EnWave to Report Fourth Quarter and Annual 2024 Financial Results on December 12, 2024 and Host Investor Conference Call

Vancouver, B.C., December 5, 2024

EnWave Corporation (TSX-V:ENW | FSE:E4U) ("EnWave", or the "Company") announced today it will report its financial results for the fourth quarter and the year ended September 30, 2024 on Thursday, December 12, 2024 after market close. The financial statements and MD&A will be available on SEDAR at www.sedarplus.ca and on the Company's website in the late evening Vancouver time.

The Company has scheduled a conference call to discuss the results for Q4 2024 and business outlook on Friday, December 13, 2024 at 7:00 a.m. Pacific Time (10:00 a.m. Eastern Time). Brent Charleton, Chief Executive Officer and Dylan Murray, Chief Financial Officer will present EnWave's results and host a question and answer period.

Conference Call Details:

Date:	December 13, 2024
Time:	7:00am PST / 10:00am EST
Participant Access:	1-877-407-2988 (toll free number)
Webcast:	https://event.choruscall.com/mediaframe/webcast.html?webcastid=MmrUXYFQ

About EnWave

EnWave is a global leader in the innovation and application of vacuum microwave dehydration. From its headquarters in Delta, BC, EnWave has developed a robust intellectual property portfolio, perfected its Radiant Energy Vacuum (REV™) technology, and transformed an innovative idea into a proven, consistent, and scalable drying solution for the food, pharmaceutical and cannabis industries that vastly outperforms traditional drying methods in efficiency, capacity, product quality, and cost.

With more than fifty royalty-generating partners spanning twenty-six countries and five continents, EnWave's licensed partners are creating profitable, never-before-seen snacks and ingredients, improving the quality and consistency of their existing offerings, running leaner and getting to market faster with the company's patented technology, licensed machinery, and expert guidance.

EnWave's strategy is to sign royalty-bearing commercial licenses with food producers who want to dry better, faster and more economical than freeze drying, rack drying and air drying, and enjoy the following benefits of producing exciting new products, reaching optimal moisture levels up to seven times faster, and improve product taste, texture, color and nutritional value.
