ORACLE ENERGY CORP.
NOTES TO CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED MARCH 31, 2025
(Expressed in Canadian Dollars)

1. CORPORATE INFORMATION AND CONTINUANCE OF OPERATIONS

Oracle Energy Corp. (the "Company") was incorporated on October 2, 1985 under the Business Corporations Act of British Columbia and was in the business of acquiring, exploring and evaluating oil and gas properties and developing these properties further or disposing of them when the evaluation is completed. The Company continues to evaluate options and is now considering other mineral exploration as part of its future plan.

The address of the Company, the principal place of business and the registered and records office is located at Suite 1400 – 1040 West Georgia Street, Vancouver, British Columbia, Canada.

During the three months ended March 31, 2025, the Company continued to pursue opportunities to raise funds to support evaluation activities. The Company continued to evaluate various mineral projects in West Africa and is now considering options other than Uranium.

To date, the Company has not earned significant revenues and has no revenue-generating operations. During the three months ended March 31, 2025, the Company recorded a net loss of \$118,012 (2024 - \$65,635) and as of that date, the Company had a working capital deficiency (excluding prepaid expenses) of \$768,076 (December 31, 2024 - \$730,830). As at March 31, 2025, the Company has an accumulated deficit of \$28,615,513 (December 31, 2024 - \$28,497,501). The Company's operations are primarily funded with debt or equity financing, which is dependent upon many external factors and may be difficult to raise when required. The Company does not have sufficient cash to fund current operations, settle its liabilities, or complete proposed acquisitions and will require additional financing, which if not raised, may result in the delay, postponement or curtailment of some or all of its activities.

The Company's business and its ability to complete a financing on favorable economic terms, or at all, may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, tariffs, changes in laws, and national and international circumstances. Recent geopolitical events and potential economic global challenges such as the risk of higher inflation, tariffs, and energy crises, create further uncertainty and risk with respect to the prospects of the Company's business.

These financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assume the realization of assets and discharge of liabilities in the normal course of business. However, the above material uncertainties cast significant doubt on the use of the going-concern basis of accounting used in the preparation of these financial statements. These financial statements do not give effect to adjustments that would be necessary should the Company not be able to continue as a going concern. Such adjustments could be material.

ORACLE ENERGY CORP.
NOTES TO CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED MARCH 31, 2025
(Expressed in Canadian Dollars)

2. BASIS OF PRESENTATION

a) Statement of Compliance

The condensed interim financial statements of the Company for the three months ended March 31, 2025 and 2024, including comparatives, have been prepared in accordance with International Accounting Standard ("IAS") 34, Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). Accordingly, these condensed interim financial statements do not include all of the information and footnotes required by IFRS for complete financial statements for the year-end reporting process.

b) Basis of Preparation

These financial statements have been prepared on a historical cost basis except for financial instruments that have been measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

c) Presentation and Functional Currency

The presentation and functional currency of the Company is the Canadian dollar.

Transactions in currencies other than the functional currency are recorded at the rates of exchange prevailing on the dates of the transactions. At each financial position reporting date, monetary assets and liabilities that are denominated in foreign currencies are translated at the rates prevailing at the date of the statement of financial position. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

d) Significant Accounting Judgments and Estimates

The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. The financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and may affect both the period of revision and future periods.

NOTES TO CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED MARCH 31, 2025
(Expressed in Canadian Dollars)

2. BASIS OF PRESENTATION (continued)

d) Significant Accounting Judgments and Estimates (continued)

Significant judgments about the future and other sources of estimation uncertainty that management has made at the reporting date that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

i) *Going concern assessment:*

Management assesses the Company's ability to continue as a going concern at each reporting date, using all quantitative and qualitative information available. This assessment, by its nature, relies on estimates of future cash flows and other future events (as discussed in Note 1), whose subsequent changes could materially impact the validity of such an assessment.

Elements of these financial statements subject to material estimation uncertainty include:

i) *Valuation of equity instruments:*

The Company used the Black Scholes model to estimate the value of equity instruments such as warrants and options. Significant judgement may be made in determining volatility and interest rates to use in the model.

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES

a) The accounting policies applied by the Company in these condensed interim financial statements are the same as those applied to the financial statements as at and for the years ended December 31, 2024 and 2023. Certain comparative figures may have been reclassified in order to conform to the current period's financial statement presentation.

b) New accounting standards and amendments effective for future periods

IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 introduces three sets of new requirements to give investors more transparent and comparable information about companies' financial performance for better investment decisions.

1. Three defined categories for income and expenses (operating, investing and financing) to improve the structure of the income statement, and require all companies to provide new defined subtotals, including operating profit.
2. Requirement for companies to disclose explanations of management-defined performance measures (MPMs) that are related to the income statement.
3. Enhanced guidance on how to organise information and whether to provide it in the primary financial statements or in the notes.

This new standard is effective for reporting periods beginning on or after January 1, 2027.

(Expressed in Canadian Dollars)

4. NOTES PAYABLE

During the year ended December 31, 2020, the Company entered into debt deferral arrangements in the amount of \$302,677 whereby various related parties, key management and third parties agreed to defer 75% of the amounts owing into three equal installments, repayable from each of the first three private placements completed by the Company subsequent to the first year after the Company completes a qualifying transaction. The 25% current portion was to be repaid from the proceeds from the next private placement after a qualifying transaction is completed. As a result of the debt settlements and debt deferral arrangements, 25% of the amounts were initially reclassified from related party debt to current and 75% to long term notes payable. In fiscal 2023, management elected to present the notes payable as current due to uncertainties surrounding the timing of the private placements and repayments of the notes.

During the year ended December 31, 2020, the Company borrowed \$40,000 from the Canada Emergency Business Account ("CEBA") program. The CEBA Loan had an initial term that expired on January 18, 2024 (the "Expiry Date"), throughout which, the CEBA Loan remained interest free. The balance was not paid by the Expiry Date, and the remaining balance was converted to a non-amortizing term loan with full principal repayment due on December 31, 2026. The loan is subject to an interest rate of 5% per annum, calculated and payable monthly.

As at March 31, 2025, the total amounts owing were \$300,571 (December 31, 2024 - \$300,587). The outstanding loans are unsecured and bear no interest (with the exception of the CEBA Loan, which bears interest at 5% per annum). The summary of notes payable as of March 31, 2025 and December 31, 2024 is as follows:

	MARCH 31 2025	DECEMBER 31 2024
Notes payable	\$ 260,571	\$ 260,587
CEBA	40,000	40,000
Total notes payable	300,571	300,587
Current notes payable	(260,571)	(260,587)
Long term notes payable	\$ 40,000	\$ 40,000

5. RELATED PARTY BALANCES AND TRANSACTIONS

Related party transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

5. RELATED PARTY BALANCES AND TRANSACTIONS (Continued)

Key management personnel are the persons responsible for planning, directing, and controlling the activities of the Company, and include both executive and non-executive directors, certain senior officers, and entities controlled by such persons. The Company considers all directors and officers of the Company to be key management personnel.

During the three months ended March 31, 2025, the Company accrued consulting fees of \$Nil (2024 - \$12,000) for Chief Financial Officer services. The Company also expensed \$4,000 of fees prepaid to a Director of the Company for management consulting as it looks to raise additional funds and evaluate projects in West Africa. Directors' fees of \$700 were paid to one director. The Company paid rent of \$10,500 to a Corporation with two common directors. The Company recorded \$11,405 for vested stock-based compensation on options granted in the prior year.

As at March 31, 2025, \$80,239 (December 31, 2024 - \$81,232) was owing to key management personnel or to a company controlled by an officer or director and the amounts were included in due to related parties. The amounts payable are non-interest bearing, are unsecured, and have no specific terms of repayment.

As at March 31, 2025, \$6,981 (December 31, 2024 - \$6,981) was owing to key management personnel or to a company controlled by an officer or director and the amounts were included in notes payable.

6. SHARE CAPITAL

7. MANAGEMENT OF CAPITAL

The Company's objectives when managing capital are to pursue and complete the identification and evaluation of assets, properties or businesses with a view to acquisition. The Company does not have any externally imposed capital requirements to which it is subject.

As at March 31, 2025 and December 31, 2024, the Company had capital resources consisting of cash. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may pursue equity or debt financings.

There were no changes in the Company's approach to capital management during the three months ended March 31, 2025.

The Company's ability to continue as a going concern is dependent upon successful completion of additional financing, continuing support of creditors and its ability to attain profitable operations.

NOTES TO CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED MARCH 31, 2025
(Expressed in Canadian Dollars)

8. FINANCIAL RISK EXPOSURE AND RISK MANAGEMENT

The Company is exposed in varying degrees to a number of risks arising from financial instruments. Management's close involvement in the operations allows for the identification of risks and variances from expectations. The Company does not participate in the use of financial instruments to mitigate these risks and has no designated hedging transactions. The Board approves and monitors the risk management processes. The Board's main objectives for managing risks are to ensure liquidity, the fulfillment of obligations, the continuation of the Company's exploration activities, and limited exposure to credit and market risks. There were no changes to the objectives or the process from the prior period.

The types of risk exposure and the way in which such exposures are managed are as follows:

a) Credit Risk

Credit risk primarily arises from the Company's cash, amounts receivable and notes receivable. The risk exposure is limited to their carrying amounts at the statement of financial position date. Cash is held as cash deposits. The Company does not invest in asset-backed deposits or investments and does not expect any credit losses. The Company periodically assesses the quality of its investments and is satisfied with the credit rating of the bank and the investment grade of the guaranteed investment certificates. Amounts receivable primarily consists of Goods and Services Tax (GST) credits.

b) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company ensures there is sufficient capital to meet short-term business requirements. One of management's goals is to maintain an optimal level of liquidity through the active management of assets, liabilities and cash flows. The Company's accounts payable and accrued liabilities and due to related parties are due within one year and notes payable are due within two years or based on the expected timing of completing a qualifying transaction. The undiscounted contractual cash flows of its financial liabilities are as follows:

	Within 1 year	2 to 3 years	Total
Accounts payable and accrued liabilities	\$ 430,076	\$ -	\$ 430,076
Notes payable	260,571	40,000	300,571
Due to related parties	80,239	-	80,239
	<u>\$ 770,886</u>	<u>\$ 40,000</u>	<u>\$ 810,886</u>

The Company's cash is deposited in major financial institutions.

The Company plans to raise additional capital through the issuance of equity instruments during the year in order to meet its current obligations.

8. FINANCIAL RISK EXPOSURE AND RISK MANAGEMENT (continued)

c) Market Risk

The significant market risks to which the Company is exposed are currency, interest rate, commodity and equity price risks.

i) Currency Risk

The operating results and financial position of the Company are reported in Canadian dollars. As the Company is exploring opportunities in an international environment, some of the Company's financial instruments and transactions are denominated in currencies other than the Canadian dollar. The results of the Company's operations are subject to currency risk.

The majority of the Company's costs are incurred in Canada and are denominated in Canadian dollars. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the transaction date.

The Company has not entered into any agreements or purchased any foreign currency hedging instruments to hedge possible currency risks at this time. Management believes the foreign exchange risk derived from currency conversions is not significant, and therefore, does not hedge its foreign exchange risk.

As at March 31, 2025 and December 31, 2024, the Company is exposed to currency risk through the following monetary assets and liabilities denominated in foreign currencies:

	MARCH 31 2025	DECEMBER 31 2024
Cash	USD 6	USD 24
Accounts payable and accrued liabilities	USD 1,385	USD 1,385
Notes payable	USD 12,000	USD 12,000

Based on the above net exposures and assuming that all other variables remain constant, a 10% change in the value of the foreign currencies against the Canadian dollar would result in an increase or decrease of \$1,923 (Dec 31, 2024 - \$1,923) in income/loss from operations.

ii) Interest Rate Risk

As at March 31, 2025 and December 31, 2024, no cash was held in interest bearing deposits. As such, the Company is not subject to interest rate risk.

iii) Commodity and Equity Price Risk

The Company is exposed to price risk with respect to equity prices. Equity price risk is defined as the potential adverse impact on the Company's financing abilities due to movements in individual equity prices or general movements in the stock market. The Company closely monitors equity prices and the stock market to determine the appropriate course of action to be taken by the Company.

As at March 31, 2025 and December 31, 2024, the Company had no investments subject to commodity and equity price risk.

9. SUBSEQUENT EVENTS

Subsequent to the three months ended March 31, 2025, 670,000 warrants expired. There were no warrants exercised during this period.
