in the Eureka Mining District, Grant County, New Mexico, eight patented lode mining claims, which are adjacent to these claims, and surface rights to a contiguous property.

The unpatented mining claims are subject to a 2% NSR payable to the optionors whom have granted the Company an option to purchase the NSR at any time in 0.5% increments at US \$500,000 for each increment.

Pursuant to a lease with option to purchase agreement dated May 1, 2011, the Company can earn a 100% interest in six unpatented lode mining claims also located in the Eureka Mining District, Grant County, New Mexico.

5. Mineral Properties, continued

(c) Oro - New Mexico, USA, continued

Remaining lease payments are due as follows:

- (i) US \$6,000 annually on May 1, 2016 and May 1, 2017;
- (ii) US \$30,000 annually from May 1, 2018 to May 1, 2024; and
- (iii) US \$60,000 annually from May 1, 2025 to May 1, 2031.

The Company can purchase the property at any time by paying any amounts remaining under the lease, subject to a 1% NSR payable to the optionors, which terminates when aggregate payments thereunder equal US \$500,000.

The Company continues to assess its planned course of action with respect to the property and has determined this to be an indicator of impairment. Accordingly, an impairment provision was recorded against all capitalized costs relating to these claims.

9. Non-Controlling Interest

On May 14, 2015, the Company entered into an agreement with Electrum Global Holdings L.P. ("Electrum") for the right to earn an indirect 60% interest in the Cerro Las Minitas property, through the acquisition of common shares of Southern Silver Holdings Ltd. ("SSH"), by funding exploration and development expenditures of US \$5,000,000 over a maximum four year period.

On closing, Electrum contributed US \$500,000 and received a 10.71% interest in SSH, which would be forfeited if Electrum did not contribute an additional US \$1,500,000 over the initial 18 month period of the option term (US \$750,000 received as of October 31, 2015 and shown in Other Reserve and US \$750,000 received subsequent to period end). The initial US \$2,000,000 will earn Electrum a 30.1% interest in SSH.

Electrum has the right to earn an additional 20% by expending US \$1,500,000 in the succeeding 30 months of the option term. A final 10% interest may be earned by expending an additional US \$1,500,000 during this time period.
