

Legend Power Recognized as Top Performing TSX-Venture Clean-tech Company

February 11, 2015

Toronto - Legend Power Systems Inc. (LPS.V) ("Legend") is honoured to be recognized as one of the top performing TSX-Venture Companies in 2015, earning the spot of top performing clean-tech Company listed on the TSX-Venture Exchange.

Every year the top 50 companies listed on the TSX-Venture Exchange are recognized as part of the TSX Venture 50. The top performers are selected and evaluated based on a four point criteria – One year share price change, trading volume, market capitalization and the amount of analyst coverage. Over the 2014 calendar year, Legend's share price increased by 185%, closing the year at \$0.37 per share, with over 24 Million shares traded.

It is a privilege to be recognized as a TSX-V top performing company. For more information on the TSX-Venture 50, please visit <http://www.tmx.com/newsroom/press-releases?id=274>.

About Legend Power Systems Inc.

Legend Power Systems Inc. (www.legendpower.com) is a leading electrical energy conservation company that manufactures and markets a patented device to help commercial and industrial customers achieve significant energy savings through voltage optimization. Legend Power's Electrical Harmonizer helps companies reduce their electricity bills, maintenance costs, and increases the life of electrical equipment, while contributing to a reduction in greenhouse gas emissions.
