

## EXHIBIT TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

### ***CALCULATION OF EARNINGS COVERAGE RATIO***

The following table sets forth the earnings coverage ratio for the 12-month period ended December 31, 2019:

---

<b>Earnings coverage ratio</b>	<b>7.53 times</b>
--------------------------------	-------------------

---

The earnings coverage ratio is equal to net earnings (before interest on long-term debt, other financial charges and incomes taxes) for the applicable period divided by interest on long-term debt and other financial charges for the applicable period.
