

Titan Logix Corp. Announces Director Resignation from the Board

Edmonton, Alberta, July 6, 2015 – Titan Logix Corp., (TSX Venture: TLA), an advanced technology industrial instrumentation and controls company announces the resignation of Matthew Marquardt from its Board of Directors effective immediately.

Mr. Marquardt served as a Director since January 2011, was Chairman of the Executive Compensation and Corporate Governance Committee, and was instrumental in strengthening Titan's intellectual property portfolio, providing guidance through his experience as an Intellectual Property attorney. Mr. Marquardt, a partner in the Toronto law firm of Dickinson Wright, will be focusing his time on his family and his law practice.

Greg McGillis, President and CEO stated, "On behalf of our Chairman and Directors, I would like to sincerely thank Matt for his many contributions to Titan; he has had a significant impact on our IP portfolio. While we are sorry to see him go, we all wish him the very best in his future endeavors."

About Titan Logix Corp.

Founded in 1979, Titan Logix Corp. ("Titan" or "the Company") is a high technology company specializing in Research and Development (R&D), manufacturing and marketing of advanced technology fluid management solutions. The Company's products include Guided Wave Radar (GWR) gauges for level measurement and overfill prevention (particularly for use in mobile tanker applications), level gauges for storage tanks, and communication systems for remote alarming and control. Our products are currently used in the oil and gas, waste fluid collection, chemical and aviation industries. These technologies and their derivatives under development are applicable to a variety of additional markets which Titan plans to expand into at the appropriate time. A common practice in many of these markets is the use of manual methods for measurement and control. Due to safety considerations, the rising cost of many fluids, awareness and concerns about the environment and technological advancements enabling better operational efficiencies, we are experiencing an increased demand for our advanced technology products. We anticipate this demand will continue as we pursue expansion into other markets.

The products we manufacture are part of a complete asset management solution. The full solution consists of our own market leading products integrated with best-in-class third party solutions to enable our customers to benefit from complete fluid management, throughout each stage of their fluid handling processes. This is captured by our slogan "Advanced Technology Fluid Management Solutions, In the Field, On the Road, In the Office"™.

- In the Field: "In the Field" refers to Titan's solution offerings for storage tanks and process vessels.
- On the Road: "On the Road" refers to Titan's solution offerings for mobile tanker trucks and trailers.
- In the Office: "In the Office" refers to Titan's solution offerings that enable customers to monitor their fluid assets from the convenience of their dispatch center or other back office environment through a wired or wireless connection.

Titan Logix Corp. is a public Company listed on the TSX Venture Exchange and its shares trade under the symbol, TLA.
