SolutionInc Technologies Limited Announces Share Consolidation Completion

Halifax, Nova Scotia, Canada –December, 2, 2010 SolutionInc Technologies Limited (the “Corporation”) (TSX-V-STL) previously announced that at a special meeting of shareholders of the Corporation (the “Meeting”), the shareholders passed a special resolution approving a consolidation of the Corporation’s common shares on the basis of one (1) post-consolidation share for up to every ten (10) pre-consolidation shares (“Consolidation”). The TSX Venture Exchange has approved the Consolidation.

Prior to the Consolidation the Corporation had 100,041,978. The Corporation will have approximately 10,004,197 shares outstanding following the Consolidation. However, the exact number of post-Consolidation shares will vary depending upon the treatment of fractions which will occur when each shareholder’s holdings are consolidated. In the event the Consolidation would otherwise result in the issuance of a fractional share, no fractional share will be issued and such fraction will be rounded down to the nearest whole number. Outstanding stock options will similarly be adjusted by the Consolidation ratio. The Consolidation will be effective for trading purposes on the TSX Venture Exchange as of December 2, 2010.
