

ESI Appoints New Director

Victoria, British Columbia, February 28, 2017 – E. S. I. Environmental Sensors Inc. (“ESI” or the “Company”), TSX-V: ESV is pleased to announce the appointment of Mr. Michael Danielsson as director. Mr. Danielsson graduated with a Masters Degree from Stockholm’s School of Economics in 1987. He worked as an Investment Advisor and Head of Clearing for 11 years for Svenska Handelsbanken. Mr. Danielsson continued with Swedbank AB (public company) for 13 years as Vice President Risk and Valuation for Institutions and Large Corporations. He has since been an Independent Executive Consultant.

Mr. Stephan Radermacher has resigned as a Director of the Company. The Board wishes to thank Mr. Radermacher for his services.

About ESI

ESI is a manufacturer of patented and proprietary solutions for environments where understanding the presence, movement, and/or amount of water are important. Major market sectors include: agriculture, golf and turf, scientific research, civil engineering and crude oil production. ESI solutions have been successfully introduced into more than 40 countries to enable customers to optimize their operations by monitoring the presence and movement of water, managing irrigation systems, and monitoring the integrity of landfill covers.

The Company’s Flo-Point™ instrument was designed for the oil industry to measure the volumetric presence of water pumped during crude oil extraction for characterization and optimization of the process. ESI differentiates itself by translating the best technology and science available into practical, easy to use solutions. Irrigation managers, Reservoir Engineers, and Scientists have adopted ESI's products for their accuracy, ease of use, repeatability, and ability to operate in challenging environments. ESI is publicly traded on the TSX Venture Exchange under the symbol "ESV". Further information about ESI may be obtained through the Company’s website at www.esisensors.com.
