### Notes to the condensed interim financial statements

[unaudited] [expressed in Canadian dollars]

June 30, 2020 and 2019

#### 1. Nature of business

The Hash Corporation (formerly, Senternet Phi Gamma Inc.) (the “Company”, “HCO”, “HashCo”) was incorporated under the Business Corporations Act (Ontario) on March 28, 1967 as Northville Explorations Ltd. On January 22, 2014, the Company changed its name to Senternet Phi Gamma Inc. and on July 8, 2019 the Company changed its name to its present name.

The Company is positioning itself to focus on the production and sale of cannabis-based hashish and other cannabis products. HashCo intends to apply its separation and curing techniques to produce a suite of high-quality cannabis resin products, which are all-natural and free of additive and carcinogenic solvents. At present, the Company does not possess the licences required to carry on its business in producing and selling cannabis-based hashish and other cannabis concentrates. In particular, the Company does not have a Standard Processing Licence and a Cannabis Licence under the Cannabis Act. The Company does not intend to apply for both these licences and instead relies on the Collaboration Agreement with Medz Cannabis Incorporated, an Ontario-based, privately-owned company, licensed for the cultivation, processing and sale of medical cannabis under the Cannabis Act (see note 7).

The head office of the Company’s is located at 1 Adelaide Street East, Suite 801, Toronto, Ontario, M5C 2V9.

#### Impact of COVID-19

During the six months ended June 30, 2020, the outbreak of the novel strain of coronavirus, specifically identified as “COVID-19,” has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The extent to which COVID-19 and any other pandemic or public health crisis impacts the Company’s business, affairs, operations, financial condition, liquidity, availability of credit and results of operations will depend on future developments that are highly uncertain and cannot be predicted with any meaningful precision, including new information which may emerge concerning the severity of the COVID-19 virus and the actions required to contain the COVID-19 virus or remedy its impact, among others. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company in future periods.

#### 2. Basis of presentation

##### [a] Statement of compliance

#### **[b] Going concern uncertainty**

The financial statements of the Company for the three and six months ended June 30, 2020 and 2019 have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. These financial statements do not include any adjustments to the amounts and classification of assets and liabilities that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

As at June 30, 2020, the Company has an accumulated deficit of \$6.3 million, a net loss of \$0.4 million and a working capital surplus of \$2 million. Whether, and when, the Company can attain profitability and positive cash flows from operations is subject to material uncertainty. The application of the going concern assumption is dependent upon the Company's ability to generate future profitable operations and obtain necessary financing as needed.

#### **[c] Functional currency and presentation currency**

These financial statements are presented in Canadian dollars, which is the functional currency of the Company.

#### **[d] Use of estimates and judgments**

The preparation of these financial statements in conformity with IFRS requires management to make estimates, judgements and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, consistent with those disclosed in the audited financial statements for the year ended December 31, 2019 and described in these financial statements. Actual results could differ from these estimates.

Estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Each share option converts into one common share of the Company on exercise. No amounts are paid or payable by the individual on receipt of the option. The options carry neither rights to dividends nor voting rights. Options may be exercised at any time from the date of vesting to the date of their expiry.

The Company's option Plan provides that the number of common shares reserved for issuance may not exceed 10% of the aggregate number of common shares that are outstanding unless the Board has increased such limit by a Board resolution. If any options terminate, expire, or are cancelled as contemplated by the Option Plan, the number of options so terminated, expired or cancelled shall again be available under the option Plan.
